Purpose of the Explanatory Memorandum

The purpose of this Explanatory Memorandum is to explain the terms of the Re-domiciliation and the manner in which the Re-domiciliation will be considered and implemented (if approved), to set out certain information required by law and to provide all other information (other than information previously disclosed to Shareholders) which is known to BLY, and which is material to the decision of Shareholders whether or not to vote in favour of the Re-domiciliation Scheme Resolution.

CHAIRMAN'S LETTER

29 July 2021

Dear Shareholder,

I am pleased to invite you to attend the Re-domiciliation Scheme Meeting to consider and vote on the proposal to transfer Boart Longyear Limited's (**BLY** or the **Company**) domicile from Australia to Canada (the **Re-domiciliation**) by way of scheme of arrangement between BLY and its shareholders.

Overview of the Recapitalisation Transactions

As announced on 13 May 2021, BLY entered into the Restructuring Support Agreement (**Restructuring Support Agreement**) with an overwhelming majority of BLY's lenders, including affiliates of Ares, Ascribe, CBP, Corre, FPA and Nut Tree, under which the parties have agreed, subject to the satisfaction of certain conditions, to pursue and implement a recapitalisation transaction as summarised below (the **Recapitalisation**). The Restructuring Support Agreement also reflects BLY's desire to pursue and implement the Re-domiciliation in connection with the Recapitalisation.

The Recapitalisation will convert approximately US\$795 million of BLY's debt and accrued interest costs owing to Scheme Creditors under the Term Loan A, Term Loan B, the SSN Indenture and the SUN Indenture into approximately 98.5% of BLY's post-Recapitalisation ordinary shares (before (1) the issue of any Shares under the Share Purchase Plan or the Creditor Share Purchase Option, (2) the issue of any Shares on exercise of any New Warrants, Existing Warrants and BLY Options, (3) any buy back of Shares under the Selective Buy-Back and (4) the issue of any Shares under any management incentive plan). If approved and implemented the Recapitalisation will significantly reduce BLY's debt, strengthen the balance sheet, lower interest expenses and enhance liquidity to support BLY's operations and future growth.

The Recapitalisation will primarily be implemented by two interdependent creditors' schemes of arrangement between BLY and its creditors under Part 5.1 of the Corporations Act. These schemes of arrangement comprise the Secured Creditors' Scheme and the Unsecured Creditors' Scheme (together, the **Creditors' Schemes**) and will effect a release of all outstanding amounts under the Term Loan A, Term Loan B, SSN Indenture and SUN Indenture, in consideration for:

- (a) the issuance to the TLA Purchasers, TLB Purchasers, SSN Noteholders and SUN Noteholders of Shares equal to in aggregate 98.5% of BLY's post-Recapitalisation ordinary shares (before (1) the issue of any Shares on the exercise of any New Warrants, Existing Warrants and BLY Options (2) the issue of any Shares under the Share Purchase Plan and Creditor Share Purchase Option, (3) any buy-back of Shares under the Selective Buy-Back, and (4) the issue of any Shares under any management incentive plan) (the **New Common Equity**);
- (b) the issuance of the New Warrants to SUN Noteholders in accordance with the terms of the Unsecured Creditors' Scheme with a strike price per Warrant Share of A\$2.79 (the **New Warrants Issuance**); and
- (c) the offer, first to SUN Noteholders, then to TLA Purchasers, TLB Purchasers and SSN Noteholders of the opportunity to purchase Shares at a price of A\$2.48 per Share (calculated on a post-Share Consolidation basis), up to an aggregate cap of US\$2.5 million plus any unsubscribed amount under the Share Purchase Plan (the **Creditor Share Purchase Option**).

BLY is also proposing to undertake the following in connection with the Recapitalisation:

- **Share Consolidation:** a 20 for 1 share consolidation to reduce the number of Shares on issue which will be effected prior to issue of any new Shares under the Creditors' Schemes, Share Purchase Plan and Creditor Share Purchase Option and the completion of the Selective Buy-Back;
- **Selective Buy-Back:** provided that the Re-domiciliation Scheme Resolution is approved by the Requisite Majorities, Shareholders approve the Selective Buy-Back at the EGM and the Creditors' Schemes become Effective, Eligible SBB Shareholders who hold parcels of Shares valued at less than AU\$3,000 will have the opportunity, under certain conditions, to offer to sell their Shares to BLY under a Selective Buy-Back for A\$2.48 per Share (calculated on a post-Share Consolidation basis) which is the same price as the implied issue price of Shares issued under the Creditors' Schemes. BLY may in its absolute discretion determine whether to accept (in whole or in part) or reject an offer from Eligible SBB Shareholders to sell Shares under the Selective Buy-Back and the maximum aggregate amount that BLY will spend to buy-back Shares under the Selective Buy-Back will be US\$500,000.

The Selective Buy-Back is intended to give Eligible SBB Shareholders who hold small parcels of Shares the opportunity to exercise a cash-out option in lieu of retaining their existing Shares, noting that existing Shareholders will be significantly diluted following implementation of the Creditors' Schemes and may not wish to hold CDIs in the redomiciled Canadian company. The Selective Buy-Back will provide Eligible SBB Shareholders with the opportunity to sell their Shares without incurring brokerage fees and other expenses.

- **Share Purchase Plan:** offer Eligible SPP Shareholders the opportunity to subscribe for up to AU\$30,000 of Shares at a price of A\$2.48 per Share (calculated on a post-Share Consolidation basis) under a share purchase plan, to raise up to a maximum of US\$2.5 million.
- **Exit Financing Facility:** refinance the Existing Backstop ABL and the Incremental Finance Facility pursuant to the Exit Financing Facility.

The table set out below provides an overview of the share price for each of the Share Purchase Plan and the Selective Buy-Back (being options available to Shareholders) and the CSPO (being an option available to Scheme Creditors).

Shareholder Transactions		Pricing (on a post-Share Consolidation basis)
Issue of new shares under Share Purchase Plan		A\$2.48 per share
Buy back of existing shares under Selective Buy-Back		A\$2.48 per share
Scheme Transactions	Creditor	Pricing (on a post-Share Consolidation basis)
Issue of new shares under Creditor Share Purchase Option		A\$2.48 per share

Implementation of the Recapitalisation is subject to a number of conditions, including (amongst others):

- Creditors of BLY approving the Creditors' Schemes by the requisite majorities;
- Court approval of the Creditors' Schemes; and

- Shareholders of BLY approving the Recapitalisation Resolutions by the requisite majorities.

Overview of the Re-domiciliation

In connection with the Recapitalisation, BLY proposes to re-domicile its corporate and tax domicile to Ontario, Canada. Canada was chosen after a review of the benefits, disadvantages and risks as against remaining incorporated in Australia and re-domiciling to the United States. The BLY Board is unanimously of the view that the advantages of the Re-domiciliation significantly outweigh the disadvantages and risks.

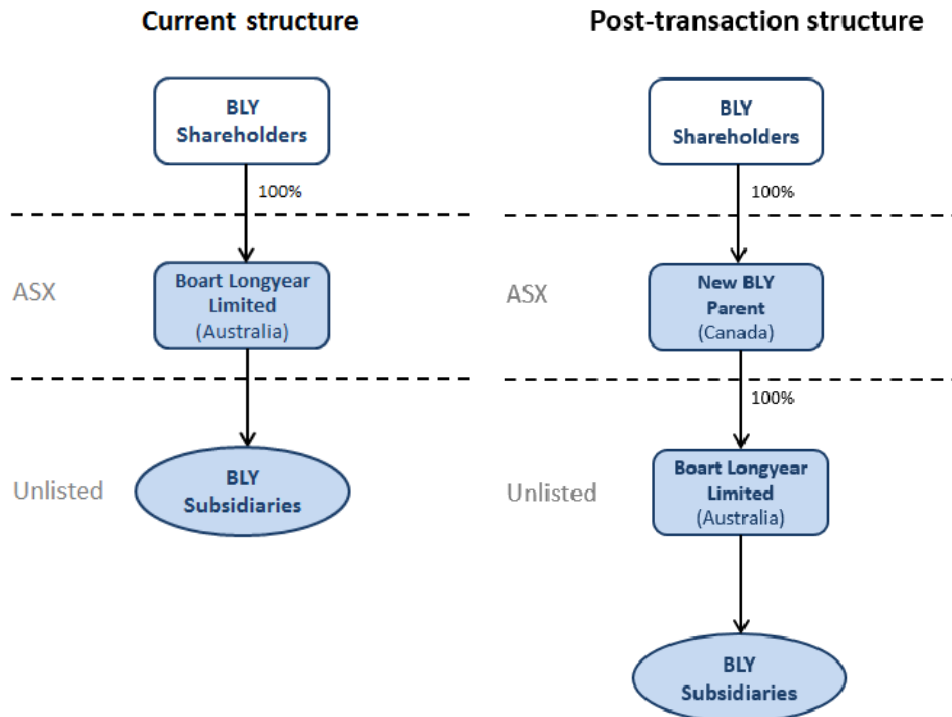

The Re-domiciliation is subject to, amongst other things:

- (d) approval of the Re-domiciliation Scheme by:
 - (i) greater than 50% in number of Shareholders present and voting at the Re-domiciliation Scheme Meeting (in person, by proxy, by attorney or by a corporate representative); and
 - (ii) at least 75% of the total number of votes cast on the Re-domiciliation Scheme Resolution at the Re-domiciliation Scheme Meeting,
 (the **Requisite Majorities**); and
- (e) approval by the Court of the Re-domiciliation Scheme; and
- (f) the Creditors' Schemes becoming effective.

If the Re-domiciliation Scheme is approved by Shareholders and the Court and becomes Effective:

- All of the Shares will be transferred to a new holding company incorporated in Ontario, Canada, Boart Longyear Ltd (**New BLY Parent**) and BLY will become a wholly owned subsidiary of New BLY Parent.
- Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive in exchange for each Share held by them on the Re-domiciliation Scheme Record Date a CHES Depositary Interest representing a beneficial interest in a New BLY Parent Share (**New BLY Parent CDI**) which will be able to be traded on the ASX.
- Ineligible Foreign Shareholders will not be eligible to receive New BLY Parent CDIs under the Re-domiciliation Scheme. Instead, the New BLY Parent CDIs to which Ineligible Foreign Shareholders would otherwise be entitled will be issued to a nominee appointed by BLY who will sell those New BLY Parent CDIs and Ineligible Foreign Shareholders will receive the net proceeds from the sale of those New BLY Parent CDIs.

The diagrams below show the simplified current structure of the BLY Group and the proposed structure of the group following implementation of the Re-domiciliation Scheme.

Further details of the Re-domiciliation, including its implications, are explained in this Explanatory Memorandum.

I recommend that you read this Explanatory Memorandum in detail and encourage you to attend the Re-domiciliation Scheme Meeting (in person or by proxy, attorney or corporate representative).

North American Dual Listing

Subject to the implementation of the Re-domiciliation, BLY will remain listed on the ASX through New BLY Parent and also expects that New BLY Parent will pursue a dual listing of its shares in North America at a later date.

Directors Recommendation

The BLY Board unanimously recommend that Shareholders vote in favour of the Re-domiciliation Scheme Resolution at the Re-domiciliation Scheme Meeting. Each Director intends to cause any Shares in which he has a Relevant Interest to be voted in favour of the Re-domiciliation Scheme Resolution.

Independent Expert's opinion

The BLY Board commissioned KPMG to prepare the Re-domiciliation Independent Expert's Report. The Re-domiciliation Independent Expert's opinion is that the Re-domiciliation is, on balance, in the best interests of Shareholders.

A copy of the Re-domiciliation Independent Expert's Report is contained in Appendix A.

Overview of advantages, disadvantages and risks associated with the Re-domiciliation

In making its recommendation, the BLY Board has taken into account what it considers to be the advantages, disadvantages and key risks associated with the Re-domiciliation and have unanimously formed the view the advantages significantly outweigh the disadvantages and risks. Section 5 sets out these matters in some detail, some of which are set out below.

Advantages	Disadvantages	Associated Risks
<ul style="list-style-type: none"> ✓ Potential for improved access to capital ✓ Greater organisational efficiency ✓ Better alignment of post-Recapitalisation capital structure with revenue sources ✓ Aligning shareholder base and management with a familiar jurisdiction ✓ Retention of ASX listing and familiarity with local exchange ✓ Comparable shareholder protection ✓ Reduced cost of insurance 	<ul style="list-style-type: none"> ✗ Additional cost and administrative burden to implement the Re-domiciliation Scheme ✗ For Australian based shareholders, a change in jurisdiction ✗ Ineligible Foreign Shareholders will not be able to receive New BLY Parent CDIs ✗ The Re-domiciliation Scheme may have adverse taxation implications for individual Shareholders 	<ul style="list-style-type: none"> ○ The Re-domiciliation may fail to realise the full anticipated benefits ○ The exact value of New BLY Parent CDIs is not certain ○ Tax risks for BLY associated with the Re-domiciliation

You are also encouraged to consider:

- the taxation report summarising the **Australian tax implications** for certain eligible Shareholders who dispose of their Shares and acquire New BLY Parent CDIs under the Re-domiciliation Scheme (see Section 9);
- the taxation report summarising the **Canadian tax implications** for certain Shareholders in respect of the exchange of Shares and the acquisition and holding of New BLY Parent Shares received pursuant to the Re-domiciliation Scheme (see Section 10); and
- the **comparison of Australian and Canadian company rules** (Section 8.4), particularly in the context of the explanation of CDI arrangements in Appendix E.

Governance and management

Under the terms of the Restructuring Support Agreement, BLY has agreed that the post-Recapitalisation composition of the BLY Board, and if the Re-domiciliation is implemented, the New BLY Parent Board, will consist of nine directors and include:

- (a) the Chief Executive Officer;
- (b) the CBP Nominee Directors, comprising five directors nominated by CBP; and
- (c) the Ad Hoc Group Nominee Directors, comprising three directors nominated by the Ad Hoc Group.

The director nomination rights will be documented through the entry into director nomination agreements pursuant to which, whilst the BLY Board is comprised of nine directors, BLY will grant to CBP the right to nominate up to five persons for appointment to the BLY Board, and the Ad Hoc Group the right to nominate up to three persons for appointment to the BLY Board (**BLY Director Nomination Agreements**).

If the Re-domiciliation is approved and implemented, the director nomination rights contemplated by the Restructuring Support Agreement will be documented by director nomination agreements pursuant to which New BLY Parent will grant each of CBP and the Ad Hoc Group rights to nominate

the same number of persons for appointment as directors on the board of New BLY Parent (**New BLY Parent Director Nomination Agreements**). The New BLY Parent Director Nomination Agreements will be governed by Canadian law.

The BLY Director Nomination Agreements (and, if the Re-domiciliation is approved and implemented, the New BLY Parent Director Nomination Agreements) will replace existing director nomination rights granted to CBP, Ares and Ascribe under the current director nomination agreements between those parties and BLY.

In the event that the BLY Board increases in size from nine to ten directors at any time (excluding alternate directors) in accordance with BLY's constitution, and provided that increase was not caused by an act of the Centerbridge Board Nominees, Centerbridge or an associate of Centerbridge, so long as Centerbridge holds, in aggregate, Retained Shares which represent 40% or more of the issued Shares in the Company, Centerbridge will have the right to nominate six directors for appointment to the BLY Board.

In accordance with the Articles and By-Laws, the New BLY Parent Board shall comprise a maximum of nine directors.

Your vote is important

Shareholders will also be able to attend and participate in the Re-domiciliation Scheme Meeting via an online platform. 3. OVERVIEW OF THE RE-DOMICILIATION SCHEME

3.1 Background

In considering the proposed Re-domiciliation, the Company has reviewed the benefits, disadvantages and risks of maintaining its corporate and tax domiciliation in Australia, as compared to a re-domiciliation to Canada or the United States. The Company's analysis included a review of several factors including, but not limited to, the existing business substance in Canada, the desires of the major shareholders, political stability, the general regulatory environment, the ease and access to the Canadian legal system and the sophistication of the Canadian financial market (specifically within the mining sector).

The BLY Board has determined that New BLY Parent should be incorporated in Ontario, Canada and listed on ASX.

The reasons why the BLY Board decided to re-domicile to Canada rather than the United States include that BLY considers that:

- (a) there is a greater understanding of BLY's history in Canada given the longstanding mining heritage and familiarity in Canada with BLY's brand.
- (b) there is a larger pool of mining and drilling peers located in Canada as compared to the United States which is more likely to create incremental liquidity for BLY if New BLY Parent pursues a dual listing in Canada as compared to the United States;
- (c) the Canadian investor base will be a more receptive audience having regard to the larger pool of mining and drilling peers located in Canada;
- (d) analyst coverage in Canada tends to be broader for companies of BLY's size and that should increase the likelihood of analyst coverage of BLY;
- (e) there is less onerous ongoing regulatory and reporting obligations in Canada compared to the United States; and
- (f) there is a higher likelihood of appropriate index inclusion for BLY.

The Re-domiciliation will not be implemented until after the Recapitalisation has been implemented in accordance with the Recapitalisation Documents. Further information regarding the Recapitalisation and the Recapitalisation Transactions is set out in Section 3.5 to 3.8 below.

3.2 Re-domiciliation

If the Re-domiciliation is implemented, BLY will become a wholly-owned subsidiary of New BLY Parent and those Shareholders who are Scheme Shareholders (other than Ineligible Foreign Shareholders) will hold New BLY Parent CDIs instead of Shares. The New BLY Parent will apply to be listed on ASX and BLY will be delisted from ASX. New BLY Parent will effectively replace BLY as the listed entity on ASX.

A New BLY Parent CDI is a CHESS Depository Interest (**CDI**) over a New BLY Parent Share. New BLY Parent CDIs will be traded on ASX using CHESS, whereas New BLY Parent Shares cannot be traded on ASX. Each New BLY Parent CDI will represent a beneficial interest in one New BLY Parent Share. A New BLY Parent CDI has the same economic benefits (such as dividends, bonus issues, rights issues) as a New BLY Parent Share, and substantially the same voting rights. Trading in New BLY Parent CDIs is not substantially different to trading in other CHESS approved securities (such as Shares).

All Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive one New BLY Parent Share (held in the form of a New BLY Parent CDI) for each Share held on the Re-domiciliation Scheme Record Date. There is no option for Scheme Shareholders to elect to receive cash instead of New BLY Parent CDIs. However, once New BLY Parent CDIs have commenced trading on ASX, New BLY Parent CDIs will be able to be bought and sold on ASX.

Ineligible Foreign Shareholders will not receive New BLY Parent CDIs and instead will receive the net proceeds from the sale of the New BLY Parent CDIs to which they would otherwise have been entitled under the Sale Facility (see Section 3.19 for more information).

3.3 Selective Buy-Back

Prior to the implementation of the Re-domiciliation, the Company will offer certain eligible Shareholders holding small parcels of Shares worth less than A\$3,000 (being the "**Eligible SBB Shareholders**") the opportunity to participate in a selective buy-back of their shares. The maximum aggregate amount that BLY will spend to buy-back Shares under the Selective Buy-Back will be US\$500,000. The Selective Buy-Back is subject to Shareholders approving the Re-domiciliation Scheme Resolution by the requisite majorities, Shareholders approving the Selective Buy-Back at the EGM and the Creditors' Schemes becoming Effective.

Under the Selective Buy-Back, Eligible SBB Shareholders will be entitled to offer to sell their Shares to the Company at a sale price of A\$2.48 per Share (calculated on a post Share Consolidation basis) which is the same price as the implied issue price of Shares issued under the Creditors' Schemes.

The Company may in its absolute discretion determine whether to accept (in whole or in part) or reject an offer to sell Shares received by the Company from Eligible SBB Shareholders.

The Selective Buy-Back is intended to give Eligible SBB Shareholders who hold small parcels of Shares the opportunity to exercise a cash-out option in lieu of retaining their existing Shares, noting that existing Shareholders will be significantly diluted following implementation of the Recapitalisation and may not wish to hold CDIs in the redomiciled Canadian company if the Re-domiciliation proceeds. The Selective Buy-Back will provide Eligible SBB Shareholders with the opportunity to sell their Shares without incurring brokerage fees and other expenses.

3.4 What are the conditions precedent to the Re-domiciliation Scheme?

3.5 Summary of the Recapitalisation Transactions

Subject to the conditions precedent to the Creditors' Schemes, which are summarised in Section 3.6 below, the Recapitalisation Transactions contemplate the transactions set out in Sections 3.5(a) to 3.5(f)

The table set out below provides an overview of the share price for each of the Share Purchase Plan and the Selective Buy-Back (being options available to Shareholders) and the CSPO (being an option available to Scheme Creditors).

Shareholder Transactions	Pricing (on a post-Share Consolidation basis)
Issue of new shares under Share Purchase Plan (as summarised in Section 3.5(b))	A\$2.48 per share
Buy back of existing shares under Selective Buy-Back (as summarised in Section 3.3)	A\$2.48 per share
Scheme Creditor Transactions	Pricing (on a post-Share Consolidation basis)
Issue of new shares under Creditor Share Purchase Option (as summarised in Section 3.5(c))	A\$2.48 per share

The Creditors' Schemes

- (a) The Creditors' Schemes will effect a release of all outstanding amounts under the Term Loan A, Term Loan B, SSN Indenture and SUN Indenture in consideration for:
- (i) the issuance to the TLA Purchasers, TLB Purchasers, SSN Noteholders and SUN Noteholders of Shares equal to in aggregate 98.5% of BLY's post-Recapitalisation ordinary shares (before (1) the issue of any Shares on the exercise of any New Warrants, Existing Warrants and BLY Options, (2) the issue of any Shares under the Share Purchase Plan and Creditor Share Purchase Option, (3) any buy-back of Shares under the Selective-Buy-Back, and (4) the issue of any Shares under any management incentive plan);
 - (ii) the issuance of the New Warrants to SUN Noteholders in accordance with the terms of the Unsecured Creditors' Scheme with a strike price per Warrant Share of A\$2.79; and
 - (iii) the offer, first to SUN Noteholders, then to TLA Purchasers, TLB Purchasers and SSN Noteholders of the opportunity to purchase Shares under the Creditor Share Purchase Option, described below.

Share Purchase Plan

- (b) BLY proposes to offer Eligible SPP Shareholders the opportunity to subscribe for up to A\$30,000 worth of Shares at the SPP Issue Price (being A\$2.48 per Share) (calculated on a post Share Consolidation basis), subject to an aggregate cap of US\$2.5 million. Shares issued under the Share Purchase Plan will be issued on the Creditors' Scheme Implementation Date (and after the Share Consolidation).

The Share Purchase Plan will allow Eligible SPP Shareholders the opportunity to increase their equity holding in BLY following dilution of their existing shareholding. This will allow certain Eligible SPP Shareholders, whose shareholding will be diluted under the Creditors' Schemes, the opportunity to maintain a more meaningful equity interest in the Company following completion of the Recapitalisation.

To the extent that the Share Purchase Plan is oversubscribed (ie where Eligible SPP Shareholders subscribe for an aggregate amount of Shares that exceeds the US\$2.5 million aggregate cap), participating Eligible SPP Shareholders' subscriptions will be scaled back (such that they will acquire a pro-rata percentage of the US\$2.5 million cap, calculated by reference to the amount that the participating Eligible SPP Shareholder elected to take up under the Share Purchase Plan).

To the extent that the Share Purchase Plan is undersubscribed (ie where Eligible SPP Shareholders do not subscribe for an aggregate amount of Shares that equals or exceeds the US\$2.5 million aggregate cap), the remaining Shares not subscribed for under the Share Purchase Plan will be offered under, and in accordance with the terms of, the Creditor Share Purchase Option (described further below).

Proceeds received by the Company under the Share Purchase Plan will be applied to pay down the outstanding balance under the Existing PNC ABL.

Creditor Share Purchase Option

- (c) SUN Noteholders, TLA Purchasers, TLB Purchasers and SSN Noteholders who are Secured Scheme Creditors or Unsecured Scheme Creditors will have the opportunity to subscribe for Shares at an issue price of A\$2.48 per Share (**CSPO Issue Price**). The total amount to be raised by BLY under the Creditor Share Purchase Option is an amount equal to the aggregate of US\$2.5 million plus any unsubscribed amount under the Share Purchase Plan (the **CSPO Cap Amount**). The Shares will be allocated by BLY under the Creditor Share Purchase Option in accordance with the allocation principles described below. The Shares issued under the Creditor Share Purchase Option will rank equally with BLY's existing fully paid ordinary shares on issue as at the date of their issue (which will occur after the Share Consolidation).

Shares will be allocated by BLY under the Creditor Share Purchase Option in accordance with the following principles (**CSPO Allocation Principles**):

- (i) **(Firstly, allocations to Participating SUN Noteholders)**: Shares will first be allocated to Participating SUN Noteholders (or their Permitted CSPO Nominee) on the following basis:
- (A) *(Initial pro rata allocation to Participating SUN Noteholders)*: the Shares available under the CSPO Cap Amount will initially be allocated to Participating SUN Noteholders (or their Permitted CSPO Nominee) on a pro rata basis in the same proportions as the amount of SUN Debt held (or deemed to be held) by each particular Participating SUN Noteholder as at the Creditors' Schemes Voting Entitlement Record Date represents of the total amount of SUN Debt held (or deemed to be held) by all Participating SUN Noteholders as at the Creditors'

Schemes Voting Entitlement Record Date, provided that the maximum number of Shares that will be allocated to a Participating SUN Noteholder (or their Permitted CSPO Nominee) pursuant to the Creditor Share Purchase Option will be equal to the Maximum Committed Securities number specified in the relevant section titled 'Creditor Share Purchase Option' of their SUN Account Holder Letter; and

This allocations process will be repeated until either:
 - (aa) the total number of Shares available under the CSPO Cap Amount have been fully allocated; or
 - (bb) each Participating SUN Noteholder (or their Permitted CSPO Nominee) has been allocated a number of Shares equal to the Maximum Committed Securities number specified in their SUN Account Holder Letter; and
- (ii) (**Secondly, allocations to Other CSPO Participants**): If the total number of Shares available under the CSPO Cap Amount are not fully allocated as a result of the allocation of Shares to Participating SUN Noteholders (or their Permitted CSPO Nominees) under paragraph (i) above, then the remaining available Shares will be allocated to the Other CSPO Participants (or their Permitted CSPO Nominees) on the following basis:
 - (A) *(Initial pro rata allocation to Other CSPO Participants)* the remaining available Shares will be allocated to the Other CSPO Participants (or their Permitted CSPO Nominees) on a pro rata basis in the same proportions as the number of the Shares allocated to each particular Other CSPO Participant under the Creditors' Schemes (not including Shares under the Creditor Share Purchase Option) represents of the total number of Shares allocated to all Other CSPO Participants (or their Permitted CSPO Nominees) pursuant to the Creditor Share Purchase Option will be the Maximum Committed Securities number specified in their TLA Proof of Debt Form, TLB Proof of Debt Form or SSN Account Holder Letter; and
 - (B) *(Allocation of undersubscriptions to Other CSPO Participants)* if the total number of Shares available under the CSPO Cap Amount are not fully allocated as a result of the allocations under paragraphs (i) and

(ii)(A) above, the remaining available Shares will be allocated to the Other CSPO Participants (or their Permitted CSPO Nominees) whose Maximum Committed Securities exceeded their respective initial pro rata allocation under paragraph (ii)(A) above (**Oversubscribing Other CSPO Participants**) on a pro rata basis in the same proportions as the number of the Shares allocated to each particular Oversubscribing Other CSPO Participant under the Creditors' Schemes (not including Shares under the Creditor Share Purchase Option) represents of the total number of Shares allocated to all Oversubscribing Other CSPO Participants under the Creditors' Schemes (not including Shares under the Creditor Share Purchase Option), provided always that the maximum number of Shares that will be allocated to an Other CSPO Participant (or their Permitted CSPO Nominee) pursuant to the Creditor Share Purchase Option will be equal to their Maximum Committed Securities. This allocations process will be repeated until either:

- (aa) the total number of Shares available under the CSPO Cap Amount have been fully allocated; or
- (bb) each Other CSPO Participant (or their Permitted CSPO Nominee) has been allocated a number of Shares equal to the Maximum Committed Securities number specified in their TLA Proof of Debt Form, TLB Proof of Debt Form or SSN Account Holder Letter.

New Warrants

- (d) Pursuant to the Unsecured Creditors' Scheme and the Restructuring Implementation Deed, SUN Noteholders will be issued such number of New Warrants which, in aggregate, confer the right to call for the issue of such number of shares (in BLY or the New BLY Parent, depending on whether the Re-domiciliation Scheme is approved) that would result in SUN Noteholders, assuming all New Warrants were exercised, holding 10% of the total post-recapitalisation Shares on issue (with the total number of Shares on issue for the purposes of this calculation determined (1) including the new Shares that would be issued on exercise of the New Warrants, (2) before the issue of any Shares on the exercise of any Existing Warrants and BLY Options (3) before the issue of any Shares under the Share Purchase Plan and the Creditor Share Purchase Option, (4) before any buy-back of Shares under the Selective Buy-Back and (5) before the issue of any Shares under any management incentive plan).

The terms of the New Warrants are set out the New Warrant Deed Poll at Schedule 11 to the Unsecured Creditors' Scheme. The strike price per Warrant Share is A\$2.79.

Share Consolidation

- (e) As part of the Recapitalisation, BLY is proposing that prior to the issue of Shares under the Creditors' Schemes, the Share Purchase Plan and the Creditor Share Purchase Option (and completion of the purchase by the Company of any Shares under the Selective Buy-Back), the Shares be consolidated through the consolidation of every 20 fully paid ordinary Shares into 1 fully paid ordinary Share (**Share Consolidation**).

The Share Consolidation is proposed to occur prior (rather than subsequent) to implementation of the Creditors' Schemes so that all securities issued under the Recapitalisation Transactions are issued on a post-Share Consolidation basis. The

Share Consolidation will only occur if all of the Recapitalisation Resolutions are passed by the requisite majorities of Shareholders at the EGM. The effective date of the Share Consolidation is expected to be 16 September 2021.

Exit Financing

- (f) BLY US (or another BLY group member) as borrower, and other BLY Group members as guarantors, will enter into the Exit Financing Facility to fully refinance the Existing Backstop ABL and the Incremental Finance Facility. The Exit Financing Facility will take the form of a five year term loan facility with a total commitment of US\$115,000,000.

Nominee Directors

- (g) Under the terms of the Restructuring Support Agreement, BLY has agreed that the post-Recapitalisation composition of the BLY Board, and if the Re-domiciliation is implemented, the New BLY Parent Board, will consist of nine directors and include:
 - (i) five (5) directors nominated by CBP;
 - (ii) three (3) directors nominated by the Ad Hoc Group; and
 - (iii) the Chief Executive Officer.

The above nomination rights will be further documented by the BLY Director Nomination Agreements pursuant to which, whilst the BLY Board is comprised of nine directors, BLY will grant to CBP the right to nominate up to five individuals for appointment to the BLY Board, and the Ad Hoc Group the right to nominate up to three individuals for appointment to the BLY Board.

If the Re-domiciliation is approved and implemented, the director nomination rights contemplated by the RSA will be documented by director nomination agreements pursuant to which the New BLY Parent will grant CBP the right to nominate up to five individuals, and the Ad Hoc Group the right to nominate up to three persons, for appointment to the board of directors of the New BLY Parent board. The New BLY Parent Director Nomination Agreements will be governed by Canadian law.

The BLY Director Nomination Agreements (and, if the Re-domiciliation is approved and implemented, the New BLY Parent Director Nomination Agreements) will replace existing director nomination rights granted to CBP, Ares and Ascribe under the current director nomination agreements between those parties and BLY.

In the event that the BLY Board increases in size from nine to ten directors at any time (excluding alternate directors) in accordance with its constitution, and provided that increase was not caused by an act of the Centerbridge Board Nominees, Centerbridge or an associate of Centerbridge, so long as Centerbridge holds, in aggregate, Retained Shares which represent 40% or more of the issued Shares in the Company, Centerbridge will have the right to nominate six directors for appointment to the BLY Board.

In accordance with the Articles and By-Laws, the New BLY Parent Board shall comprise a maximum of nine directors.

Court approval of the Creditors Scheme will be sought at the Second Court Hearing on 16 September 2021.
13.	(Effective) The Creditors' Schemes become Effective.	Subject to the Court approving the Creditors' Schemes, BLY anticipates this condition precedent will be satisfied on 17 September 2021

3.7 **What happens to the Re-domiciliation if the Recapitalisation does not proceed?**

The Re-domiciliation is conditional on the Creditors' Scheme becoming effective. If the Creditors' Schemes do not become effective, the Re-domiciliation will not be implemented.

For more information about the potential consequences of the Re-domiciliation not proceeding, see Section 3.20.

3.8 **What happens to the Recapitalisation if the Re-domiciliation fails?**

The Creditors' Schemes are not conditional on the implementation of the Re-domiciliation Scheme. Accordingly, if the Re-domiciliation Scheme Resolution is not approved by the Requisite Majorities or the Court does not approve the Re-domiciliation Scheme, but the Creditors' Schemes are approved by Creditors and the Court and all other applicable conditions to the Creditors' Schemes are satisfied (or, if applicable, waived), the Recapitalisation will still proceed.

Further, if the Re-domiciliation Scheme is not approved by the Requisite Majorities, the Selective Buy-Back will not proceed and Eligible SBB Shareholders will not have the opportunity to sell their Shares under the Selective Buy-Back.

3.9 **What is the opinion of the Re-domiciliation Independent Expert?**

The Re-domiciliation Independent Expert has concluded that the Re-domiciliation Scheme is, on balance, in the best interests of Shareholders. A copy of the Re-domiciliation Independent Expert's Report is set out in Appendix A to this Explanatory Memorandum.

3.10 **What are the consequences of BLY re-domiciling to Canada?**

As the New BLY Parent is a company incorporated in Ontario, Canada, its general corporate activities (apart from any offering of securities in Australia) are not regulated by the Corporations Act or ASIC, but instead are regulated by the Ontario Business Corporations Act (**OBCA**). However, as a foreign company registered in Australia, New BLY Parent will be subject to certain provisions of the Corporations Act and, subject to ASX approving the admission of New BLY Parent to the official list of the ASX and the quotation of the New BLY Parent Shares (represented by New BLY Parent CDIs) and Ordinary Warrants, will be subject to the ASX Listing Rules.

If the Re-domiciliation Scheme is implemented, all Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive New BLY Parent CDIs on the Re-domiciliation Scheme Implementation Date.

For further information on the implications of New BLY Parent being a Canadian company (including the ability to convert New BLY Parent CDIs to New BLY Parent Shares), see Section 8 and Appendix F.

3.11 **What vote is required to approve the Re-domiciliation Scheme?**

For the Re-domiciliation Scheme to proceed, it must be approved by the Requisite Majorities, being:

- (a) a majority in number (more than 50%) of those Shareholders present and voting at the Re-domiciliation Scheme Meeting in person, by proxy, by attorney or (in the case of a corporate Shareholder or proxy) by a corporate representative; and
- (b) at least 75% of the total number of votes cast on the Re-domiciliation Scheme Resolution at the Re-domiciliation Scheme Meeting by Shareholders.

3.12 What happens if I do not vote at the Re-domiciliation Scheme Meeting or do not vote in favour of the Re-domiciliation?

The Re-domiciliation cannot be implemented, and the Selective Buy-Back will not proceed, unless the Re-domiciliation Scheme Resolution is passed by the Requisite Majorities at the Re-domiciliation Scheme Meeting.

If you do not vote at the Re-domiciliation Scheme Meeting, or vote against the Re-domiciliation Scheme Resolution, then the Re-domiciliation may not be approved.

However, even if you do not vote, or if you vote against Re-domiciliation Scheme Resolution, the Re-domiciliation may still be approved. If the Re-domiciliation Scheme Resolution is passed by the Requisite Majorities, then, subject to the Court approving the Re-domiciliation Scheme and all other Re-domiciliation Conditions Precedent to the Re-domiciliation Scheme being satisfied or (if applicable) waived, the Re-domiciliation Scheme will be implemented and be binding on all Shareholders, including those who did not vote or voted against the Re-domiciliation Scheme Resolution.

3.13 What are the key steps to the Re-domiciliation Scheme taking effect?

If the Re-domiciliation Scheme Resolution is passed by the Requisite Majorities, then, subject to the Court approving the Re-domiciliation Scheme and all other Re-domiciliation Conditions Precedent being satisfied or (if applicable) waived, BLY will lodge the Court order approving the Re-domiciliation Scheme with ASIC upon which the Re-domiciliation Scheme will become Effective. For information about the indicative key dates, refer to Section 1

An overview of the key steps to implementing the Re-domiciliation Scheme is as follows:

3.14 **What will happen to BLY following implementation of the Re-domiciliation?**

If the Re-domiciliation is implemented, New BLY Parent will own all of the BLY Shares and will operate the business of the BLY Group (as then constituted, with New BLY Parent as the ultimate parent company) in a manner consistent with past practice and in accordance with the existing strategy of BLY.

Following implementation of the Re-domiciliation, BLY, which will be a subsidiary of New BLY Parent as a result of the Re-domiciliation, will pass a special resolution to convert from a public company to a proprietary company limited by shares and lodge all necessary documentation with ASIC to effect such conversion.

For information about the New BLY Parent Directors' intentions for the business, assets and employees of BLY following implementation of the Re-domiciliation Scheme, see Section 7.6.

3.15 **What are the tax implications of the Re-domiciliation?**

The Re-domiciliation Scheme may have taxation implications for Shareholders. Accordingly, Shareholders should refer to the summary of Australia and Canadian taxation implications for certain Shareholders in Section 9 and Section 10 of this Explanatory Memorandum.

3.16 **Are Shareholders required to make any cash payments to participate in the Re-domiciliation?**

No. Shareholders are not required to make any cash payments to BLY or New BLY Parent to participate in the Re-domiciliation.

3.17 Impact of the Re-domiciliation on securities other than Shares

In addition to Shares, BLY has the following securities on issue as at the date of this Explanatory Memorandum:

Security	Number	Current exercise price (Prior to adjustment for the Share Consolidation)	Expiry date
Quoted Ordinary Warrants ³	2,012,403	AU\$6.30	13 September 2024
Class A 7% Warrants ⁴	282,779	US\$1.80	1 September 2024
Class B 7% Warrants ⁴	145,037	US\$3.00	1 September 2024
BLY Options ⁵	43,158	US\$96.00 except for those options held by one former employee, which has a current exercise price of US\$57.60	Between 2024 and 2026

Existing Warrants, New Warrants and BLY Options

The Existing Warrants, the New Warrants and the BLY Options will continue in existence on implementation of the Re-domiciliation Scheme.

The terms of the Existing Warrants and the New Warrants (together, the **Warrants**) provide, amongst other things, that:

- Where there is a "Redomiciling Event" and the holder of a Share will be issued or receive Substitute Property, then prior to the consummation of that Redomiciling Event, BLY must make appropriate provision to ensure that each Warrant gives the holder of that warrant the right to acquire and receive the Substitute Property at the specified exercise price in effect immediately prior to such Redomiciling Event, in lieu of or in addition to (as the case may be) each Share that the warrant holder would have received if the Warrants had been exercised prior to the record date for that Redomiciling Event.
- For such Redomiciling Event, BLY must make appropriate provision to ensure that the terms of the Warrants shall thereafter be applicable to such Substitute Property.

The Re-domiciliation will be a Redomiciling Event for the purposes of the Warrants and the New BLY Parent CDIs will be "Substitute Property" for the purposes of the Warrants. BLY will procure that New BLY Parent enter into the Assumption Deed Poll pursuant to which

³ The terms of the Ordinary Warrants are set out in the prospectus dated 24 August 2017 lodged by Boart Longyear with ASIC and available at www.asx.com.au.

⁴ The terms of the Class A 7% Warrants and Class B 7% Warrants are set out in the Notice of Meeting and Explanatory Statement dated 12 May 2017 and available at www.asx.com.au.

⁵ For further information please refer to the Appendix 3B lodged by Boart Longyear with ASX on 16 July 2018.

New BLY Parent will agree to assume the obligations of BLY under the Warrants from the Re-domiciliation Scheme Effective Date subject to the Re-domiciliation Scheme becoming Effective. This will mean that, if the holder of a Warrant exercises that Warrant after the Re-domiciliation Scheme Effective Date, the holder of the Warrant will be issued with a New BLY Parent CDI instead of a Share.

The terms of the BLY Options permit the BLY Board to make equitable substitutions or adjustments to the BLY Options, in the BLY Board's sole and absolute discretion, in the event of any recapitalisation, stock split or combination, stock dividend or other similar event or transaction affecting the Shares.

In accordance with the terms of the Warrants and the BLY Options, the BLY Board has determined that if the Re-domiciliation Scheme becomes Effective, the securities to be issued on exercise of the Warrants and BLY Options will be New BLY Parent CDIs in substitution for Shares.

BLY will procure that New BLY Parent will enter into the Assumption Deed Poll pursuant to which it will agree to assume the obligations of BLY under the BLY Options from the Re-domiciliation Scheme Effective Date subject to the Re-domiciliation Scheme becoming Effective. This will mean that if the holder of a BLY Option exercises the BLY Option after the Re-domiciliation Scheme Effective Date, the holder of the BLY Option will be issued with a New BLY Parent CDI instead of a Share.

Long Term Incentive Plan

Under the Long Term Incentive Plan, the remuneration, nominations and governance committee has authority to grant "Awards" to eligible BLY's employees. If the conditions of an Award are satisfied so that it vests BLY can elect to either issue Shares to the holder of the Award or make a cash payment to the holder of the Award in satisfaction of the Award.

BLY has issued letters to eligible employees under the Long Term Incentive Plan informing those eligible employees of their entitlement to Awards and the vesting conditions applicable to their Awards. No Awards have vested as at the date of this Explanatory Memorandum.

Under the terms of the Long Term Incentive Plan, in the event of a recapitalisation, reorganisation, merger, amalgamation, consolidation or other similar corporate transaction or event that affects the Shares, the BLY Board shall make any such adjustments in such manner as it may deem equitable, including, amongst other things, providing for a substitution or assumption of Awards, or awards of an acquiring company. The BLY Board has determined that if the Re-domiciliation Scheme becomes Effective, any securities that will be issued on vesting of the Awards will be New BLY Parent CDIs in substitution for Shares.

BLY will procure that New BLY Parent execute the Assumption Deed Poll pursuant to which New BLY Parent will assume the obligations of BLY under the Long Term Incentive Plan subject to the Re-domiciliation Scheme becoming Effective.

3.18 Who is entitled to participate in the Re-domiciliation?

(a) Re-domiciliation Scheme Record Date

If the Re-domiciliation Scheme becomes Effective, those Shareholders registered as such on the BLY Share Register as at the Re-domiciliation Scheme Record Date will become entitled to one New BLY Parent CDI for each Shares they hold at that time (except for Ineligible Foreign Shareholders– see Section 3.18 (b)).

For the purposes of determining which Shareholders will be eligible to receive the New BLY Parent CDIs (or the net proceeds of sale under the Sale Facility in the case of Ineligible Foreign Shareholders) and participate in the Re-domiciliation Scheme, any dealing in Shares will only be recognised if:

- (i) in the case of dealings of the type to be effected by CHES, the transferee is registered in the BLY Share Register as the holder of Shares as at the Re-domiciliation Scheme Record Date; and
- (ii) in all other cases, registrable transmission applications or transfers in respect of those dealings are received on or before the Re-domiciliation Scheme Record Date at the Registry.

Subject to the Corporations Act, the ASX Listing Rules and the BLY Constitution, BLY must register the registrable transmission applications or transfers of the kind recognised above by no later than 7.00pm (Sydney time) on the Re-domiciliation Scheme Record Date.

BLY will not accept for registration or recognise for any purpose any transmission application or transfer in respect of Shares received after 7.00pm (Sydney time) on the Re-domiciliation Scheme Record Date or received prior to that time but not in registrable form.

Because implementation of the Recapitalisation Transactions and the Selective Buy-Back (assuming all necessary approvals are obtained) will occur prior to the Re-domiciliation Scheme Record Date, the Shares subject to the Re-domiciliation Scheme will:

- (i) include any Shares issued under each of:
 - (A) the Secured Creditors' Scheme;
 - (B) the Unsecured Creditors' Scheme;
 - (C) the Creditor Share Purchase Option; and
 - (D) the Share Purchase Plan; and
 - (ii) exclude any Shares purchased by BLY and cancelled under the Selective Buy-Back.
- (b) Ineligible Foreign Shareholders

Restrictions in certain countries make it impractical or unlawful to offer or receive securities in those countries. For this reason, the Scheme Shareholders whose addresses are shown in the BLY Share Register on the Re-domiciliation Scheme Record Date as being in such jurisdictions will be regarded as Ineligible Foreign Shareholders for the purposes of the Re-domiciliation Scheme and the New BLY Parent CDIs to which the Ineligible Foreign Shareholders would otherwise have been entitled will be dealt with under the Re-domiciliation Scheme via the Sale Facility, as described below in Section 3.19.

Based on the information available to the New BLY Parent as at the date of this Explanatory Memorandum, Shareholders whose addresses are shown in the BLY Share Register on the Re-domiciliation Scheme Record Date as being in the following jurisdictions will be entitled to receive New BLY Parent CDIs pursuant to the Re-domiciliation Scheme: Australia, New Zealand, Switzerland, Hong, Kong, Spain,

Luxembourg, the Netherlands, Ireland, Italy, Bermuda, the Cayman Islands, Canada or the United States of America.

The Re-domiciliation Scheme also allows New BLY Parent to not issue New BLY Parent CDIs to a Shareholder if BLY considers it would be unlawful for New BLY Parent to issue New BLY Parent CDIs in accordance with the laws of the jurisdiction in which the Shareholder is located.

If you are an Ineligible Foreign Shareholder, you will not be eligible to receive New BLY Parent CDIs under the Re-domiciliation Scheme. Instead, the New BLY Parent CDIs to which Ineligible Foreign Shareholders would otherwise be entitled will be issued to the Sale Agent and sold in accordance with clause 3.3 of the Re-domiciliation Scheme. For more information, see Section 3.19 and clause 3.3 of the Re-domiciliation Scheme.

3.19 **Sale Facility and sale of New BLY Parent CDIs to which Ineligible Foreign Shareholders would otherwise be entitled**

As noted above, the New BLY Parent CDIs that would have otherwise been issued under the Re-domiciliation Scheme to Ineligible Foreign Shareholders (the **Sale Securities**) will be issued to the Sale Agent to deal with in accordance with the Sale Facility.

Under the Sale Facility:

- (a) the Sale Agent will be responsible for selling the Sale Securities; and
- (b) as soon as reasonably practicable, and in any event within one month after the Re-domiciliation Scheme Implementation Date, the Sale Agent must:
 - (i) sell the Sale Securities, in the manner and on the terms the Sale Agent thinks fit (and at the risk of the Ineligible Foreign Shareholder); and
 - (ii) remit the net proceeds of all such sales (after deduction of any applicable fees, brokerage, taxes and charges) to BLY.

As soon as reasonably practicable (but, in any case, within 10 Business Days) after receipt by BLY from the Sale Agent of the net proceeds of the sale of all Sale Securities referred to in paragraph (b) above), BLY will remit to each Ineligible Foreign Shareholder the same portion of the net proceeds of all such sales (after deduction of any applicable fees, brokerage, taxes and charges) as the Sale Securities issued to the Sale Agent in respect of the Ineligible Foreign Shareholder bears to the total Sale Securities issued to and sold by the Sale Agent.

The payment to each Ineligible Foreign Shareholder of their respective proportion of those net proceeds will be made by BLY (at its discretion):

- (a) making a deposit in Australian currency into an account with an Australian bank notified by the Ineligible Foreign Shareholder to BLY and recorded in or for the purpose of the BLY Share Register as at the Re-domiciliation Scheme Record Date; or
- (b) sending a cheque for the relevant share of the net proceeds of sale in Australian currency by prepaid post to the Ineligible Foreign Shareholder's address as recorded in the BLY Share Register at the Re-domiciliation Scheme Record Date;

The amount of money received by each Ineligible Foreign Shareholder:

- (a) will be calculated on an averaged basis so that all Ineligible Foreign Shareholders will receive the same amount for each Sale Security, subject to rounding to the nearest whole cent; and
- (b) in respect of a Sale Security, may be more or less than the actual price that is received by the Sale Agent for that particular Sale Security.

The payment of the net proceeds from the sale of Sale Securities will be in full satisfaction of the rights of Ineligible Foreign Shareholders under the Re-domiciliation Scheme. Under the Re-domiciliation Scheme, Scheme Shareholders who are Ineligible Foreign Shareholders appoint BLY as their agent to receive any financial services guide or other notice given by the Sale Agent under the Corporations Act.

3.20 **What happens if the Re-domiciliation does not proceed?**

The Re-domiciliation will not proceed if:

- (a) the Re-domiciliation Scheme Resolution is not approved by the Requisite Majorities at the Re-domiciliation Scheme Meeting;
- (b) the Court does not approve the Re-domiciliation Scheme;
- (c) the Creditors' Schemes do not become effective; or
- (d) any other Re-domiciliation Conditions Precedent are not satisfied or waived.

If the Re-domiciliation does not proceed:

- (e) Shareholders will not have the opportunity to exchange their Shares for New BLY Parent CDIs or, in the case of Ineligible Foreign Shareholders, they will not receive the net proceeds from the sale of New BLY Parent CDIs;
- (f) Shareholders will retain their current holding of Shares (unless they sell them);
- (g) the Selective Buy-Back will not proceed;
- (h) Shares will trade on the basis that the Re-domiciliation will not proceed; and
- (i) the advantages of the Re-domiciliation described in Section 5.2 will not be realised, and the disadvantages and potential risks described in Sections 5.3, 5.4 and 5.4(c) will not arise.

4. **WHAT IS THE BLY BOARD'S RECOMMENDATION AND THE OPINION OF THE RE-DOMICILIATION INDEPENDENT EXPERT?**

4.1 **What is the BLY Board's recommendation in respect of the Re-domiciliation?**

Each of the Directors considers himself justified in making a recommendation in relation to the Re-domiciliation Scheme Resolution.

The Directors have unanimously concluded that the Re-domiciliation, which is to be implemented by way of the Re-domiciliation Scheme, is in the best interests of Shareholders and they unanimously recommend that you vote in favour of the Re-domiciliation Scheme Resolution at the Re-domiciliation Scheme Meeting.

In making this recommendation, the Directors have considered the following:

- the advantages and disadvantages of the Re-domiciliation, as described in Sections 5.2 and 5.3; and
- the potential, new and existing risks associated with the Re-domiciliation and an investment in New BLY Parent, as described in Section 5.4.

The Directors consider that the advantages of the Re-domiciliation significantly outweigh the disadvantages and potential risks.

Each Director intends to cause any Shares in which he or she has a Relevant Interest to be voted in favour of the Re-domiciliation Scheme Resolution.

4.2 **What is the Re-domiciliation Independent Expert's Opinion?**

The Re-domiciliation Independent Expert has concluded that the Re-domiciliation Scheme is, on balance, in the best interests of Shareholders.

A copy of the Re-domiciliation Independent Expert's Report, which includes the reasons for the Re-domiciliation Independent Expert's conclusion, is contained in Appendix A. Shareholders are encouraged to read the Re-domiciliation Independent Expert's Report in full.

5. **ADVANTAGES, DISADVANTAGES AND RISKS ASSOCIATED WITH THE RE-DOMICILIATION**

5.1 **Introduction**

Shareholders should carefully consider the following advantages and disadvantages of the Re-domiciliation, as well as the risks associated with the Re-domiciliation and an investment in New BLY Parent, in deciding whether or not to vote in favour of the Re-domiciliation Scheme Resolution.

As noted in Section 4, the BLY Board considered both the advantages and disadvantages (and potential risks) of the Re-domiciliation as part of the process undertaken prior to making their recommendation that Shareholders approve the Re-domiciliation.

5.2 **What are the advantages of the Re-domiciliation?**

The BLY Board believes that the implementation of the Re-domiciliation has the following advantages:

(a) Potential for improved access to capital

The future growth of BLY may require access to capital markets that are able to provide competitive funds in the form of equity and debt. A change in domicile to Canada potentially increases the attractiveness of BLY to a more diverse financial market with a strong interest in mining across the world. The Re-domiciliation also has the potential to make BLY more attractive to Canadian institutional investors and pooled funds who limit the proportion of foreign issuers in their "Canadian equity" portfolios in order to manage their international market risk. As a Canadian incorporated company, New BLY Parent should have broader access to the capital pools of Canadian and US investors who will be familiar with the Canadian legal framework. This greater access to capital and debt markets could also potentially allow New BLY Parent to limit some of its exposure to financial risk.

(b) Greater organisational efficiency

BLY is an ASX listed company with its headquarters based in Salt Lake City, Utah, USA where its key corporate functions and a majority of its senior management are situated. The majority of BLY's employees, as well as its institutional investors, are also located in North America. BLY operates a global diversified metals and mining business with operations in North America, Latin America, Europe, Middle East and Africa (**EMEA**) and the Asia Pacific. In 2020, operations in North America accounted for 46% of total global revenue. An additional 10% of total global revenue came from operations in Latin America which operates in a similar time zone to Salt Lake City. In contrast, operations in the Asia Pacific region accounted for approximately 25% of the BLY Group's total global revenue.

As a Canadian incorporated company, New BLY Parent will perform significant corporate functions from its US office. New BLY Parent will be in a better position to manage its operations in the USA, Canada, Latin America and EMEA given the favourable time zones and geographic proximity to these jurisdictions to the USA compared to Australia. A not insignificant advantage in this regard is that the re-domiciliation of BLY to Canada will mean that BLY's senior management team will have ready access to legal, accounting and other resources in time zones where they are located. BLY also anticipates that this alignment will, over time, result in net reductions in its overhead costs.

(c) Better alignment of capital structure with revenue sources

As noted in paragraph (b) above, BLY's operations are now heavily concentrated in North America. If the Recapitalisation is implemented, the only material financial indebtedness of the BLY Group will be the obligations of BLY US and certain BLY Group obligors under the Exit Financing Facility, being a New York law governed facility. The lenders under the Exit Financing Facility are all based in North America.

BLY's capital structure does not currently fully align its external debt to the jurisdictions where the majority of its revenue is earned, where its financial creditors are based or the governing law of its financial indebtedness. The business earns a significant proportion of its revenue in North America (U.S. and Canada), so it is preferable to, as much as possible, have the BLY Group's debt allocated to those jurisdictions, which have the greatest ability to repay it. The Directors believe that the Re-domiciliation will allow for the efficient reallocation of all its financial indebtedness to permit the BLY Group to service the debt in a more efficient manner.

(d) Aligning shareholder base and management with a familiar jurisdiction

A significant majority by value of BLY's shareholders are located in North America. That majority will increase after the Recapitalisation. The Re-domiciliation to Canada will provide additional benefits to those Shareholders located in North America in terms of familiarity with the legal jurisdiction.

The common law legal system in Canada, both federally and provincially, is considered to be a relatively predictable one and is comparable to Australia. It is, however, more familiar to the management team.

Accordingly, the BLY Board believes better aligning the shareholders and management with a more familiar jurisdiction will provide the most suitable framework for stabilising and rebuilding BLY (and shareholder value) over the medium to long term.

(e) Retention of ASX listing and familiarity with local exchange

New BLY Parent will apply for listing on the ASX. Therefore, subject to the ASX approving New BLY Parent's listing application, following implementation of the Re-domiciliation Scheme, Scheme Shareholders (other than Ineligible Foreign Shareholders) will continue to be able to hold and trade their interests on the exchange with which they are most familiar.

New BLY Parent will be required to comply with the ASX Listing Rules, including disclosure requirements under the continuous disclosure rules and lodgement of financial statements and quarterly reports.

Subject to the implementation of the Re-domiciliation, New BLY Parent also expects to pursue a dual listing on a North American stock exchange at a later date. New BLY Parent would retain the listing of the New BLY Parent CDIs on the ASX. The dual listing will provide greater access to liquidity for all Shareholders.

(f) Comparable shareholder protection

New BLY Parent is regulated by the OBCA and will continue to be subject to the rules and policies of ASX. The regulatory environment in Canada is comparable to that in Australia. Securityholders in New BLY Parent will have similar regulatory protection to that currently available under the Corporations Act to BLY. Section 8.4 of this Explanatory Memorandum sets out a comparative table of some of the key

differences between the rules governing companies under the Corporations Act and the OBCA.

(g) Reduced cost of insurance

The market for insurance in Australia has proven very expensive to BLY and the cost to maintain BLY's current levels of insurance is expected to increase in the coming years. The Re-domiciliation would allow BLY to take advantage of more competitive and cost effective insurance markets in North America.

5.3 **What are the disadvantages?**

(a) Additional cost and administrative burden to implement the Re-domiciliation Scheme

The Re-domiciliation, if approved, will result in additional up-front costs and administrative burdens to complete the transaction (including listing fees payable by New BLY Parent to ASX). As at the date of this Explanatory Memorandum, a significant proportion of these costs have already been incurred. Additional on-going costs may also be incurred as a result of the Re-domiciliation; for example, to comply with the regulatory regime in Canada. It is noted, however, that BLY has or will incur some of these additional costs regardless of whether the Re-domiciliation Scheme is approved.

(b) Change in jurisdiction

Upon completion of the Re-domiciliation, Scheme Shareholders (other than Ineligible Foreign Shareholders) will become securityholders in New BLY Parent (indirectly, through holding the New BLY Parent CDIs). Further, New BLY Parent, as a company incorporated in Canada, will not be subject to many of the provisions of the Corporations Act to which BLY is currently subject and to which some Shareholders are familiar.

Currently, Australian resident Shareholders wishing to take action to enforce the provisions of the Constitution or corporations or securities laws as they relate to BLY may take action in Australian courts, applying Australian law. After implementation of the Re-domiciliation, such actions in relation to New BLY Parent will be determined in accordance with Canadian law. An Australian securityholder will be entitled to seek enforcement of applicable laws in the same manner as a Canadian shareholder.

Although some of the material differences between Australian company law and Canadian corporate law as they relate to BLY and New BLY Parent, respectively, could be viewed as advantageous to current Shareholders, others could be viewed as disadvantageous.

Some Shareholders may not be familiar with the Canadian provisions to which New BLY Parent will be subject, and should refer to Section 8.4.

(c) Ineligible Foreign Shareholders will not be able to receive New BLY Parent CDIs

Restrictions in certain countries may make it impractical or unlawful for New BLY Parent to offer or issue New BLY Parent CDIs under the Re-domiciliation Scheme to Shareholders in those jurisdictions.

A Shareholder will be an Ineligible Foreign Shareholder

- (i) if their address as shown in the Register at the Re-domiciliation Scheme Record Date is a place outside of Australia, New Zealand, Switzerland, Hong

Kong, Spain, Luxembourg, the Netherlands, Ireland, Italy, Bermuda, the Cayman Islands, Canada or the United States of America; or

- (ii) is a Shareholder whom BLY considers it would be unlawful for New BLY Parent to issue New BLY Parent CDIs in accordance with the laws of the jurisdiction in which the Shareholder is located.

New BLY Parent is under no obligation to issue, and will not issue, New BLY Parent CDIs to Ineligible Foreign Shareholders. Instead, if the Re-domiciliation Scheme becomes Effective, the New BLY Parent CDIs to which an Ineligible Foreign Shareholder would have been entitled under the Re-domiciliation Scheme will be issued to the Sale Agent appointed by BLY, who will sell those New BLY Parent CDIs and the net proceeds of such sale (after deducting any applicable brokerage, stamp duty and other taxes and charges) will be distributed to Ineligible Foreign Shareholders.

Ineligible Foreign Shareholders should refer to Section 3.18(b) and 3.19 for more information as to how they will be treated under the Re-domiciliation Scheme.

- (d) Taxation implications

The Re-domiciliation Scheme may have adverse taxation implications for individual Shareholders. Accordingly, Shareholders should refer to the summaries of Australia and Canadian taxation implications for certain Shareholders in Sections 9 and 10.

5.4 **What are the risks in connection with the Re-domiciliation?**

BLY and Shareholders are already subject to a number of risks, including those described in Sections 5.4(a) and 5.4(b) below.

If the Re-domiciliation is implemented, New BLY Parent and holders of New BLY Parent CDIs will be subject to these existing risks. In addition to these existing risks, there are other risks associated with the Re-domiciliation as well as additional risks associated with an investment in New BLY Parent. Some of these additional risks are set out below in Section 5.4(c). These Sections do not provide an exhaustive list of these additional risks to which New BLY Parent could be exposed, nor all the risks of the Re-domiciliation, but only those risks which the Directors are aware of and consider material.

- (a) Risks associated with the Re-domiciliation

- (i) Re-domiciliation may fail to realise anticipated advantages

The Re-domiciliation may fail to realise all of the anticipated advantages for New BLY Parent and the BLY Group, either in a timely manner or at all.

Some of the potential advantages of the Re-domiciliation may not be achieved as a result of circumstances outside the control of BLY or New BLY Parent.

- (ii) The exact value of New BLY Parent CDIs is not certain

Under the terms of the Re-domiciliation Scheme, Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive one New BLY Parent CDI for each Share they hold at the Re-domiciliation Scheme Record Date. The exact value of the New BLY Parent CDIs that would be realised by individual New BLY Parent CDI holders will depend on the price at which New BLY Parent CDIs trade after the Re-domiciliation Scheme Implementation Date.

(b) Existing risks applying to BLY

BLY is currently exposed to certain risks in operating its business that will also be faced by New BLY Parent and the BLY Group following the Re-domiciliation. These risks include the following:

(i) Market risk

BLY's operating results, financial condition and ability to achieve shareholder returns are linked to underlying market demand for drilling services and drilling products. Demand for drilling services and products depends in significant part upon the level of mineral exploration, production and development activities conducted by mining companies, particularly with respect to gold, copper and other base metals. There have been significant declines in BLY's financial performance as a result of the global contraction in exploration and development spending in the commodities sector, and the subsequent impact on mining customers. Mineral exploration, production and development activities remain uncertain and could remain at depressed levels for an extended period of time or decline further, resulting in adverse effects on BLY's operating results, liquidity and financial condition.

(ii) Operational risk

The majority of BLY's drilling contracts are either short-term or may be cancelled upon short notice by BLY customers and portions of BLY's products backlog may be subject to cancellation.

(iii) Tax risk

BLY's unsettled assessments with the CRA will, if upheld, result in federal and provincial tax liabilities (including interest) of up to CAD\$35 million. The outcome and timing of any resolution of the Canadian reassessments are unknown. Interest will continue to accrue on all disputed and unpaid amounts until they are paid, or, alternatively, until the disputes are resolved in BLY's favour.

BLY has also recorded a tax provision related to the CRA's audits of the 2010 through 2017 tax years. The provision reflects the uncertainties regarding the outcome of those audits. While BLY believes it is appropriately reserved in respect of the CRA tax disputes, the resolution of those disputes on terms substantially as assessed by the CRA could be material to BLY financial position or results of operations.

BLY is also under audit by the ATO. The resolution of potential assessments by the ATO may adversely affect BLY's liquidity.

(iv) Government and regulatory risk

Changes in, or failure to comply with, the laws, regulations, policies or conditions of any jurisdiction in which BLY conducts business could have a material adverse effect on BLY's financial condition, liquidity, results of operations and cash flows. BLY's operations are subject to numerous laws, regulations and guidelines (including anti-bribery, tax, health and safety, and environmental regulations) that could result in material liabilities or increases in BLY's operating costs or lead to the decline in the demand for BLY's services or products.

(v) ASX spread requirements

The value and number of registered shareholdings in BLY will be affected by certain of the Recapitalisation Transactions including the Selective Buy-Back, if it proceeds. Some of those transactions may increase the value of a registered shareholding, such as participation in the Share Purchase Plan. Other transactions may reduce the value or the number of registered shareholdings, such as the issue of shares under the Creditors' Schemes or participation by a holder in the Selective Buy-Back.

If in the view of ASX, including as a consequence of those transactions, there is not an orderly and liquid market in Shares then ASX may require BLY to obtain sufficient 'spread' so that an orderly and liquid market does exist, or take other action such as to suspend the quotation on ASX of the Shares. To the extent BLY has a discretion, for example in the allocation of Shares under the Share Purchase Plan, BLY intends, to the extent necessary, to exercise that discretion so as to help achieve an orderly and liquid market in the Shares.

(c) Additional risks to New BLY Parent as a result of the Re-domiciliation

(i) Loss of demand and liquidity

As a result of the Re-domiciliation, BLY will re-domicile to Canada and will become a subsidiary of a new parent Canadian company. The re-domicile may lead to a potential loss of demand for New BLY Parent CDIs from Australian investors. There may be a potential reduction in liquidity of New BLY Parent Shares when traded on ASX in the form of CDIs.

(ii) Tax risks for BLY

This section provides a general summary of certain Australian tax implications for BLY as a result of the Re-domiciliation Scheme. The following comments are made on the basis that after the Re-domiciliation Scheme completes BLY remains an Australian tax resident company.

The main Australian tax implication of the Re-domiciliation Scheme on BLY relates to its ability to recoup prior year tax losses. BLY and its Australian subsidiaries have carried forward tax losses as at 31 December 2020. If available, these losses will continue to be used to offset against assessable income derived by BLY going forward.

In broad terms, carry forward tax losses must satisfy the continuity of ownership test (**COT**) or failing that, the similar business test (**SBT**) or the same business test (together known as the "continuity of business test" or **CBT**), depending on the year the losses were generated, prior to recoupment. Broadly, the COT requires BLY to have maintained more than 50% of the same ultimate beneficial owners from the start of each loss year and at each test time until the end of the income year in which the loss is sought to be recouped (certain concessions are available for listed companies that reduce the number of applicable testing points and limit the extent of tracing required through to ultimate beneficial owners). Failing the COT, BLY would be required to satisfy the CBT going forward which broadly would require it to carry on a similar or the same business during a recoupment year as it did immediately before the COT was failed.

The Re-domiciliation Scheme, or transfers of BLY shares following the implementation of the Re-domiciliation Scheme, may cause BLY to fail the COT such that BLY must satisfy the CBT going forward in order to recoup any of BLY's carried forward tax losses that are not otherwise limited. Although

BLY believes it will satisfy the SBT it can't be guaranteed with certainty. BLY will continue to monitor these tests going forward.

Further, while BLY has not identified any other specific tax risks associated with the Re-domiciliation, there may be unexpected tax risks associated with the change in jurisdiction from Australia to a North American jurisdiction.

A summary of CBP and the Ad Hoc Group's rights to nominate directors to the BLY Board under the BLY Director Nomination Agreements where the BLY Board comprises nine directors and, if the Re-domiciliation is approved and implemented, the New BLY Parent Director Nomination Agreements, is set out in the following table.

In the event that the BLY Board increases in size from nine to ten directors at any time (excluding alternate directors) in accordance with its constitution, and provided that increase was not caused by an act of the Centerbridge Board Nominees, Centerbridge or an associate of Centerbridge, so long as Centerbridge holds, in aggregate, Retained Shares which represent 40% or more of the issued Shares in the Company, Centerbridge will have the right to nominate six directors for appointment to the BLY Board.

All existing Directors, other than Mr Olsen, the Chief Executive Officer, intend to resign from the BLY Board with effect from implementation of the Recapitalisation when the CBP Nominee Directors and the Ad Hoc Group Nominee Directors are appointed to the BLY Board in accordance with the BLY Director Nomination Agreements.

6.5 **Historical financial information**

The historical financial information for BLY is contained in the audited consolidated financial statements for BLY and its controlled entities for the years ended 31 December 2020, 31 December 2019 and 31 December 2018. Shareholders may also view complete copies of these statements on ASX's website at www.asx.com.au or BLY's website at www.boartlongyear.com.

6.6 **Update on financial information since last annual report**

Party	Voting Power
CBP	53.3%
Ad Hoc Group	23.6%

TOTAL	100%

Note: the AHG Members consider that they may be deemed to be associates of each other in relation to BLY by virtue of section 12(2)(b) or 12(2)(c) of the Corporations Act on the basis that the Restructuring Support Agreement contemplates that they will have a collective right to nominate a specified number of individuals for appointment to the BLY Board from time to time on and from the Creditors' Schemes Implementation Date. That right will arise under the Ad Hoc Group Director Nomination Agreements. Consequently, each of the AHG Members has disclosed that it has voting power equal to the aggregate of the total number of votes attaching to voting shares in which any of the AHG Members hold a relevant interest

6.8 **Intentions regarding the continuation of BLY's business**

The Corporations Regulations require a statement by the Directors of their intentions if the Re-domiciliation Scheme is implemented. Given the commonality of the Directors and the proposed New BLY Parent Directors, BLY refers to the New BLY Parent Directors' intention statements contained in Section 7.6.

7. OVERVIEW OF NEW BLY PARENT FOLLOWING IMPLEMENTATION OF THE RE-DOMICILIATION SCHEME

7.1 Introduction

New BLY Parent was incorporated on 15 July 2021 in Ontario, Canada as a corporation under the OBCA.

New BLY Parent was incorporated for the sole purpose of the Re-domiciliation. As a result, prior to implementation of the Re-domiciliation, New BLY Parent has not conducted, and will not conduct, any business other than performing the acts that are detailed in this Explanatory Memorandum.

As at the date of this Explanatory Memorandum, New BLY Parent has one common share on issue, which is held by the Individual Shareholder (**Subscriber Share**). The Subscriber Share was issued upon the incorporation of New BLY Parent. New BLY Parent currently has no other securities outstanding. Following the Re-domiciliation, the Subscriber Share will be re-purchased by New BLY Parent. New BLY Parent is not currently a reporting issuer in Canada and no decision has been made as to timing or if New BLY Parent will become a reporting issuer in Canada.

New BLY Parent is not currently listed on any securities exchange, but will apply to be admitted to the official list of ASX within seven days after the day of this Explanatory Memorandum. New BLY Parent will also be registered in Australia as a foreign company under section 601CD of the Corporations Act. BLY has been appointed as the local agent in Australia for New BLY Parent.

New BLY Parent is authorised to issue an unlimited number of common shares.

If the Re-domiciliation Scheme is implemented, on the Re-domiciliation Scheme Implementation Date, all of the New BLY Parent CDIs will be owned by Scheme Shareholders (other than Ineligible Foreign Shareholders, whose New BLY Parent CDIs will be issued to the Sale Agent, subject to their sale in accordance with clause 3.3 of the Re-domiciliation Scheme) in the same percentages as their existing holdings in BLY. New BLY Parent will, in turn, become the holder of all of the Shares.

7.2 New BLY Parent Board

If the Re-domiciliation is approved and implemented, the director nomination rights contemplated by the Restructuring Support Agreement will be documented by the New BLY

Parent Director Nomination Agreements. The New BLY Parent Director Nomination Agreements will be governed by Canadian law.

The BLY Director Nomination Agreements (and, if the Re-domiciliation is approved and implemented, the New BLY Parent Director Nomination Agreements) will replace existing director nomination rights granted to CBP, Ares and Ascribe under the current director nomination agreements between those parties and BLY.

Each of the existing Directors will initially be appointed as a New BLY Parent Director on implementation of the Re-domiciliation, with the Nominee Directors to be subsequently appointed as New BLY Parent Directors after implementation of the Re-domiciliation.

The New BLY Parent Director Nomination Agreements will be substantially on the same terms as the BLY Director Nomination Agreements, subject to any limitation to CBP or the Ad Hoc Group's rights under the relevant agreement as required by local law or practice. The rights of CBP and the Ad Hoc Group to nominate directors to the New BLY Parent Board are summarised in the table in Section 6.4.

In addition, there may be additional risks associated with the change in jurisdiction from Australia to Canada. Shareholders should refer to Section 8.4 for more information about certain key differences between company rules under Australian and Canadian law.

7.10 **Interests in BLY securities and voting power in BLY**

As at the date of this Explanatory Memorandum, New BLY Parent and its associates:

- do not have a Relevant Interest in any Shares or other BLY securities; and

8. IMPLICATIONS OF NEW BLY PARENT BEING A CANADIAN COMPANY

8.1 Overview

8.4 **Comparison of Australian and Canadian company rules**

BLY is a public company registered in Victoria under the Corporations Act. The New BLY Parent is a company which is incorporated in Ontario, Canada and will be subject to a variety of laws and regulations, including the provisions of the OBCA.

Where the Re-domiciliation Scheme is approved and implemented, the rights and protections to members in relation to the New BLY Parent will differ to those under Australian law. As New BLY Parent will be incorporated in Ontario, Canada, New BLY Parent will not be subject to many of the provisions of the Corporations Act to which BLY is currently subject and to which Shareholders are familiar. However, the regulatory environment in Canada is comparable to that in Australia. Securityholders in New BLY Parent will have similar regulatory protection to that currently available under the Corporations Act to BLY. However, if the Re-domiciliation Scheme is not approved, the rights and protections to members in relation to the Shares will remain subject to Australian law.

A comparison of some of the material provisions governing BLY and New BLY Parent respectively is set out below. References to 'Australian law' where they appear in this Section are references to the Corporations Act, ASX Listing Rules, ASX Settlement Operating Rules and Australian common law, as applicable. References to 'Canadian law' are references to the OBCA, applicable Canadian securities law and Canadian common law, as applicable.

The comparison below is not an exhaustive statement of all relevant laws, rules and regulations and is intended as a general guide only. It should also be read in conjunction with the disclosures in Section 8.3 above. Shareholders should consult with their own legal advisers if they require further information.

However, New BLY Parent is not currently a reporting issuer in Canada.
Director's declarations of interest	The Corporations Act generally requires a company's director who has a material personal interest in a matter that relates to the affairs of the company to give the other directors notice of that interest. Takeovers		
Takeover bids	<p>The Corporations Act places restrictions on a person acquiring interests in the voting shares of a company where, as a result of the acquisition, that person's or someone else's voting power in the company increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90%. This prohibition is subject to a number of exceptions including the acquisition of not more than 3% of the voting shares in the company in the six month period before the acquisition, the acquisition is made with shareholder approval or the acquisition is made under a takeover bid made in accordance with Australian law. Various restrictions about conditional offers exist and there are also substantial restrictions concerning the withdrawal and suspension of offers.</p> <p>Takeover bids must treat all securityholders alike, must not involve any collateral benefits and must remain open for a prescribed period, after which time all securities deposited under the offer may be taken up. The takeover bid rules contain various additional requirements, such as restrictions on conditional offers and withdrawal, amendment or suspension of offers.</p>	<p>In Canada, takeover bids are regulated primarily by securities legislation. An offer to acquire outstanding voting or equity securities of a class made to one or more persons, any of whom is in a Canadian jurisdiction or whose last address is shown on the books of the company is in Canada where the securities subject to the bid, together with the offeror's securities (and those held by joint actors), constitute in aggregate 20% or more of the outstanding securities of the company at the time of the offer are required to extend the offer to all securityholders who are in Canada. The takeover bid rules require, among other things, the mailing of a takeover bid circular to shareholders of the target company and extensive disclosure requirements, beginning with 'early warning' disclosure required when an acquirer crosses a 10% ownership threshold with further disclosure required for additional purchases of 2% or more (applicable to ownership of shares of a reporting issuer).</p> <p>Takeover bids must treat all shareholders alike and must not involve any collateral agreements, with certain exceptions for employment compensation arrangements. Takeover bids must remain open for a minimum of 105 days from the date of the mailing of the takeover bid circular, after which time if at least 50% of the outstanding securities that are subject to the bid have been deposited and not withdrawn, then the all securities deposited under</p>

		<p>the offer may be taken up and the offer must be extended for a further 10 days.</p> <p>For the protection of target shareholders, the takeover bid rules contain various additional requirements, such as restrictions applicable to conditional offers, and the withdrawal, amendment or suspension of offers. Securities regulators also retain a general 'public interest jurisdiction' to regulate takeovers and may intervene to halt or prevent activity that is abusive. Issuer bids are regulated similarly to takeover bids (however, issuer bids must remain open for a minimum of 35 days).</p> <p>There are extensive disclosure requirements associated with takeover bids, beginning with 'early warning' disclosure required when an acquirer crosses the 10% ownership threshold. Generally, further disclosure is required for additional purchases of 2% or more of the outstanding security for which such early warning disclosure is required. Purchases outside the bid before, during and after the bid are also restricted.</p> <p>The OBCA contains compulsory acquisition provisions, which allow a person who acquired at least 90% of a company's shares to acquire the remaining shares, within 120 days after the date of a takeover bid, if the bid was accepted by holders of not less than 90% of the company's shares.</p> <p>Aside from the compulsory acquisition provisions of the OBCA, second step transactions following a bid, which allow the acquirer to bring its percentage ownership to 100%, are governed by Multilateral Instrument 61-101 of the Canadian Securities Regulators. No shareholder approval for a second step transaction of the acquisition would be required if the acquirer obtained 90% of the</p>

Otherwise, a meeting must be called and associated regulations complied with for an acquisition, including obtaining a two-thirds majority approval. The acquirer is generally permitted to vote the shares acquired pursuant to the bid at such meeting. Appraisal (or dissent) rights are available for objecting shareholders who fulfil certain procedural requirements.</p> <p>Under Canadian securities laws certain exemptions to the formal bid requirements, on specified conditions, are allowed. For example, private agreements to purchase securities from up to five persons are permitted if the purchase price does not exceed 115% of the market price. Under the normal course purchase exception, the offeror (together with any joint offerors) may acquire up to 5% of a class of securities within a 12-month period of there is a published market for the relevant class and the consideration paid does not exceed the market price at the date of acquisition. A take-over bid is also exempt from Canadian securities laws if, among other things, less than 10% of the issued shares are held by shareholders in Canada and the principal trading market for the shares is outside of Canada.</p>
Takeover bid defences	<p>Under Australian takeovers legislation and policy, boards of target companies are limited in the defensive mechanisms that they can put in place to discourage or defeat a takeover bid. For example, it is likely that the adoption of a shareholders' rights plan (or so-called 'poison pill') would give rise to a declaration of unacceptable circumstances by the Australian Takeovers Panel if it had that effect.</p>	<p>In Canada, defensive tactics may be taken by a board of directors in a genuine attempt to obtain a better bid. However, the Canadian securities regulatory authorities have recognised the possibility that the interests of management of the target company will differ from those of its shareholders. The securities regulators may take action in certain cases where target company</p>

Shareholder approval of defensive tactics may be a factor in the regulatory authorities' decision as to whether the tactics are appropriate.</p>

8.5 **Consequences of being a foreign registered company**

As noted above, the New BLY Parent will be registered as a foreign company in Australia pursuant to Part 5B.2 of the Corporations Act. Accordingly, in addition to the laws and regulations set out elsewhere in this Section, New BLY Parent will also be subject to the provisions of Part 5B.2 of the Corporations Act.

9. AUSTRALIAN TAXATION IMPLICATIONS FOR SHAREHOLDERS

9.1 Australian Taxation Implications

This section provides a summary of the material Australian income tax implications for certain eligible Shareholders who dispose of their Shares and acquire New BLY Parent CDIs under the Re-domiciliation Scheme. This information only relates to Shareholders who hold their Shares and New BLY Parent CDIs on capital account for Australian income tax purposes. This summary does not consider the income tax implications of the Re-Domiciliation Scheme under any non-Australian tax laws.

This general summary does not apply to Shareholders who:

- hold their Shares or New BLY Parent CDIs as revenue assets or trading stock, such as banks, insurance companies and taxpayers carrying on a business of share trading;
- have acquired their Shares or New BLY Parent CDIs for the purposes of resale at a profit;
- are subject to the Taxation of Financial Arrangements rules in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in respect of their Shares or New BLY Parent CDIs;
- are subject to special tax rules, such as entities that are exempt from Australian income tax, partnerships, insurance companies or trusts that are subject to special taxation regimes (such as "attribution managed investment trusts" and trusts that are taxed as companies); or
- acquired their Shares under an arrangement that constitutes an 'employee share scheme' for Australian income tax purposes.

Shareholders in any of the aforementioned categories should consult their professional advisors on the tax implications of the Re-domiciliation Scheme.

BLY is not seeking a class ruling from the ATO on behalf of Shareholders in relation to the Re-domiciliation Scheme and it is therefore possible that the ATO will disagree with the summary set out below.

The information in this section is general in nature and does not take into account the individual circumstances of all Shareholders; it is not intended to be, nor should it be, construed as legal or tax advice to any particular Shareholder. Shareholders should consult their professional advisors on the tax implications of the Scheme for their individual circumstances. Neither BLY, nor any of its officers, nor its taxation adviser, nor any other adviser to BLY, accepts any liability or responsibility in respect of any statement concerning the taxation consequences of Re-domiciliation Scheme.

9.2 Disposal Of Shares for CDIs In New BLY Parent

The Australian income tax implications of the Re-domiciliation Scheme will differ between Shareholders who are and are not a resident of Australia for tax purposes.

9.3 Resident Shareholders

(a) CGT Event

The disposal of Shares by a resident Shareholder will give rise to a CGT event. This CGT event will occur at the time that the shares are disposed of for CGT purposes, which should be the Re-domiciliation Scheme Implementation Date.

Subject to the comments below concerning CGT rollover relief, a resident Shareholder will realise either a capital gain or a capital loss from the disposal of their Shares. A capital gain will arise where the capital proceeds exceed the cost base of the Shares, and a capital loss will arise where the capital proceeds are less than the reduced cost base for the Shares.

Each Share constitutes a separate asset for CGT purposes. Resident Shareholders will need to separately consider the consequences of the disposal of their Shares which were acquired in different parcels at different times.

The capital proceeds received by the resident Shareholder will generally be equal to the market value (as at the Re-domiciliation Scheme Implementation Date) of the New BLY Parent CDIs received by the resident Shareholder in respect of the disposal of their Shares.

The cost base (or reduced cost base) of the Shares should generally include the amount paid by the resident Shareholder to acquire the Shares, as well as certain non-deductible incidental costs of acquisition and disposal.

Where your Shares were subject to the Share Consolidation, each element of the cost base and reduced cost base of the consolidated Shares, at the time of the Share Consolidation, should be the sum of the corresponding elements of the cost base and reduced cost base of each original Share you held.

If a resident Shareholder is not a company and acquired (for CGT purposes) its Shares at or before 11:45am (ACT time) on 21 September 1999, it may choose whether to index the cost base to 30 September 1999 or to apply the CGT discount. A company is permitted to index the cost base of Shares acquired before 11:45 am (ACT time) on 21 September 1999, but is not permitted to apply the CGT discount.

If a resident Shareholder acquired its Shares after 11:45 am (ACT time) on 21 September 1999, it cannot index its cost base. However, it may apply the CGT discount (unless it is a company) in calculating any capital gain on disposal.

Indexation does not apply to the calculation of a capital loss.

The choice to apply indexation rather than the discount capital gain provisions must be made by the resident Shareholder on or before the day it lodges its income tax return for the income year in which the disposal occurs. The manner in which it completes its income tax return is generally sufficient evidence of the making of a choice.

The application of the CGT discount is discussed below.

(b) CGT rollover relief

A resident Shareholder may be able to choose CGT rollover relief on the disposal of their Shares under the Re-domiciliation Scheme.

If a CGT rollover applies, and is chosen by a resident Shareholder, the CGT consequences of the disposal of their Shares will differ significantly from the summary set out in this Section 9. For example, and depending on which particular CGT rollover (if any) is available, a resident Shareholder may be able to choose to disregard the capital gain or the capital

loss from the disposal of the Shares. In addition, if a CGT rollover applies, it will affect the CGT cost base and reduced cost base, and the CGT acquisition date, of the New BLY Parent CDIs.

As mentioned above, BLY is not seeking a class ruling from the ATO in relation to, amongst other things, the availability of CGT rollover relief in connection with the Re-domiciliation Scheme. In addition, BLY has made no determination that CGT rollover relief is or is not potentially available to Shareholders. In order for CGT rollover relief to apply, a number of conditions must be satisfied, and it may be necessary (depending on the rollover, if any, and the circumstances) for BLY to make certain elections or choices, and for electing Shareholders to provide certain information to BLY.

In general, CGT rollover relief should be of significance for Shareholders that would otherwise make a capital gain on the disposal of their Shares. Shareholders that make a capital loss would not generally be expected to choose to obtain rollover relief, even if they are eligible to do so.

Shareholders who would like to claim CGT rollover relief should consult with their own professional adviser as to whether CGT rollover is available, or potentially available, to the Re-domiciliation Scheme. If a Shareholder considers that CGT rollover relief is potentially applicable, they should contact BLY.

The remainder of this summary assumes that CGT rollover relief is not available to a resident Shareholder on the disposal of their Shares under the Re-domiciliation Scheme.

(c) Where a Capital Gain or Loss is Realised

Pre-CGT Shares

If your Shares were acquired, or are taken to have been acquired, before 20 September 1985 for CGT purposes and are not taken to have been acquired on or after that date for CGT purposes, there should be no CGT implications arising on disposal of your Shares.

Capital gain

A resident Shareholder is generally required to include their net capital gain for an income year in their assessable income for the relevant year of income.

Broadly, the net capital gain for an income year is the total of all of the capital gains made during the income year less capital losses made in the income year and available net capital losses made in previous income years. As discussed further below, discount CGT treatment may be available to further reduce the amount included in assessable income.

Capital loss

Where a resident Shareholder realises a capital loss from the disposal of their Shares, they may use this to offset any taxable capital gains from the same or subsequent income years (subject to any applicable loss utilisation rules). This could include offsetting the capital loss against taxable capital gains that they realise from a subsequent disposal of their New BLY Parent CDIs. Capital losses cannot be carried back to offset capital gains arising in earlier income years.

Discount CGT Treatment

If the resident Shareholder realises a capital gain from the disposal of their Shares, and held them for at least 12 months at the time of disposal (or is taken to have

held them for at least 12 months for CGT discount purposes), discount CGT treatment may apply, as follows:

- if the resident Shareholder is an individual, one half of the capital gain (without any allowance for indexation in the cost base of the shares), after offsetting any applicable capital losses, will be included in assessable income;
- if the resident Shareholder is acting as a trustee of a trust (but not a complying superannuation fund), one half of the capital gain (without any allowance for indexation in the cost base of the shares), after offsetting any applicable capital losses, will be included in the "net income" of the trust. The discount capital gains provisions may also apply to capital gains to which beneficiaries in the trust (other than beneficiaries that are companies) are entitled. The CGT provisions applying to trustees and beneficiaries of trusts are complex and trustee Shareholders and beneficiaries should seek advice from a professional tax adviser in this regard;
- if the resident Shareholder is a complying superannuation fund, two-thirds of the capital gain (without any allowance for indexation in the cost base of the shares) after offsetting applicable capital losses will be included in the fund's assessable income; and
- if the resident Shareholder is a company, no discount will apply, resulting in all of the capital gain after offsetting applicable capital losses being included in the company's assessable income.

As noted above, where the resident Shareholder is entitled to discount CGT treatment, any capital losses will be applied to reduce the capital gain before determining the discount.

For the purposes of determining the CGT acquisition date of Shares that were subject to the Share Consolidation for CGT discount purposes, the consolidated Shares should have the same CGT date of acquisition as the original Shares to which they relate.

(d) New BLY Parent CDIs

Cost base and acquisition date of New BLY Parent CDIs

The first element of the cost base (or reduced cost base) of the New BLY Parent CDIs should equal the market value of the Shares that were disposed of to acquire them, as at the Re-domiciliation Scheme Implementation Date.

The acquisition date of the New BLY Parent CDIs for CGT discount purposes should be the Re-domiciliation Scheme Implementation Date.

Subsequent Disposals of the BLY CDIs

Where a resident Shareholder subsequently disposes of their New BLY Parent CDIs, this may give rise to a capital gain or loss.

Provided the resident Shareholder holds the New BLY Parent CDIs for 12 months from the acquisition date of the New BLY Parent CDIs (and subject to certain specific integrity rules applying to the 12 month period), discount CGT treatment may be available for any capital gain made (please see above for an outline of the discounts that may be available).

Taxation of dividends received on the New BLY Parent CDIs

Where a resident Shareholder receives a dividend on the New BLY Parent CDIs, they will generally have to include the gross amount received in their assessable income for the relevant year. Franking credits will not be available in respect of these dividends.

Where foreign withholding tax is paid on dividends included in a Shareholder's assessable income, the resident Shareholder may be able to obtain a non-refundable tax offset and use it to reduce their tax liabilities in the relevant year (subject to certain conditions and limitations).

Dividends received by certain companies that hold a "participation interest" of 10% or more in New BLY Parent may be non-assessable non-exempt income for the recipient. Companies in this situation should consult their own professional adviser on the Australian tax treatment of dividends received from New BLY Parent.

9.4 Non-Resident Shareholders

(a) CGT Event

Non-resident Shareholders may be able to disregard any capital gain or loss arising from the disposal of the Shares.

Non-residents will only make a capital gain or loss on the disposal of "taxable Australian property". Shares in an Australian company that are disposed of by a non-resident will only be "taxable Australian property" where they are (x) held at any time in connection with the conduct of a business through a permanent establishment in Australia, (y) are held by a non-resident Shareholder than elected to treat the Shares as taxable Australian property when they ceased to be an Australian resident or (z) an "indirect Australian real property interest".

A non-resident Shareholder will hold an "indirect Australian real property interest" if they, together with their associates, own at least 10% of the shares in BLY (either at the time of transfer, or for a 12 month period within the last 24 months), and the market value of BLY's Australian real property assets (e.g. land) exceeds the market value of its non-real property assets.

BLY considers that the market value of BLY's Australian real property assets does not exceed the market value of its non-real property assets.

(b) Holding and disposing of New BLY Parent CDIs

Where a non-resident Shareholder receives a dividend from New BLY Parent in respect of the CDIs, they generally will not have to include the gross amount received within their Australian assessable income for the relevant year nor should such dividends be subject to Australian dividend withholding tax.

Additionally, where a non-resident Shareholder elects to dispose of the New BLY Parent CDIs, this will generally not give rise to a taxable CGT event provided that the New BLY Parent CDIs are not "taxable Australian property", as described above.

10. CANADIAN TAXATION IMPLICATIONS FOR SHAREHOLDERS

10.1 Income tax implications

The following summary describes the principal Canadian federal income tax considerations in respect of the exchange of BLY Shares and the acquisition and holding of New BLY Parent Shares received pursuant to the Re-domiciliation Scheme. For greater certainty, any reference to BLY Shares or New BLY Parent Shares in this summary includes any such shares represented by CDIs.

This summary only applies to a beneficial owner of BLY Shares who, at all relevant times, for purposes of the *Income Tax Act* (Canada) (the **ITA**): (a) deals at arm's length with BLY and New BLY Parent; (b) is not affiliated with BLY or New BLY Parent; and (c) holds the BLY Shares, and will hold any New BLY Parent Shares received under the Re-domiciliation Scheme, as capital property (a **Holder**).

Generally, the BLY Shares and New BLY Parent Shares will be capital property to a Holder provided the Holder does not hold such shares in the course of carrying on a business or as part of an adventure or concern in the nature of trade.

This summary is based on the current provisions of the ITA, and BLY's understanding of the current administrative policies and assessing practices of the Canada Revenue Agency (**CRA**) published in writing prior to the date hereof. This summary takes into account all specific proposals to amend the ITA publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (**Proposed Amendments**) and assumes that all Proposed Amendments will be enacted in the form proposed. However, no assurances can be given by BLY that the Proposed Amendments will be enacted as proposed, or at all. This summary does not otherwise take into account or anticipate any changes in law or administrative policy or assessing practice whether by legislative, regulation, administrative or judicial action nor does it take into account tax legislation or considerations of any province, territory or foreign jurisdiction, which may differ from those discussed herein.

This summary does not apply to a shareholder who:

- (b) is a "specified financial institution",
- (c) an interest in which is a "tax shelter investment",
- (d) is, for purposes of certain rules (referred to as the mark-to-market rules) applicable to securities held by financial institutions, a "financial institution",
- (e) reports its "Canadian tax results" in a currency other than Canadian currency,
- (f) has entered or enters into, with respect to any of the shares discussed herein, a "derivative forward agreement" or "synthetic disposition arrangement" (as defined in the ITA),
- (g) is or was an employee of BLY or New BLY Parent and who acquired BLY Shares or New BLY Parent Shares in respect of, in the course of, or by virtue of, their employment, including pursuant to an employee stock option,
- (h) that is an Ineligible Foreign Shareholder, or
- (i) is a "foreign affiliate" of a taxpayer resident in Canada.

Furthermore, this summary does not apply to holders of warrants issued by BLY or New BLY Parent. Any such holders or Shareholders should consult its own tax advisor with respect to the Re-domiciliation Scheme.

This summary is of a general nature only and is not, and is not intended to be, legal or tax advice to any particular shareholder. This summary is not exhaustive of all Canadian federal income tax considerations. Accordingly, Shareholders should consult their own tax advisors having regard to their own particular circumstances.

10.2 Holders resident in Canada

This portion of the summary only applies to a Shareholder who, at all relevant times, for purposes of the ITA and any applicable income tax convention, is, or is deemed to be, resident in Canada (a **Resident Holder**). Certain Resident Holders may be entitled to make or may have already made the irrevocable election permitted by subsection 39(4) of the ITA, the effect of which is to deem any New BLY Parent Shares (and any other "Canadian security", as defined in the ITA) owned by such Resident Holder in the taxation year in which the election is made and in all subsequent taxation years to be capital property. Resident Holders whose shares might not otherwise be considered to be capital property should consult their own tax advisors concerning this election.

(a) Participation in the Re-domiciliation Scheme

On the exchange of BLY Shares for New BLY Parent Shares under the Re-domiciliation Scheme, the Resident Holder will realise a capital gain (or capital loss) to the extent that the fair market value of the New BLY Parent Shares at the time of the exchange, net of any reasonable costs of disposition, exceeds (or is less than) the adjusted cost base of the BLY Shares to the Resident Holder. See "Taxation of Capital Gains and Capital Losses" below for a general discussion of the treatment of capital gains and capital losses under the ITA.

New BLY Parent does not intend to offer Resident Holders the opportunity to file a joint tax election with New BLY Parent to defer realising a capital gain (if any) for the purposes of the ITA as a result of the Re-domiciliation Scheme.

(b) Taxation of Capital Gains and Capital Losses

Generally, one-half of any capital gain (a "taxable capital gain") realised by a Resident Holder in a taxation year must be included in the Resident Holder's income for the year, and one-half of any capital loss (an "allowable capital loss") realised by a Resident Holder in a taxation year must be deducted from taxable capital gains realised by the Resident Holder in that year. Allowable capital losses for a taxation year in excess of taxable capital gains for that year may, generally, be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains realised in such years, to the extent and under the circumstances described in the ITA.

A Resident Holder that, throughout the relevant taxation year, is a "Canadian-controlled private corporation" (as defined in the ITA) may be liable to pay a refundable tax on its "aggregate investment income" (as defined in the ITA), including taxable capital gains.

Capital gains realised by a Resident Holder who is an individual (and certain types of trusts) may result in such Resident Holder being liable for alternative minimum tax under the ITA. Resident Holders who are individuals should consult their own tax advisors in this regard.

(c) Consequences of Resident Holders owning New BLY Parent Shares

Dividends received or deemed to be received on New BLY Parent Shares held by a Resident Holder will be included in the Resident Holder's income for the purposes of the ITA.

Such dividends received by a Resident Holder that is an individual (other than certain trusts) will be subject to the gross-up and dividend tax credit rules in the ITA that apply to taxable dividends received from taxable Canadian corporations, including the enhanced gross-up and dividend tax credit in respect of dividends designated by New BLY Parent as "eligible dividends". There may be limitations on New BLY Parent's ability to designate dividends as "eligible dividends".

Taxable dividends received by a Resident Holder who is an individual (other than certain trusts) may result in such Resident Holder being liable for alternative minimum tax under the ITA. Resident Holders who are individuals should consult their own tax advisors in this regard.

In the case of a Resident Holder that is a corporation, the amount of any taxable dividend will be included in computing its income and generally will be deductible in computing the Resident Holder's taxable income. A Resident Holder that is a "private corporation" or "subject corporation" (as such terms are defined in the ITA) or any other corporation resident in Canada controlled, whether because of a beneficial interest in one or more trusts or otherwise, by or for the benefit of an individual (other than a trust) or a related group of individuals (other than trusts), may be liable under Part IV of the ITA to pay a refundable tax on dividends received or deemed to be received on the New BLY Parent Shares to the extent such dividends are deductible in computing the Resident Holder's taxable income. In certain circumstances, subsection 55(2) of the ITA will treat a taxable dividend received or deemed to be received by a Resident Holder that is a corporation as proceeds of disposition or a capital gain. Resident Holders that are corporations should consult their own tax advisors having regard to their own circumstances.

(d) Consequences of Resident Holders disposing of New BLY Parent Shares

A disposition or a deemed disposition of a New BLY Parent Share by a Resident Holder will generally result in the Resident Holder realising a capital gain (or capital loss) in the year of the disposition equal to the amount by which the proceeds of disposition of the New BLY Parent Share exceed (or is less) than the aggregate of the Resident Holder's adjusted cost base thereof and any reasonable costs of disposition. The adjusted cost base of a New BLY Parent Share to a Resident Holder generally will be the average of the cost of all New BLY Parent Shares held at the particular time by such Resident Holder as capital property. Such capital gain (or capital loss) will be subject to the tax treatment described above under "Taxation of Capital Gains and Capital Losses".

The amount of any capital loss realised by a Resident Holder that is a corporation on the disposition of New BLY Parent Shares may be reduced by the amount of dividends received or deemed to be received by the Resident Holder on such shares (or on shares for which the shares have been substituted) to the extent and under the circumstances described by the ITA. Similar rules may apply where a corporation is a member of a partnership or a beneficiary of a trust that owns New BLY Parent Shares, directly or indirectly, through a partnership or a trust.

10.3 Holders not resident in Canada

This portion of the summary only applies to a BLY Shareholder who, at all relevant times, is not, or is deemed not to be, resident in Canada for purposes of the ITA (including a partnership that is not a "Canadian partnership" for purposes of the ITA) and any applicable income tax treaty or convention to which Canada is a party and who does not use or hold,

and is not deemed to use or hold, BLY Shares in connection with carrying on a business in Canada (a **Non-Resident Holder**).

Special rules, which are not discussed in this summary, may apply to a Non-Resident Holder that is an insurer that carries on an insurance business in Canada and elsewhere. Such Non-Resident Holders are advised to obtain their own tax advice.

(a) Consequences of Participation in the Re-domiciliation Scheme

A Non-Resident Holder will not be subject to tax under the ITA in respect of any capital gain realised on the exchange of BLY Shares for New BLY Parent Shares under the Re-domiciliation Scheme, nor will capital losses arising therefrom be reported under the ITA, unless the BLY Shares are, or are deemed to be, "taxable Canadian property" of the Non-Resident Holder for the purposes of the ITA and the Non-Resident Holder is not entitled to an exemption under an applicable income tax convention between Canada and the country in which the Non-Resident Holder is resident.

BLY Shares will not constitute "taxable Canadian property" to a Non-Resident Holder at the time of the disposition thereof under the Re-domiciliation Scheme unless at any particular time during the 60 month period immediately preceding the disposition:

- (i) more than 50% of the fair market value of the BLY Shares was derived directly or indirectly from one or any combination of:
 - (A) real or immovable property situated in Canada;
 - (B) "Canadian resource properties" (as defined in the ITA);
 - (C) "timber resource properties" (as defined in the ITA); or
 - (D) an option, an interest or right in such property, whether or not such property exists; and
- (ii) if the BLY Shares are then listed on a designated stock exchange (which currently includes the ASX), the Non-Resident Holder, persons with whom the Non-Resident Holder does not deal at arm's length (within the meaning of the ITA), partnerships in which the Non-Resident Holder or a person with whom the Non-Resident Holder does not deal at arm's length (within the meaning of the ITA) holds a membership interest directly or indirectly through one or more partnerships, or any combination thereof, concurrently at the time condition (a) is met, owned 25% or more of the issued BLY Shares

Notwithstanding the foregoing, the BLY Shares could be deemed to be "taxable Canadian property" to a Non-Resident Holder, for example, if a Non-Resident Holder acquired the BLY Shares in exchange for "taxable Canadian property" in certain circumstances set out in the ITA.

If the BLY Shares constitute "taxable Canadian property" to a Non-Resident Holder, the tax consequences of a disposition thereof will generally be as described above under the heading "Holders Resident in Canada – Taxation of Capital Gains and Capital Losses". Furthermore, such Non-Resident Holder may be required to give notice of the disposition to the CRA and apply for a clearance certificate pursuant to Section 116 of the ITA.

A Non-Resident Holder that holds BLY Shares that may constitute taxable Canadian property should consult its own tax advisor prior to the Re-domiciliation.

(b) Consequences of Non-Resident Holders Owning New BLY Parent Shares

Any dividends paid or credited, or deemed to be paid or credited, on New BLY Parent Shares to a Non-Resident Holder will be subject to Canadian withholding tax at the rate of 25% of the gross amount of the dividend unless the rate is reduced under the provisions of an applicable income tax convention between Canada and the Non-Resident Holder's country of residence. For instance, where the Non-Resident Holder is a resident of the United States that is entitled to full benefits under the Canada United States Income Tax Convention (1980) as amended and is the beneficial owner of the dividends, the rate of Canadian withholding tax applicable to dividends is generally reduced to 15%.

(c) Consequences of Non-Resident Holders disposing of New BLY Parent Shares

For a Non-Resident Holder to be subject to tax under the ITA on any capital gain realised on the disposition or deemed disposition of New BLY Parent Shares, such New BLY Parent Shares must be or be deemed to be "taxable Canadian property", as defined in the ITA, to the Non-Resident Holder at the time of disposition or deemed disposition and not constitute "treaty-protected property", as defined in the ITA.

New BLY Parent Shares will not constitute "taxable Canadian property" to a Non-Resident Holder at the time of the disposition or deemed disposition thereof unless at any particular time during the 60 month period immediately preceding the disposition:

- (i) more than 50% of the fair market value of the New BLY Parent Shares was derived directly or indirectly from one or any combination of:
 - (A) real or immovable property situated in Canada;
 - (B) "Canadian resource properties" (as defined in the ITA);
 - (C) "timber resource properties" (as defined in the ITA); or
 - (D) an option, an interest or right in such property, whether or not such property exists; and
- (ii) if the New BLY Parent Shares are then listed on a designated stock exchange (which currently includes the ASX), the Non-Resident Holder, persons with whom the Non-Resident Holder does not deal at arm's length (within the meaning of the ITA), partnerships in which the Non-Resident Holder or a person with whom the Non-Resident Holder does not deal at arm's length (within the meaning of the ITA) holds a membership interest directly or indirectly through one or more partnerships, or any combination thereof, concurrently at the time condition (a) is met, owned 25% or more of the issued New BLY Parent Shares

Notwithstanding the foregoing, the New BLY Parent Shares could be deemed to be "taxable Canadian property" to a Non-Resident Holder, for example, if a Non-Resident Holder acquired the New BLY Parent Shares in exchange for "taxable Canadian property" in certain circumstances set out in the ITA.

If the New BLY Parent Shares constitute "taxable Canadian property" to a Non-Resident Holder, the tax consequences of a disposition thereof will generally be as described above under the heading "Holders Resident in Canada – Taxation of Capital Gains and Capital Losses". Furthermore, such Non-Resident Holder may be required

to give notice of the disposition to the CRA and apply for a clearance certificate pursuant to Section 116 of the ITA.

A Non-Resident Holder contemplating a disposition of New BLY Parent Shares that may constitute taxable Canadian property should consult its own tax advisor prior to such disposition.

This Explanatory Memorandum and the Re-domiciliation do not in any way constitute an offer of securities in any place in which, or to any person to whom, it would be unlawful to make such an offer. 24 July 2021

Dear Directors

PART ONE – RE-DOMICILE INDEPENDENT EXPERT REPORT

1 Introduction

On 13 May 2021 (Announcement Date) Boart Longyear Limited (BLY or the Company) announced that an overwhelming majority of its lenders (the Supporting Creditors)¹ had entered into a Restructuring Support Agreement (RSA) that would convert approximately US\$795 million of BLY's debt and accrued interest cost into 98.5% of the post-recapitalisation ordinary shares of BLY (the Recapitalisation). The Recapitalisation is intended to provide a more sustainable capital structure for BLY through substantially reducing debt and interest costs, strengthening the balance sheet as well as enhancing liquidity to support operations and future growth.

Under the RSA, the Company has also agreed to pursue a re-domiciliation scheme of arrangement (Re-domiciliation) to change the Company's corporate domicile to Ontario, Canada. The majority of the Company's management and employees are located in the United States of America. At completion of the transaction, BLY will maintain a listing of CHESS Depository interests (CDIs) on the Australian Stock Exchange (ASX)(subject to ASX approval) and does not expect a re-domiciliation to result in material changes to the Company, its strategy, or its businesses.

BLY is a leading global provider of drilling services and manufacturer of drilling equipment and performance tooling for mining and drilling companies. At 12 May 2021, the Company had a market capitalisation of US\$36.3 million².

¹ The Supporting Creditors comprise Ares Management LLC (Ares), Ascribe II Investments LLC (Ascribe), Centerbridge Partners, L.P. (Centerbridge), Corre Partners Management LLC (Corre), First Pacific Advisers LP (FPA) and Nut Tree Capital Management (Nut Tree).

² Based on an exchange rate of 0.7741 US\$/AU\$ and market capitalisation the day prior to Announcement Date

KPMG Financial Advisory Services (Australia) Pty Ltd ABN 43 007 363 215, Australian Financial Services License No. 246901.

is an affiliate of KPMG. KPMG is an Australian partnership and a member firm of the KPMG global organisation of independent member firms affiliated with KPMG International Limited ("KPMG International")

Liability limited by a scheme approved under Professional Standards Legislation

The re-domiciliation will involve eligible BLY Shareholders acquiring the same proportionate interests they presently hold in BLY in a new holding company incorporated in Ontario, Canada, called Boart Longyear Ltd (New BLY Parent) (the Re-domicile Transaction).

The Re-domicile Transaction will be implemented via a court approved scheme of arrangement under Part 5.1 of the Corporations Act, (the Scheme). Whilst the Recapitalisation is not dependent on the Re-domiciliation proceeding, a condition precedent of the Re-domiciliation Scheme is the Creditor Schemes³ becoming effective.

The Directors have requested KPMG Financial Advisory Services (Australia) Pty Ltd (of which KPMG Corporate Finance is a division) (KPMG Corporate Finance) to prepare an Independent Expert Report (IER) for the benefit of the Shareholders setting out whether, in our opinion, the Re-domicile Transaction is in the best interests of Shareholders.

This report sets out KPMG Corporate Finance's opinion on the Re-domicile Transaction and will be included in the Scheme Documents to be sent to Shareholders prior to the Scheme Meeting. This report should be considered in conjunction with, and not independently of, the information set out in the Explanatory Memorandum provided to Shareholders in relation to the Re-domicile Transaction. It should also be read in conjunction with KPMG Corporate Finance's Recapitalisation independent expert report as set out in the Notice of Meeting with respect to the Recapitalisation.

Further information regarding KPMG Corporate Finance as it pertains to preparation of this report is set out in Appendix 1.

KPMG Corporate Finance's Financial Services Guide is contained in Part Two of this report.

2 Summary of the Re-domicile Transaction

The Re-domicile Transaction will be implemented via the Scheme. If the Scheme is approved, the Redomicile Transaction will result in:

- All of the BLY shares will be transferred to, a new holding company incorporated in Ontario, Canada, (New BLY Parent) and BLY will become a wholly owned subsidiary of New BLY Parent
- Shareholders (other than Ineligible Foreign Shareholders³) will receive in exchange for each BLY Share held by them on the Re-domiciliation Scheme Record Date a CHESSE Depository Interest (CDI) representing a beneficial interest in a New BLY Parent share (New BLY Parent CDI) which, will be able to be traded on the ASX, and
- Ineligible Foreign Shareholders will not be eligible to receive New BLY Parent CDIs under the Scheme. Instead, the New BLY Parent CDIs to which Ineligible Foreign Shareholders would otherwise be entitled will be transferred to a nominee appointed by BLY who will sell those New BLY Parent CDIs and Ineligible Foreign Shareholders will receive the net proceeds of the sale of those New BLY Parent CDIs.

Subject to the implementation of the Re-domiciliation, New BLY Parent currently intends to apply for listing of New BLY's Parent's shares on a North American stock exchange following the Re-domiciliation

³ Ineligible Foreign Shareholders being Shareholders whose address is outside stated jurisdictions as set out in Section 3.18 of the Explanatory Memorandum.

Implementation Date. New BLY Parent also intends to retain the listing of the BLY Parent CDIs on the ASX (subject to ASX approval).

Whilst not part of the Re-domiciliation members scheme of arrangement, subject to the Redomicile Transaction being approved by Shareholders, BLY will allow Shareholders who hold parcels of shares valued at less than AU\$3,000 the opportunity, under certain conditions, to offer to sell their BLY shares to BLY under a selective buy-back (Selective Buy-Back). BLY may in its absolute discretion determine whether to accept (in whole or in part) or reject an offer from BLY shareholders to sell shares under the Selective Buy-Back and the maximum amount that BLY will spend to buy back shares under the Selective Buy-Back will be US\$500,000.

3 Requirement for our Report

Section 412(1) of the Corporations Act requires that an explanatory statement issued in relation to a proposed scheme of arrangement under Section 411 of the Corporations Act, includes information that is material to the making of a decision by a member as to whether or not to agree with the scheme. In this regard, the Directors of BLY have requested KPMG Corporate Finance to prepare an IER that complies with Section 411.

In undertaking our work we have had regard to the guidance provided by the Australian Securities & Investments Commission (ASIC) in its Regulatory Guides and in particular Regulatory Guide 111 'Content of expert reports' (RG 111), which outlines the principles and matters which it expects a person preparing an IER to consider when providing an opinion.

Further details of the relevant technical requirements and the basis of assessment in forming our opinion are set out in Sections 6.4 and 6.5 respectively, of this report.

4 Summary of opinion

In our opinion, the Scheme is, on balance, **in the best interests of Shareholders.**

The primary advantage for the Re-domicile Transaction is for BLY to better align its legal structure with the geography of its shareholder base and to improve access to capital. As such whilst Shareholders will receive in exchange for each BLY Share held by them a CDI representing a beneficial interest in a New BLY Parent Shares, post the Re-domicile Transaction Shareholders will still hold the same proportional economic interest in the assets of the BLY Group that they will hold post the Recapitalisation and the New BLY Parent CDIs will continue to trade on the ASX (subject to ASX approval). There will also be no change to the business plan or the financial and operating strategies of the BLY Group.

In forming our opinion, we considered both the advantages, disadvantages and other matters associated with the Re-domicile Transaction and the wider Restructuring Transaction (where relevant) in order to assess whether Shareholders will be better off, or at least no worse off, if the Re-domicile Transaction is implemented as contemplated. The principal matters considered by us to be material to any decision by Shareholders as to whether to support the Scheme and hence the Re-domicile Transaction, are summarised below.

Further discussion in relation to changes to shareholder rights and taxation implications of the Re-domicile Transaction are set out in Sections 8, 9 and 10 of the Explanatory Memorandum, respectively. Shareholders are strongly encouraged to read the Explanatory Memorandum in its entirety and, if uncertain as to any aspect, seek specialist advice prior to reaching any decision as to whether or not to vote in favour of the Scheme.

4.1 Advantages of the Re-domicile Transaction

Based on our analysis, if approved, the Re-domicile Transaction is expected to result in the following advantages.

Greater access to capital from North American institutional investors

As at 31 March 2021, BLY had approximately US\$869.0 million of net debt and had made a statutory net loss after tax of US\$10.0 million for the quarter. Accordingly, the Company is considered to be in a situation of financial distress. Following the Recapitalisation (whereby outstanding debt of BLY will be reduced by US\$793.8 million) and the Re-domicile Transaction, BLY is likely to be more attractive to institutional investors and pooled funds which are subject to specific international market risk requirements, therefore potentially increasing the Company's access to capital from North American institutional investors.

More familiar legal framework attractive to US investors

BLY is an Australian domiciled company that is listed on the ASX and predominately has United States (US) based shareholders. Besides BHP Group, most of the top diversified metals and mining companies are incorporated in North America and the UK because of their greater size and associated access to capital. This suggests that investors are likely to be familiar with corporate and governance laws of Canada. Following the Re-domicile Transaction, as a Canadian domiciled company, New BLY Parent will operate in a legal framework more in line with competitors and therefore will potentially be more attractive to investors who are likely to be familiar with Canadian law.

The Re-domicile Transaction may better align BLY's corporate structure with its peers, along with simpler tax and corporate structure considerations for potential merger, sale or acquisition transactions in the future, lowering transaction costs and expediting transaction completion.

Management efficiencies

BLY is an ASX listed company that operates a global diversified metals and mining company with a presence across North America, Latin America, Europe, Middle East and Africa (EMEA), and Asia Pacific. At present, BLY's key corporate functions are situated in the US. Under its current organisational structure, BLY manages its global operations from its US headquarters with the majority of the Company's management and employees already located in North America. Further, over 60% of the Company's revenue is generated from US and Canada.

As a Canadian domiciled company, New BLY Parent will, over time, have significant corporate functions based out of its US office. As such, New BLY Parent will be able to better align and be equipped to manage its operations in the US, Canada and EMEA, given the time zones and geographic proximity of these regions to the US compared to Australia which is expected to result in efficiencies in overhead costs over time.

Retention of the ASX listing

At completion of the transaction, BLY's corporate and tax domicile will be changed to Canada. BLY will become a wholly owned subsidiary of New BLY Parent and those Shareholders (other than Ineligible Foreign Shareholders⁴) will hold New BLY Parent CDIs instead of BLY Shares. New BLY Parent will

⁴ Ineligible Foreign Shareholders being Shareholders whose address is outside stated jurisdictions as set out in Section 3.18 of the Explanatory Memorandum.

apply to be listed on the ASX and BLY will be delisted on ASX. The Re-Domiciliation is not expected to result in material changes to the Company, its strategy, or its businesses.

The listing of New BLY Parent's CDIs on the ASX is a condition precedent to the implementation of the Scheme and accordingly, Shareholders (other than Ineligible Foreign Shareholders⁵) will continue to be able to trade their shares through New BLY Parent CDIs and New BLY Parent will be required to comply with the ASX listing rules.

There are no significant disadvantages to holding New BLY Parent CDIs relative to direct ownership of BLY shares. Based on the disclosure in the Explanatory Memorandum, the rights of Shareholders will not be impacted due to their inability to have a direct ownership in New BLY Parent. A detailed description of the rights of CDI holders and the differences between holding shares and CDIs are set out in Appendix E of the Explanatory Memorandum.

We consider it an advantage that Shareholders, who wish to retain the ability to trade on the ASX will continue to be able to do so, with little change in their rights. We recognise that were this not the case Shareholders would likely see this as a disadvantage.

Comparable shareholder protection

The Explanatory Memorandum sets out the comparative provisions between Australian and Canadian company rules (refer Section 8.4 of the Explanatory memorandum). In our opinion, the Shareholders (other than Ineligible Foreign Shareholders) will not be prejudiced due to the Re-domicile Transaction as the regulations in Canada are not materially dissimilar to those observed in Australia.

Cost of insurance

The insurance market in Australia for BLY is currently very expensive with the expected cost to maintain existing levels expected to increase in the future. As a Canadian domiciled company BLY will be able to take advantage of North America's more competitive and cost effective insurance market.

4.2 Disadvantages of the Re-domicile Transaction

Based on our analysis, if approved, the Re-domicile Transaction is expected to result in the following disadvantages.

Change of jurisdiction

Following the Re-domicile Transaction, actions taken by Australian Shareholders with respect to New BLY Parent will be governed by the Canadian legal system. We are of the view that Australian Shareholders are unlikely to be prejudiced due to the Re-Domiciliation and an Australian shareholder will be able to seek enforcement of the laws in the same manner as a Canadian shareholder. However this unfamiliarity may be seen as a disadvantage to Australian based investors (refer Section 8.4 of the Explanatory memorandum for further detail as to the differences between Australian and Canadian company law requirements).

Potential increase in costs

After the completion of the Re-domicile Transaction, New BLY Parent will have compliance and regulatory obligations in two jurisdictions – Canada and Australia, which may increase costs. Whilst the

⁵ Ineligible Foreign Shareholders being Shareholders whose address is outside stated jurisdictions as set out in Section 3.18 of the Explanatory Memorandum.

New BLY Parent will prepare two sets of financial statements these will be prepared in accordance with substantially the same standards.

Ineligible Foreign Shareholders will not be able to receive New BLY Parent CDIs

An existing BLY Shareholder who is considered ineligible as their address is a place outside various designated countries will not be able to receive New BLY Parent CDIs to which they would have been entitled. Those shares will be sold with the net proceeds distributed to the Ineligible Foreign Shareholders after deducting sale costs.

Tax implications

As set out in Section 9 of the Explanatory Memorandum, the Re-domicile Transaction may have adverse tax implications for individual Shareholders. Individual Shareholders are advised to seek their own professional advice if they are unsure of the tax implications due to the Restructure.

4.3 Other matters relating to the Re-domicile Transaction

In forming our opinion, we have also considered a number of other factors as outlined below. Whilst we do not necessarily consider these to be advantages or disadvantages of the Re-domicile Transaction, we consider it necessary to address these considerations in arriving at our opinion.

One-off costs related to the Re-domicile Transaction

The Restructuring of which the Re-domicile Transaction is only one part involves BLY incurring various costs relating to professional advisory fees as well as fees and taxes payable to regulators and other Governmental Agencies. These costs are expected to total up to US\$40.4 million, of which a significant majority will have already been incurred as at the date that Shareholders meet to vote on the Re-domicile Transaction. Some of these costs will be incurred irrespective of whether the Re-domicile Transaction is approved.

Availability of tax losses

BLY has, prima facie, unused tax losses available to offset against future taxable income. Whilst the Re-domicile Transaction may increase the risk of failure under the continuity of ownership test, BLY may still satisfy the same business test or alternatively a similar business test (depending on the applicable loss year). However, the availability of any tax losses will first be impacted by the Recapitalisation as the exchange of debt for BLY Shares is expected to give rise to a commercial debt forgiveness under Australian tax legislation.

The Shareholder rights of New BLY Parent Shares will generally reflect the rights of the existing BLY Shares

If the Re-domicile Transaction is approved, Shareholders will no longer hold securities in an Australian domiciled entity as they will exchange these securities for shares in a Canadian domiciled company, New BLY Parent.

The rights of New BLY Parent Shares will generally reflect the rights of the existing BLY Shares in many respects including the ability to receive dividends and to vote. These are discussed in further detail in Sections 8.3 and 8.4 of the Explanatory Memorandum.

Share price of New BLY Parent Shares likely to be similar to BLY Shares

New BLY Parent Shares do not have any trading history and therefore the trading price of New BLY Parent Shares post the implementation of the Re-domicile Transaction is uncertain. However,

immediately following the implementation of the Re-domicile Transaction New BLY Parent Shares will likely reflect the trading price of the BLY Shares immediately prior to implementation, given executives, assets, operations and strategy of the BLY Group are expected to remain the same post the Re-domicile Transaction.

Tax implications associated with the Re-domicile Transaction

If the Re-domicile Transaction becomes effective, it may trigger taxation consequences for certain Shareholders.

For further detail regarding the taxation consequences of the Re-domicile Transaction and in relation to the holding and disposal of New BLY Parent Shares, refer to Section 9 of the Explanatory Memorandum.

Scheme Participants should consult their professional advisers on the tax implications of the Re-domicile Transaction for their particular circumstances.

4.4 Alternative jurisdictions for the Re-domicile Transaction

BLY management have considered the merits of a number of jurisdictions for the purposes of the Re-domicile Transaction. The US or Canada were considered the most appropriate jurisdiction given they are well-established financial centres, with developed legal and regulatory frameworks. The geographic location of the North America makes it an ideal location to manage BLY's business operations in North America and EMEA. Ultimately the decision has been made to re-domicile to Canada.

4.5 The Re-domicile Transaction may be implemented even if you vote against it

In the event Shareholders do not vote or vote against the Scheme, the Re-domicile Transaction will be implemented if it is approved by the Requisite Majorities of Shareholders and the Court and all other conditions to the Scheme are satisfied or waived. If this occurs, on the Implementation Date, all BLY Shares will be transferred to New BLY Parent and Shareholders will be entitled to receive one New BLY Parent CDI for each BLY Share held on the Record Date, even though a particular shareholder did not vote on or voted against the Re-domicile Transaction.

It is also relevant in this respect to note that BLY's Major Shareholders, being CBP, Ascribe and Corre, which have a Relevant Interest in Shares of 53.3%, 20.7% and 2.9% respectively as at the date of this Explanatory Statement, intend to vote in favour of the Re-domiciliation Transaction.

4.6 Consequences should the Re-domicile Transaction not proceed

The Re-domiciliation will not be implemented if Shareholders do not approve the Scheme, the Court does not approve the Scheme, or any other conditions precedent to the Scheme are not satisfied or waived. If the Re-domicile Transaction is not implemented, BLY will remain as an Australian domiciled company listed on the ASX. Further,

- Shareholders will continue to hold their interests in BLY and the underlying assets of the BLY Group
- a portion of the costs relating to the Re-domicile Transaction would have been incurred. The costs related to the Re-domicile Transaction are detailed in Section 4.3 of this report
- the Selective Buy-Back will not proceed, and
- the advantages, disadvantages and other matters relating to the Re-domiciliation will not be realised, and the disadvantages and other consideration will not arise.

5 Other matters

In forming our opinion, we have considered the interests of Shareholders as a whole. This advice therefore does not consider the financial situation, objectives or needs of individual Shareholders. It is not practical or possible to assess the implications of the Re-domicile Transaction on individual Shareholders as their financial circumstances are not known. The decision of Shareholders as to whether or not to approve the Re-domicile Transaction is a matter for individuals based on, amongst other things, their risk profile, liquidity preference, investment strategy and tax position. Individual Shareholders should therefore consider the appropriateness of our opinion to their specific circumstances before acting on it. As an individual's decision to vote for or against the proposed resolutions may be influenced by his or her particular circumstances, we recommend that individual Shareholders including residents of foreign jurisdictions seek their own independent professional advice.

We note that the Recapitalisation is not dependent on the Re-domicile Transaction and will proceed regardless of whether the Re-domicile Transaction is approved.

Our report has also been prepared in accordance with the relevant provisions of the Corporations Act and other applicable Australian regulatory requirements. This report has been prepared solely for the purpose of assisting Shareholders in considering the Re-domicile Transaction. We do not assume any responsibility or liability to any other party as a result of reliance on this report for any other purpose.

All currency amounts in this report are denominated in US dollars unless otherwise stated.

Neither the whole nor any part of this report or its attachments or any reference thereto may be included in or attached to any document, other than the Explanatory Memorandum to be sent to Shareholders in relation to the Re-domicile Transaction, without the prior written consent of KPMG Corporate Finance as to the form and context in which it appears. KPMG Corporate Finance consents to the inclusion of this report in the form and context in which it appears in the Explanatory Memorandum.

We refer readers to the limitations and reliance on information as set out in Section 6.5 of our report. In this respect, Shareholders should recognise that our opinion is based on prevailing market, economic and other conditions at the date of this report and corresponds with a period of significant volatility in global financial markets and widespread macro-economic uncertainty associated with the COVID-19 pandemic. To the extent possible, we have reflected these conditions in our opinion. However, the factors driving these conditions can change over relatively short periods of time. The impact of any subsequent changes in these conditions on the global economy and financial markets generally, and the assets being valued specifically, could impact upon value in the future, either positively or negatively.

We note that we have not undertaken to update our report for events or circumstances arising after the date of this report other than those of a material nature which would impact upon our opinion.

The above opinion should be considered in conjunction with and not independently of the information set out in the remainder of this report, including the appendices.

Yours faithfully

6 The Re-domicile Transaction

6.1 Summary of the Re-domicile Transaction

Under the RSA the Board of BLY is required to take all steps to redomicile the BLY business to Canada.

The Re-domicile Transaction will be implemented via a court approved scheme of arrangement under Part 5.1 of the Corporations Act (the Scheme). If the Scheme is approved, the Redomicile Transaction will result in

- BLY becoming a wholly owned subsidiary of New BLY Parent, a new holding company incorporated in Ontario, Canada
- Shareholders of BLY as at the Re-domiciliation Scheme Record Date (except for Ineligible Foreign Shareholders⁶) will have each BLY Share held at the Re-domiciliation Scheme Record Date exchanged for a CDI representing a beneficial interest in a New BLY Parent CDI which will be able to be traded on the ASX (subject to ASX approval)
- Ineligible Foreign Shareholder will not be eligible to receive New BLY Parent CDIs under the Re-domiciliation Transaction, their securities will be sold and they will receive the net proceeds of the sale of the New BLY Parent CDIs to which they would otherwise have been entitled, and
- Each New BLY Parent CDI received by Shareholders will be a unit of beneficial ownership in a New BLY Parent Share. All New BLY Parent CDIs will be registered in the name of the Authorised Nominee in accordance with the ASX Settlement Operating Rules.

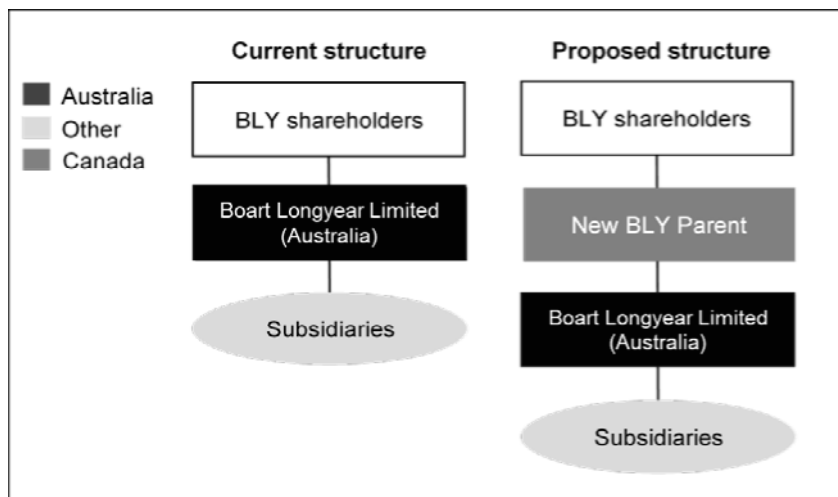

As discussed previously it is BLY's intention to apply for listing of New BLY's Parent's shares on a North American stock exchange following the Re-domiciliation Implementation Date. New BLY Parent would also retain the listing of the BLY Parent CDIs on the ASX (subject to ASX approval).

Following the Redomicile Transaction, the executives, assets, operations and strategy of the BLY are expected to remain the same.

The Redomicile Transaction will be achieved by "top-hatting" BLY with New BLY Parent. The diagram below provides an overview of BLY's current group structure and the group structure of New BLY Parent if the Redomicile Transaction is approved.

Completion of the Re-domicile Transaction requires the approval of Shareholders and the satisfaction of a number of conditions precedent. Further detail in relation to the conditions precedent are set out in Section 6.2 of the report.

Readers of this report are strongly encouraged to read the Explanatory Memorandum in its entirety before deciding whether or not to support the Scheme and thus the Re-domicile Transaction.

6.2 Key conditions of the Re-domicile Transaction

The Re-domicile Transaction is conditional on necessary Shareholder approvals, approval of the Court and the satisfaction or waiver of a number of other conditions, which are outlined in Sections 3.4 of the Explanatory Memorandum. These conditions are summarised below:

- the independent expert concluding that the Re-domicile Transaction is in the best interests of the Shareholders of the Company
- Shareholders of the Company approving the required resolutions at the general meeting by the requisite majorities
- court approval of the both the Re-domicile Transaction and the Creditors' schemes of arrangement (which form part of the Restructuring)
- Supporting Creditors and the New BLY Parent obtaining approval under the Foreign Acquisitions and Takeovers Act 1975 (Cth), and
- the Company obtaining all other relevant regulatory approvals, confirmations, consents or waivers, including confirmation from the ASX that it approves admission of New BLY Parent to the ASX.

6.3 Technical requirements

Section 412(1) of the Corporations Act requires that an explanatory statement issued in relation to a proposed scheme of arrangement under Section 411 of the Corporations Act includes information that is material to the making of a decision by a member as to whether or not to approve the relevant proposal.

Part 3 of Schedule 8 of the Corporations Regulations specifies that the explanatory statement to be sent to shareholders must include a report prepared by an expert where either:

- a party to the scheme of arrangement has a shareholding of not less than 30% of the voting shares in the company; or
- the parties to the proposed scheme have a common director(s).

The independent expert must state whether, in the expert's opinion, the proposed scheme of arrangement is in the best interests of the members of the body as a whole and set out the expert's reasons for forming that opinion.

Even where an IER is not strictly required by the law, it is not uncommon for Directors to commission one to ensure they are providing the information that is material to the making of a decision by a creditor or member.

Whilst an IER is not required by law having regard to the Re-domicile Transaction structure, the Directors of BLY have commissioned KPMG Corporate Finance to prepare an independent expert report for the benefit of Shareholders.

6.4 Basis of assessment

Regulatory Guide (RG) 111 "Content of expert reports", issued by ASIC, indicates the principles and matters which it expects a person preparing an IER to consider. RG 111 distinguishes between the analysis required for control transactions and other transactions.

RG 111.35 and 111.36 state that in the absence of a change of control, change in the underlying economic interests of security holders or selective treatment of different security holders, the issue of 'value' may be of secondary importance. The expert should provide an opinion as to whether the advantages of the transaction outweigh the disadvantages. RG 111.37 states that where such a transaction involves a scheme of arrangement and the expert concludes that the advantages of the transaction outweigh the disadvantages, the expert should say that the scheme is in the best interests of the members.

Whilst the method required for evaluating the transaction contemplated by the Scheme is not specified in RG 111, RG 111.8-34 establishes that any assessment by an expert should focus on the substance of the transaction rather than its legal form.

In the present circumstances the underlying economic interests of the Shareholders will be unchanged as a result of the Schemes. Shareholders effectively retain their existing ownership interest in the assets of BLY.

Accordingly, in the context of our report, we do not consider it appropriate to treat the Schemes as a control transaction. Rather the Scheme will be in the best interests of Shareholders, if Shareholders, as a whole, are assessed as being, on balance, better off, or, at least not worse off, if the Scheme proceeds than if it does not.

In forming our opinion as to whether the Re-domicile Transaction is in the best interests of Shareholders we have considered the following advantages and disadvantages:

- the potential operational benefits to be derived from the Restructuring and the Re-domicile Transaction
- impact of the arrangements on Shareholders
- taxation implications

- changes to shareholder rights
- implication of not approving the Schemes, and
- other matters relating to the Restructuring and the Re-domicile Transaction.

In forming our opinion, we consider the interests of Shareholders as a whole. As an individual shareholder's decision to vote for or against the Re-domicile Transaction may be influenced by his or her particular circumstances, our IER will recommend they each consult their own financial advisor.

6.5 Limitations and reliance on information

In preparing this report and arriving at our opinion, we have considered the information detailed in Appendix 2 of this report. In forming our opinion, we have relied upon the truth, accuracy and completeness of any information provided or made available to us without independently verifying it. Nothing in this report should be taken to imply that KPMG Corporate Finance has in any way carried out an audit of the books of account or other records of BLY for the purposes of this report.

Further, we note that an important part of the information base used in forming our opinion is comprised of the opinions and judgements of management. In addition, we have also had discussions with management of BLY in relation to the nature of the BLY's business operations, its specific risks and opportunities and its prospects for the foreseeable future in the context of this specific transaction. This type of information has been evaluated through analysis, enquiry and review to the extent practical. However, such information is often not capable of external verification or validation.

BLY has been responsible for ensuring that information provided by it or its representatives is not false or misleading or incomplete. Complete information is deemed to be information which at the time of completing this report should have been made available to KPMG Corporate Finance and would have reasonably been expected to have been made available to KPMG Corporate Finance to enable us to form our opinion.

We have no reason to believe that any material facts have been withheld from us but do not warrant that our inquiries have revealed all of the matters which an audit or extensive examination might disclose. The statements and opinions included in this report are given in good faith, and in the belief that such statements and opinions are not false or misleading.

The information provided to KPMG Corporate Finance included forecasts/projections and other statements and assumptions about future matters (forward-looking financial information) prepared by the Management. Whilst KPMG Corporate Finance has relied upon this forward-looking financial information in preparing this report, BLY remains responsible for all aspects of this forward-looking financial information. The forecasts and projections as supplied to us are based upon assumptions about events and circumstances which have not yet transpired. We have not tested individual assumptions or attempted to substantiate the veracity or integrity of such assumptions in relation to any forward-looking financial information, however we have made sufficient enquiries to satisfy ourselves that such information has been prepared on a reasonable basis.

Notwithstanding the above, KPMG Corporate Finance cannot provide any assurance that the forward-looking financial information will be representative of the results which will actually be achieved during the forecast period. Any variations in the forward looking financial information may affect our valuation and opinion.

The opinion of KPMG Corporate Finance is based on prevailing market, economic and other conditions at the date of this report and corresponds with a period of significant volatility in global financial markets

and widespread macro-economic uncertainty associated with the COVID-19 pandemic. To the extent possible, we have reflected these conditions in our opinion. However, the factors driving these conditions can change over relatively short periods of time. The impact of any subsequent changes in these conditions on the global economy and financial markets generally, and the assets being valued specifically, could impact upon value in the future, either positively or negatively.

We note that we have not undertaken to update our report for events or circumstances arising after the date of this report other than those of a material nature which would impact upon our opinion.

7 Company overview

7.1 Overview

BLY is a leading provider of drilling services, drilling equipment and performance tooling for mining and drilling companies, with more than 130 years of expertise in the mineral drilling market. The Company also provides aftermarket parts and services, energy drilling, oil sands exploration and production drilling. BLY comprises of two main operating divisions: global drilling services (Drilling Services) and global products (Products), which are discussed in further detail below. The integrated business model of providing both drilling services and drilling products globally gives BLY the ability to integrate knowledge gained from both divisions into the development of new products and improve its drilling services offering.

BLY operates across four regions: Asia Pacific (APAC), North America (NAM), Europe, the Middle East and Africa (EMEA), and Latin America (LAM). In FY20, operations in the NAM region accounted for 44.3% of the Company's total revenue, followed by APAC with 25.9%, EMEA with 19.5% and LAM with 10.2%.

A split of BLY's revenue by product and geographic region for FY19 and FY20 is shown below.

Figure 2: BLY's revenue by product and region

7.2 Recent developments

BLY operates a business that can be highly cyclical and typically follows major trends within the mining industry. The mining industry has had five industry cycles since 2000⁷ and going forward, similar cyclicality and greater volatility within cycles are expected by market participants as they face challenges in relation to financing, volatile share prices and cyclical capital expansion. In addition, the exploration,

⁷ Through-cycle investment in mining, McKinsey & Company, 8 July 2020

mining, and construction markets were materially impacted by restrictions imposed as a result of the COVID-19 pandemic.

The revenue and earnings of BLY are linked to commodity prices. Since the onset of the COVID-19 pandemic in early 2020, the decline in customer demand, disrupted global supply chains and market volatility led to a significant decline in commodity prices. In a declining commodity pricing environment mining companies typically cancel or defer capital expenditure and exploration projects to focus on cost reductions and capital allocations, resulting in a reduction in global mining exploration activity and mining investments. The trend in decreased mining exploration is expected to reverse going forward, with commodity prices predicted to continue to appreciate, encouraging stronger mining investment and mining services expenditure in FY21 as noted in Appendix 5.

The percentage utilisation of operating drilling rigs in Drilling Services can be seen as an economic indicator for the performance of the division. During FY20, BLY's operating rig utilisation rate was approximately 37%, a decrease from 41% in FY19 and 46% in FY18. Comparatively, at the top of the cycle, the percentage utilisation was approximately 55.0% to 65.0%.

For Products, order backlog can be seen as an economic indicator. Average backlog increased 6.5% from FY18 to FY19, and 13.1% from FY19 to FY20. An increase in backlog reflects increased demand for drilling products. This measure also acts as a good leading indicator for future increases in volume for Drilling Services, as mining businesses increase drilling inventory in expectation of higher workflow.

In response to the continued downturn and challenging capital structure, BLY continued to position the business to operate more efficiently across all phases of the mining cycle. Following a strategic review of the business and in order to achieve cost saving, BLY committed to undertaking the following key initiatives:

- controlling sales, general and administrative costs (SG&A) and other overhead related costs
- optimising the commercial organisation to drive value through the contracting and pricing processes
- leveraging the supply chain function across the business, and
- focusing on operational efficiencies and productivity at the drill rig level and across the global organisation.

These initiatives resulted in reduced overall expenditure of approximately US\$60.9 million in FY20.

Going forward, BLY will focus on the following initiatives to improve business performance:

- maintaining and improving safety and compliance to reduce job related injuries and protect against potential safety risks
- focusing on expanding mining and mineral drilling customer bases by aiming to improve efficiency, productivity and commercial practices
- fostering strong customer relationships and carefully managing pricing and contract terms
- balancing investing in new products that respond to customer needs, whilst also managing capital expenditure, and
- improving cash generation through effective liquidity and cost management.

Strategically, BLY intends to focus on increasing data acquisition at drilling rigs for processes such as core orientation, core logging, survey and assay. This subsurface resource data can then be sent back to

customers in an instantaneous, low-cost and user-friendly manner through the Geological Data Services business, a segment of the Products business.

7.3 Drilling Services

Drilling Services provides a broad range of drilling services to mining and energy companies, water utilities, geotechnical engineering firms, government agencies and other mining services companies in approximately 22 countries. The division primarily offers drilling services for commodities such as gold, copper, and nickel, as well as for the exploration and development of non-conventional energy sources such as oil shale, oil sands, coal, coal seam gas and geothermal energy. BLY specialises in a range of drilling services technology, including surface and underground diamond core drilling, underground percussive drilling, sonic drilling, surface rotary drilling, surface geotechnical drilling, and surface and underground reverse circulation drilling.

An analysis of Drilling Services revenue by commodity and stage for FY19 and FY20 is shown below.

Figure 3: Drilling Services revenue by commodity and stage

Source: BLY investor presentation for FY20 and FY19.

Drilling Services provides services to major and intermediate mining companies which represented 89% of revenues during FY20, with no single contract contributing more than 10% of the consolidated revenue. Major customers during FY20 included, but were not limited to, AngloGold Ashanti Limited, Barrick Gold Corporation, Newmont and Rio Tinto Ltd.

Drilling Services operates in the greenfield, development and production stages of the mining cycle, with the development and production stages generating the majority of revenue. In FY20, Drilling Services revenue, which accounted for approximately 69% of the Company’s revenue, decreased by 11.6% to US\$456.3 million. This decrease was primarily driven by volume reduction due to the COVID-19 pandemic impacts through the second and third quarters as governments and customers restricted activities while developing safe work practices to protect employees.

The recovery from the COVID-19 pandemic restrictions in Canada, Australia, Asia and Africa was faster than in the United States, Chile, and Argentina. The majority of revenue lost was attributable to these three countries, which was partially offset by cost reductions implemented as part of the COVID-19 pandemic management plan. Prices observed were broadly in line with prior year with changes in foreign exchange rates resulting in a US\$0.5 million decrease in revenue in FY20 compared to FY19.

With recent increases in commodity prices along with stronger product sales, which act as a leading indicator for increased volume in Drilling Services, there is an opportunity for revenue to grow in the near future. However, low rig utilisation rates have caused an oversupply of rigs in the market, creating a

highly competitive environment resulting in price and margin pressures. As such, the Company has continually sold excess rigs and ancillary equipment over the last five to six years. During FY20, the Company had an average of 683 drilling rigs deployed globally and an average rig utilisation of 37%, this compares to 921 drilling rigs in FY15 and an average rig utilisation of 36%.

7.4 Products

Products, designs, manufactures and sells a range of drilling equipment and performance tooling, including wireline core extraction systems, drilling rigs, diamond drill bits and drill rods for mine development, mine production and environmental and infrastructure drilling. The Company offers these products to environmental, mining, resources, infrastructure, and energy industries. Its coring tools include conventional diamond drill and advanced wireline coring systems used in minerals drilling.

Products predominantly sells exploration tooling and production tooling to drilling services contractors and mining companies.

Overall, Products accounted for 30.0% of the Company's total revenue during FY20. The division carries significant inventory levels, which have decreased year on year as management continues to improve inventory metrics and reevaluate key assumptions in the calculation of allowance for excess or obsolete inventory. As at 31 December 2020, inventory levels remained high as a percentage of revenue at 24.1%, with a decrease of only 2.9% from FY19 to FY20. Notwithstanding the 13.1% increase in average backlog from FY19 to FY20, there was sufficient inventory on hand to fill most customer demand at 31 December 2020.

During FY20, revenue from Products decreased by 9.9% to US\$257.4 million. This decrease was mainly due to the COVID-19 pandemic impacted volume losses and unfavourable currency translations. Specifically, revenue generated from capital equipment, spares, and production tooling were key contributors to the lower revenue in FY20 relative to prior period.

Upon elimination of the impacts mentioned, the Products business posted modest growth with a backlog of product orders valued at US\$44.6 million at 31 December 2020, representing a year-on-year (YoY) increase of 24.2% compared to \$35.9 million at 31 December 2019. Furthermore, the segment profit increased by 12.3% to US\$16.4 million compared to FY19. Management believe the growth is underpinned by an increase in demand for consumables during the year and it is expected to continue growing over FY21.

BLY's research and development (R&D) activities focus on the development, design and testing of new and improved products. The Company works in co-operation with customers to identify issues and develop technical solutions. During FY20, the Company launched one new product and as at 31 December 2020, the Company had 408 issued patents, 428 registered trademarks, 131 pending patent applications and 13 pending trademark applications. The quality of BLY's drilling equipment continues to act as a barrier to competitors from low cost countries entering the market (such as China and India), as the product quality, performance and safety standards of the Company's products are superior, particularly in the high-end hard rock deep drilling market.

8 Financial overview

8.1 Going concern basis

BLY's financial reports for FY20 were prepared by management on a going concern basis, which contemplates continuity of normal business activities and realisation of assets and settlement of liabilities

in the ordinary course of business. In this regard, the Directors highlight the following risks which give rise to material uncertainty:

- the Company incurred a net loss after tax of US\$98.8 million (FY19: US\$56.6 million)
- the Company had net liabilities of US\$469.4 million (FY19: US\$382.2 million), and
- based on internal projections difficulties may arise in complying with the financial covenants and terms under the amended credit facility agreement in the absence of improved mining market conditions and financial performance of the Company.

In the Directors' opinion, the ability of the Company to continue as a going concern is dependent on:

- securing an agreement to remove the obligation to pay cash interest on the Senior Secured Notes in June 2021 and December 2021, and
- the ongoing support of the Company's debt providers, including negotiating a refinancing or recapitalisation of the debt facilities, which currently expire in the second half of 2022.

Notwithstanding the above, the Directors believe that the Company will be successful in reaching an agreement with the debt providers with respect to the removal of the obligation to pay cash interest on the Senior Secured Notes through either:

- a separate agreement specifically in relation to the interest payable on the Senior Secured Notes, and/or
- a refinancing or recapitalisation and accordingly have prepared the financial report on the going concern basis.

Note 1: FY18 results do not reflect the impact of AASB 16 – Leases, which was adopted as of 1 January 2019.

With regard to the historical financial performance summarised above, we note the following:

- as the mining and resources markets have contracted, FY20 revenue of US\$657.3 million decreased by 11.8%, compared to FY19 revenue of US\$745.0 million. In relation to the revenue impact of the business divisions, we note the following:
 - FY20 revenue from Drilling Services decreased by 11.6% to US\$456.3 million compared to FY19 primarily due to the pause in activities imposed by governments and customers due to the outbreak of the COVID-19 pandemic, and weak sentiment in the global mining industry

- FY20 revenue from Products decreased by 9.9% to US\$257.4 million compared to FY19, primarily due to the COVID-19 pandemic impacted volume losses and unfavourable currency translations
- BLY implemented its business continuity plan in light of the COVID-19 pandemic, including measures required to protect health and well-being of employees while ensuring ongoing operational sustainability, ceasing all non-essential international and domestic travel, as well as conserving cash by enforcing temporary salary reductions and amending the terms of the Company’s Senior Secured Notes to satisfy interest payments due
- as a result of the saving initiatives implemented during the early stages of the COVID-19 pandemic to combat the decline in revenues, expenses comprising Cost of Goods Sold (COGS) and SG&A totalled US\$646.6 million in FY20, representing a 9.6% decrease compared to FY19. Refer to Section 7.2 for further details on the cost saving initiatives
- the adjusted EBITDA is not shown in the table above as it is not a comprehensive representation of all the significant transactions the Company recognised throughout the year. For instance, the adjustments include government aid received throughout the business for the COVID-19 pandemic relief and gains from sales of assets, but exclude costs incurred to quarantine crews unable to work as a result of the COVID-19 pandemic, contract termination costs, legal fees and indirect tax write-offs. Further, the adoption of AASB 16 improves EBITDA in FY19 by US\$9.2 million relative to FY18 (as lease payments are no longer deducted above the EBITDA line but are substituted with deductions for right of use (ROU) asset depreciation and interest below the EBITDA line). During the period FY18 to FY20, the Company incurred the following extraordinary expenses:

Note 1: EBITDA is defined as earnings before interest, tax, depreciation and amortization.

Note 2: Adjusted EBITDA is defined as earnings before interest, tax, depreciation and amortization and before major restructuring initiatives, impairments of assets, and other significant and non-recurring transactions outside the ordinary course of the business.

- over the period FY18 to FY20, COGS were impacted by the ongoing cost reduction actions implemented by management and its decline was broadly in line with that of revenue. COGS decreased as a percentage of revenue from 83.0% in FY18 to 81.4% in FY19. However, due to the impact of the COVID-19 pandemic on the Company’s revenue performance, revenue generated in FY20 decreased to a greater extent relative to COGS, resulting in COGS as a percentage of revenue

of 85.2% in FY20. In absolute terms, COGS decreased by 5.1% to US\$606.3 million in FY19, and 7.7% to US\$559.8 million in FY20

- cost reduction measures implemented by management include reducing the SG&A run rate of both business divisions. SG&A expenses are classified in the statement of financial performance as ‘general and administrative expenses’ and ‘sales and marketing expenses’. During FY20, BLY realised additional cost savings of approximately US\$16.4 million or 15.9%, reducing FY20 SG&A expenses to US\$86.9 million compared to FY19 (FY19: US\$0.6 million or 0.5% in additional cost savings, reducing SG&A expenses to US\$103.3 million from FY18)
- other expenses increased from US\$15.0 million to US\$17.1 million during FY20. These expenses primarily related to foreign exchange changes and impairment charges
- finance costs during FY20 increased by 23.2% to US\$92.9 million from US\$75.4 million in FY19, primarily due to an increase in interest on loans and bank overdrafts, partially as a result of the amendment for interest payments to be made in payment in kind (PIK) instead of cash, and
- income tax expenses of US\$5.3 million for FY20 decreased by 37.9% from FY19. Refer to Section 11 for further details on BLY’s tax position as at 31 December 2020.

On 29 April 2021, BLY announced its results for the first quarter ended 31 March 2021, noting the improvement in the level of exploration and mining activity, which was last experienced prior to 2014. Revenue generated in the quarter increased by US\$38 million (or 22%) compared to the quarter ended 31 March 2020 and adjusted EBITDA increased by US\$17 million (or 189%), driven by the increased demand for products and services, along with ongoing cost management and productivity improvements. The net loss after tax has also decreased by US\$15 million compared to the quarter ended 31 March 2020.

Note 6: *FY18 results do not reflect the impact of AASB 16 – Leases, which was adopted as of 1 January 2019.*

With regard to the historical financial position summarised above, we note the following:

- as a result of an increased use of cash in operating activities in FY20 offset by a reduction in cash interest paid during the year, cash and cash equivalents increased by US\$3.3 million, or 16.2%, to US\$23.5 million as at 31 December 2020. Included in this balance is US\$7.6 million relating to cash interest paid, as well as US\$0.2 million of restricted cash that cannot be accessed until certain conditions, pertaining to both the asset-based revolver bank loan (ABL) and secure facility leases, are met
- inventories decreased by US\$4.8 million, or 2.9% to US\$158.3 million as at 31 December 2020. The reduction primarily related to inventory saving initiatives implemented by management, and the impacts of a change in key assumptions used to estimate the allowance for excess or obsolete inventory. The change in estimate was a result of the decline in the demand for products and consumables used in the Drilling Services business, the high inventory balances across the Company, and the reduced speed at which inventory was turning in the current market. This resulted in an increase in obsolescence expense of US\$5.0 million recognised in FY20
- as at 31 December 2020, the income tax receivable (US\$2.1 million) was classified as US\$0.5 million of current tax receivables and US\$1.6 million as non-current tax receivable. In addition, the Company has accounted for the potential tax payable arising from audits by the Canadian Revenue Authority (CRA) in its provisions, which is discussed further in Section 11
- in response to challenging market conditions, the Company classified certain excess rigs and ancillary equipment that were underutilised, totalling US\$0.4 million, as assets held for sale as at 31 December 2020. We note that as of April 2021 the company had sold some of the assets held for sale, which resulted in a reduced balance of US\$0.3 million as at the date of this report.
- as at 31 December 2020, the net value of property, plant and equipment (PP&E) decreased by US\$13.1 million, or 7.9% to US\$152.0 million from 31 December 2019. The decrease related to depreciation expenses of US\$37.6 million, disposals of US\$3.6 million, and impairment charges of US\$8.3 million. These decreases were partially offset by US\$4.4 million in foreign currency movements and current year additions of US\$32.1 million
- as of 1 January 2019, the Company adopted AASB 16 and reflected leased assets under PP&E, whilst PP&E balances as at 31 December 2018 include lease accounting under guidance in IAS 17, classifying agreements as finance leases or operating leases. As at 31 December 2020, the Company had ROU assets with a net book value of US\$31.9 million and corresponding lease liabilities of US\$36.6 million, compared to US\$35.6 million and US\$36.6 million as at 31 December 2019
- the Company identified the global economic impact of the COVID-19 pandemic as a potential indicator of impairment, and accordingly impairment charges of US\$6.8 million against PP&E in the Latin America Drilling Services cash generating unit (CGU) were recorded and recognised in other expenses. Utilisation rates lower than current levels could lead to further future asset impairments
- the carrying balance of other intangible assets increased by US\$3.9 million to US\$31.6 million as at 31 December 2020, due to additions of US\$7.0 million and foreign currency exchange differences of US\$0.9 million, which were partially offset by amortisation of US\$3.4 million, impairment charges of US\$0.5 million and disposals of US\$0.1 million

- deferred tax assets (DTAs) as at 31 December 2020 decreased by 21.5% to US\$13.3 million from 31 December 2019
- total assets as at 31 December 2020 decreased by US\$32.3 million, or 5.0% to US\$609.6 million. The reduction is primarily a result of impairment of PP&E, reductions in tax receivables and a decrease in working capital balances offset by increases in intangible assts and cash
- trade and other payables as at 31 December 2020 decreased by US\$13.1 million, or 11.8% to US\$98.0 million. Despite the creditor days figure increasing to approximately 61 days at 31 December 2020 (31 December 2019: approximately 56 days), a lower level of manufacturing activity and continued focus on cost control led to the resultant decrease in trade and other payables. Further, accrued legal and environmental costs of US\$5.3 million as at 31 December 2020 were reclassified from trade and other payables to provisions
- provisions as at 31 December 2020 decreased by US\$13.5 million, or 21.3%, to US\$75.5 million as compared to 31 December 2019. This decrease is primarily the result of decreases in provision for tax contingencies, pension and post-retirement benefits, restructuring and termination costs. This was partially offset by an increase in the provision for employee benefits and legal contingencies. Provisions of US\$89.0 million as at 31 December 2019 decreased by 10.4% from US\$99.4 million as at 31 December 2018. These balances were primarily made up of provisions for tax contingencies and employee provisions, including pension and post-retirement benefits, annual leave, long service leave and bonuses
- as at 31 December 2020, the current tax payable of US\$10.2 million related primarily to income tax payable, as well as other tax related expenses, attributable to BLY and entities in the consolidated group, and
- loans and borrowings as at 31 December 2020 totalled US\$878.6 million and increased by US\$76.9 million during FY20, primarily driven by accredited interest for the period. See Section 10.1 for further detail.

Source: BLY financial report for FY20 and FY19, and KPMG Corporate Finance Analysis.

Note 1: FY18 results do not reflect the impact of AASB 16 – Leases, which was adopted as of 1 January 2019.

With regard to the historical statement of cash flows summarised above, we note the following:

- as at 31 December 2020, net operating cash flows was US\$49.4 million (FY19: US\$ 35.3 million), representing an improvement of US\$14.1 million over FY19. This improvement primarily reflects the successful conversion of the 2020 interest instalments for debt from payment in cash to PIK, as well as a number of long-term initiatives implemented to decrease working capital needs, and improve productivity and capital management. The Company also received US\$6.2 million in funds under the Canada Employee Wage Subsidy program for the COVID-19 pandemic relief

- capital expenditures reduced from the outlay of US\$47.1 million in FY19 to US\$25.1 million in FY20, primarily due to a lower amount of investment of US\$32.1 million (FY19: US\$50.7 million) in capital equipment and R&D as the Company continued to conserve cash during the COVID-19 pandemic. The investments were made to support existing operations during FY20 and prepare the Company for the expected increase in demand in FY21. The capital expenditures incurred in FY20 were partially offset by proceeds from the sale of PP&E of US\$5.2 million in FY20, which was broadly in line with the amount of US\$5.8 million in FY19, and
- during FY20, the Company recorded US\$18.9 million in net cash flows from financing activities compared to US\$11.0 million in FY19. The difference is primarily due to higher repayment of borrowings and lease facilities, partially offset by higher proceeds from borrowings. In comparison, proceeds from borrowings in FY19 were US\$31.4 million.

9 Working capital

The historical NWC balances of BLY are illustrated in the graph below.

Figure 4: Historical net working capital¹ profile

Source: BLY financial reports for FY12, FY13, FY14, FY15, FY16, FY17, FY18, FY19 and FY20.

Note 1: Calculation for net working capital = Trade and other receivables + Inventories – Trade and other payables.

With regard to the historical NWC above, we note the following:

- NWC increased by US\$105 million from 31 December 2011 to 31 December 2012 due to significant build-up of inventories and equipment over the period
- NWC has been steadily declining since FY12 as the Company focused on carefully managing working capital levels to ensure that inventory is sufficient to meet demand but is not obsolete
- consolidation and integration of inventory management and supply chain functions combined with lower revenues has reduced the working capital requirements. The slight increase in net working capital from US\$131.0 million at 31 December 2015 to US\$146.0 million at 31 December 2016 was due to a decrease in trade and other payables as opposed to an increase in inventories or receivables. NWC increased in the beginning of 2017 with improving market conditions

- as a percentage of revenue NWC peaked in FY13 at 28.0% as revenue dropped significantly by 39.2% from FY12 to FY13. As NWC management initiatives were put in place NWC as a percentage of revenue has followed a downward trend, before increasing slightly in FY16 due to a decrease in revenue and a corresponding decrease in trade payables, then remained broadly consistent throughout FY17 to FY19. As at 31 December 2020, NWC as a percentage of revenue had increased from 22.2% at 31 December 2019 to 25.8%, primarily due to a decrease in revenue only partially offset by corresponding lower trade receivables and inventories and lower trade payables, and
- the majority of the Company's working capital is cyclical, with the balance decreasing towards the first and fourth quarters of the calendar year. The cyclicity is primarily influenced by the seasonality in the mining and resources industry where shutdowns by mining companies at year end reduce mining activity and hence the demand for drilling services. A portion of the Company's working capital is counter cyclical as exploration drilling services provided to the oil & gas sector are traditionally provided during the second and third quarters of the year.

Note 1: Outstanding letters of credit and other facility specific restrictions as at 31 December 2020 reduce the amount of funds available to be drawn from the ABL. This is explained in further detail below.

Note 2: Interest is PIK from 1 January 2020 to 30 June 2020 at an interest rate of 12.0%. Interest is PIK from 1 July 2020 to 31 December 2020 at an interest rate of 14.5%. Interest in cash at a reduced interest rate of 10% p.a. from 1 January 2021. The effective interest rate on a go-forward basis is 14.4%. US\$0.6 million of senior secured notes is subject to interest in cash at an interest rate of 10% p.a.

Note 3: Interest is 1.5% PIK at the Company's election until maturity.

Note 4: Interest is 8% PIK.

Note 5: Applicable interest rates for the ABL are based on a base rate plus a margin, where:

- base rate = US dollar LIBOR or prime rate determined by the Bank of America.

- margin = based on leverage according to a pricing grid.

Note 6: Interest is PIK at 11% at the Company's election or 10% cash. Maturity date is October 2022 or 90 days after the ABL due date.

With regard to the debt facilities above, we note the following:

- the Company had US\$217.0 million of senior secured notes outstanding as at 31 December 2020. These notes carried an interest rate of 10.0% p.a. and a maturity date of December 2022. On 19 June 2020, the Company reached an agreement with the relevant noteholders and the ASX to satisfy the

interest payments due in respect of the notes on 30 June 2020 and 31 December 2020 by way of PIK instead of cash. The senior secured notes include a premium which is expressed as a percentage of the principal redeemed or repaid and includes PIK interest. The premium is payable at the maturity of the notes due in December 2022, as well as in circumstances whereby the notes are redeemed prior to maturity, and the premium percentage increases over time from 0.9% to 24.4% of the principal balance, subject to the timing of repayment. The debt modification, stated terms and applicable premium result in an effective interest rate on the notes is 14.4% p.a.

- the Company had US\$88.9 million of senior unsecured notes outstanding as at 31 December 2020. These notes have an applicable interest rate of 1.5% p.a. in PIK and mature in December 2022
- the Term Loan facility has an interest rate of 8.0% payable-in-kind and is structured into Term Loan A and Term Loan B. As at 30 December 2020 Term Loan A had principal outstanding of US\$132.5 million maturing in December 2022, and Term Loan B had principal outstanding of US\$159.9 million maturing in December 2022
- the Company had an ABL with an available facility of US\$75.0 million as at 31 December 2020. Letters of credit of US\$5.8 million were drawn under the facility in addition to an outstanding amount of US\$23.0 million, reducing remaining funds available through this facility
 - the facility has an ‘availability block’ of US\$10.0 million, which releases when the Company achieves certain net debt to EBITDA leverage ratios
 - the borrowing on this facility is limited to the lower of the lender’s commitment or the ‘borrowing base’ that supports the ABL. As at 31 December 2020, the borrowing base was US\$55.0 million, which reduced collateral availability by US\$10.0 million
 - the facility is subject to a minimum liquidity requirement of 15% of the lesser of ‘borrowing base’ or ‘facility capacity’ less the ‘availability block’ on the last day of any month. As at 31 December 2020, the minimum liquidity requirement was US\$8.3 million
 - the amount of funds available to be drawn from the ABL as at 31 December 2020 was US\$17.9 million, as summarised in the following table

Table 6: Funds available at 31 December 2020

US\$ million unless otherwise stated	31-Dec-20
ABL available facility	75.0
Drawn	23.0
Letters of credit	5.8

- the ABL interest rate is based on 30-day US\$ LIBOR with the margin based on a pricing grid linked to the Company’s leverage. As at 31 December 2020, the applicable margin was 3.5% for LIBOR based loans
- the scheduled maturity date of the facility is July 2022. As at 31 December 2020, the Company was in compliance with all of its debt covenants

- the Backstop ABL term loan facility has an interest rate of 11.0% p.a. payable-in-kind or 10.0% p.a. in cash. The facility is due to mature in October 2022 and is secured by substantially the same collateral as the ABL facility. As at 31 December 2020, the amount outstanding under this facility was US\$45.0 million
- as at 31 December 2020, accrued interest for the debt facilities was as follows:
 - Senior Secured Notes – US\$62.3 million
 - Senior Unsecured Notes – US\$4.5 million
 - Term Loan A – US\$23.1 million
 - Term Loan B – US\$27.9 million
 - Backstop ABL – US\$13.0 million.
- BLY announced its engagement with Rothschild & Co. on 7 January 2021 to support the Company's evaluation of potential options in anticipation of the maturation of the debt facilities through the second half of 2022 including for refinancing or recapitalisation.

BLY had a total amount of debt facility drawn of US\$883.2 million as at 31 March 2021. With regard to the debt facilities, we note the following:

- the Company had an ABL with an available facility of US\$75.0 million as at 31 March 2021. Letters of credit of US\$6.0 million were drawn under the facility in addition to an outstanding amount of US\$31.4 million, reducing remaining funds available through this facility. Other adjustments reducing the amount of funds available to be drawn include the ABL facility block and borrowing base availability adjustment of US\$20.8 million. As at 31 March 2021, the amount of funds available to be drawn from the ABL was US\$16.8 million
- as at 31 March 2021, accrued interest for the debt facilities was as follows:
 - Senior Secured Notes – US\$62.3 million
 - Senior Unsecured Notes – US\$4.9 million
 - Term Loan A – US\$26.3 million
 - Term Loan B – US\$31.7 million
 - Backstop ABL – US\$13.6 million.

On 8 June 2021, BLY announced the completion of its US\$65 million short-term financing implementation to ensure adequate liquidity for operations through the restructuring process, as well as the consent approval to amend its Senior Secured Notes. The additional financing is comprised of:

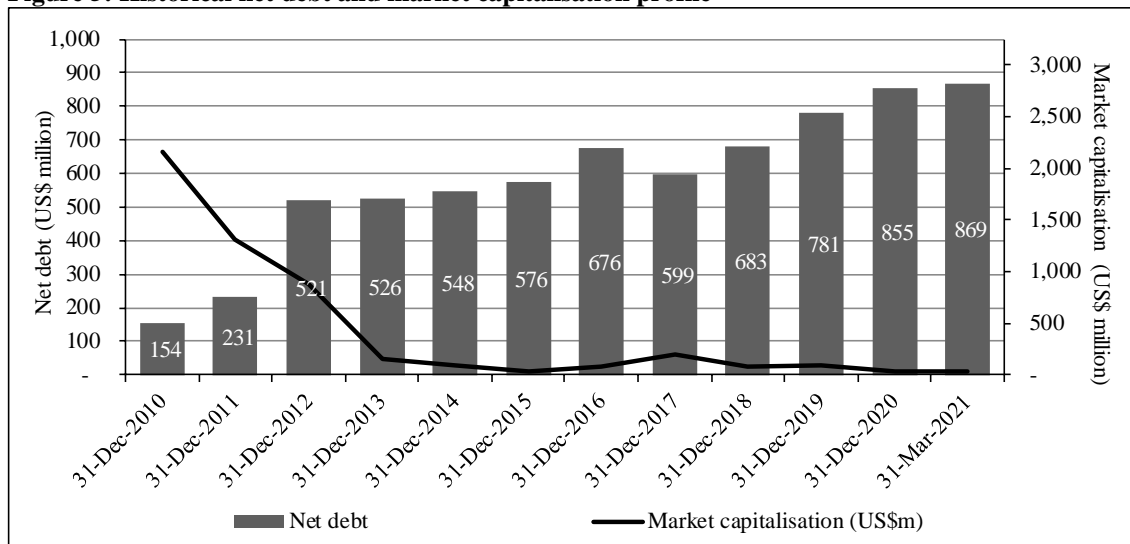

- an incremental, short-term US\$50 million credit facility with Corre, FPA and Nut Tree to provide additional working capital until the Recapitalisation and related transactions are completed, and
- an additional US\$15 million of accessible liquidity and four-year extension of the term of the ABL facility.

Further, BLY received consents from the holders of 99.75% of the Senior Secured Notes due in December 2022 to permit the Company to incur additional financial indebtedness and to satisfy the interest payments due on 30 June 2021 in respect of notes held by consenting note holders by way of PIK at the rate of 14.5%.

10.2 Historical net debt and market capitalisation profile

BLY's historical net debt⁸ and market capitalisation profile is illustrated below.

Figure 5: Historical net debt and market capitalisation profile

Source: BLY financial reports for FY12 to FY20, First Quarter 2021 Appendix 4C, S&P Capital IQ, and KPMG Corporate Finance Analysis.

In FY12, BLY geared up to increase their production capacity in line with the peak of the mining exploration cycle. However, the contraction in the exploration market post 2012 has led to customers reducing capital expenditure, resulting in lower demand for exploration drilling and expenditure, whilst underground production drilling remained relatively stable. This has produced an oversupply of drill rigs in the market, causing BLY to be impacted by low rig utilisation rates, a reduction in order backlogs and an increase in financial leverage. This has resulted in a fall in market capitalisation in line with the mining down-cycle over time. Even the demand for exploration activities at the highest point in the most recent cycle in 2018 was not enough to reduce the Company's debt significantly.

In response to the prolonged contraction in the mining market, the Company negotiated a number of amendments to its credit facilities to maintain liquidity as well as recapitalisations in FY14 and FY17 to reduce the debt amounts outstanding.

10.3 Credit rating

During the last twelve months (LTM), BLY was subject to a series of credit rating downgrades, as summarised below:

- 24 June 2020 – S&P revised the BLY's credit ratings as follows, reflecting the completion of the amendment to Senior Secured Notes due December 2022 which saw the conversion of the June 2020 and December 2020 interest payments from cash to PIK:
 - corporate credit rating downgraded from 'CCC' to 'SD' (selective default)

⁸ Net debt is calculated as gross debt less cash and cash equivalents

- rating outlook downgraded to ‘Negative’
- senior secured notes downgraded to ‘D’ with recovery rating ‘3’
- senior unsecured notes downgraded to ‘C’ with recovery rating ‘6’.
- 2 July 2020 – S&P revised the Company’s credit ratings as follows:
 - corporate credit rating reinstated from ‘SD’ to ‘CCC+’
 - rating outlook affirmed to be ‘Negative’
 - senior secured notes reinstated from ‘D’ to ‘CCC+’ with recovery rating ‘3’
 - senior unsecured notes reinstated from ‘C’ to ‘CCC-’ with recovery rating ‘6’.
- 2 July 2020 – Moody’s Investors Service (Moody’s) affirmed the Company’s credit rating as follows:
 - corporate family rating and probability of default to be ‘Caa2’
 - rating outlook to be ‘Stable’
 - senior secured notes to be ‘Caa1’
 - senior unsecured notes to be ‘Caa3’
 - speculative grade liquidity rating to be ‘SGL-3’.
- 8 March 2021 – S&P revised the Company’s credit ratings as follows:
 - corporate credit rating downgraded from ‘CCC+’ to ‘CC’
 - rating outlook moved to ‘CreditWatch Negative’
 - senior secured notes downgraded from ‘CCC+’ to ‘CC’ with recovery rating ‘4’
 - senior unsecured notes remained unchanged at ‘C’ with recovery rating ‘6’.
- 20 May 2021 – S&P revised the Company’s credit ratings as follows:
 - corporate credit rating downgraded from ‘CC’ to ‘D’
 - rating outlook removed from ‘CreditWatch Negative’
 - senior secured notes downgraded from ‘CC’ to ‘D’ with recovery rating ‘4’
 - senior unsecured notes remained unchanged at ‘D’ with recovery rating ‘6’.
- 4 June 2021 – Moody’s revised the Company’s credit ratings as follows:
 - corporate family rating and probability of default lowered to be ‘Ca’
 - rating outlook to be ‘Negative’
 - senior secured notes to be ‘Ca’
 - senior unsecured notes to be ‘C’, and
 - speculative grade liquidity rating to be ‘SGL-4’.

Further reductions in liquidity may cause additional downgrades to the Company’s corporate and debt credit ratings. However, the Company confirmed its capital restructure plans on 26 February 2021 as part

of the FY20 earnings announcement and its expectation for the Company's debt rating and outlook to improve upon successful completion of the restructuring process.

11 Tax position

In relation to BLY's tax position, we note the following:

- BLY is the head entity in the Australian tax consolidated group comprising the Australian wholly-owned entities. Under the Australian tax consolidation regime, these entities are treated as a single entity for income tax purposes
- BLY's unsettled assessments with the CRA for the years 2010 to 2014 will, if upheld, result in federal and provincial tax liabilities (including interest) approximating a maximum of CAD\$35 million in future cash outlay after the application of tax credits and payments. The outcome and timing of any resolution of the Canadian reassessments are unknown. Interest will continue to accrue on all disputed and unpaid amounts until they are paid, or, alternatively, until the disputes are resolved in the Company's favour
- BLY has also recorded a tax provision related to the CRA's audits of the 2010 through 2017 tax years. The provision reflects the uncertainties regarding the outcome of those audits and assessments have not yet been received for the tax years 2015 through 2017. While the Company believes it is appropriately reserved in respect of the CRA tax disputes, the resolution of those disputes on terms substantially as assessed by the CRA could be material to the Company's financial position or results of operations. Interest will continue to accrue on all disputed and unpaid amounts until they are paid, or otherwise settled, and
- BLY is also under audit by the ATO. The resolution of potential assessments by the ATO may adversely affect BLY's liquidity.

- analysed the price and volume performance of BLY over the period from 1 January 2020 to 14 July 2021
- compared the share price movement to the Australian All Ordinaries and Metals and Mining indices over the same period ended 14 July 2021, and

As illustrated in Figure 6, BLY's closing share price and volume has remained relatively stable across the period with key movements primarily related to the release of financial reporting figures and the outbreak of the COVID-19 pandemic.

Significant announcements by BLY over the period from 1 January 2020 to 14 July 2021 that may have had an impact on its recent share price include:

1. on 6 February 2020, BLY released its full year FY19 results update, highlighting that several significant mergers and acquisitions within the mining industry took place in the second half of 2019, resulting in delayed mineral exploration projects and a lower level of market activity. Further, the Company did not achieve the anticipated reduction to its debt-to-EBITDA ratio for FY19 as previously communicated. The share price closed at \$0.434 on 20 April 2020
4. on 24 June 2020, S&P revised the Company's credit ratings to reflect the completion of the amendment to the Senior Secured Notes due December 2022 which saw the conversion of the June 2020 and December 2020 interest payments from cash to PIK. The figure below illustrates a comparison of the trading performance of BLY's shares relative to the All Ordinaries Index and the Metals and Mining Index over the period 1 January 2020 to 14 July 2021. BLY significantly underperformed the index from the beginning of 2020, especially when the COVID-19 pandemic broke out, as mining activities were disrupted. Over the period to 14 July 2021, the BLY share price depreciated by 76.9%. Over the same period, the All Ordinaries Index and Mining and Metals Index grew by 16.5% and 87.2%, respectively. The BLY share price displayed significantly greater volatility relative to both indices, which is not uncommon given the enhanced diversification of an index when compared to a single company, along with the higher leverage, the small market capitalisation and liquidity of BLY.

13.3 Dividends

No dividends have been issued for the half years ended 31 December 2019 through 31 December 2020.

14 Implications of the Re-domicile Transaction

Subsequent to the Re-domicile Transaction, Shareholders will hold a beneficial interest in the same number of securities as were held prior to the implementation of the Scheme. Set out below is a summary of the likely implications of the Re-domicile Transaction to Shareholders.

14.1 Business operations

Post the implementation of the Re-domicile Transaction, New BLY Parent intends to continue to operate the business of BLY in its ordinary course, without any changes to its business operations and strategy or any major redeployment of its executives and fixed assets.

14.2 Corporate structure

If the Redomicile Transaction is approved, New BLY Parent will be interposed as the ultimate holding company of BLY. The corporate structure pre and post the Redomicile Transaction is set out in Section 6.1 of this report.

14.3 Dividend policy

It is not expected that the Re-domicile Transaction will have a material impact on the dividend policy of the BLY Group. Currently BLY does not pay dividends. Future payment of dividends will depend on the financial position and future capital requirements.

14.4 Corporate governance, Directors and management

As outlined in Section 7 of the Explanatory Memorandum, the Re-domicile Transaction is not intended to result in any significant changes to the corporate governance of the BLY Group.

Currently under the terms of the RSA, BLY has agreed that the initial and subsequent post-Recapitalisation composition of the BLY Board will consist of nine directors and include:

- the Chief Executive Officer
- the CBP Nominee Directors, comprising five directors nominated by CBP, and
- the Ad Hoc Group⁹ Nominee Directors, comprising three directors nominated by the Ad Hoc Group.

If the Re-domiciliation is approved and implemented, the director nomination rights contemplated by the RSA will be documented by an alternative Director Appointment Deed under Canadian law and the rights of Centerbridge and the Ad Hoc Group to appoint directors under Canadian law will differ to those under Australian law. It is not envisaged to impact on the proposed Board structure.

BLY also does not intend to make changes to the management team of the BLY Group as a result of, or immediately following the implementation of the Re-domicile Transaction.

14.5 Shareholder rights and legal implications

If the Redomicile Transaction is approved, Shareholders will no longer hold securities in an Australian domiciled entity as they will exchange these securities for shares of a Canadian domiciled company, New BLY Parent. This will result in the New BLY Parent being subject to Canadian law and in particular that

⁹ Th Ad Hoc group comprises Ascribe, Ares, Corre, FPA and Nut Tree.

of the Ontario Business Corporations Act (the OBCA) replacing the Corporations Act as the applicable legislative framework.

The Shareholder rights of New BLY Parent Shares, although different, will be similar to the rights of the existing BLY Shares in many respects including the ability to receive dividends and to vote. However there are some important differences which we outline below.

Different takeover laws

As an Australian domiciled company, the takeover provisions of the Australian Corporations Act currently safeguard BLY from certain control transactions. As a Canadian domiciled company, an important difference for New BLY Parent would be that defensive tactics are not as limited as in Australia. An example is the adoption of a shareholders' rights plan used as a poison pill which is considered generally to be unacceptable in Australia but not in Canada. Noting that there remains an overriding requirement for the company to act to the benefit of shareholders and that securities regulators closely monitor the use of defence tactics.

Rights attaching to New BLY Shares

We recommend Shareholders read Sections 8.3 and 8.4 of the Explanatory Memorandum which sets out the rights attaching to New BLY Parent Shares and a comparison of Australian and Canadian company rules.

14.6 Taxation implications of the Re-domicile Transaction

If the Scheme becomes effective, it may trigger taxation consequences for Shareholders depending on whether they are residents of Australia or not as the Re-domicile Transaction is likely to be considered a sale of shares for taxation purposes.

Australian Resident Shareholders

As stated above the Re-domicile Transaction will likely be considered a sale of shares for taxation purposes and as such give rise to a capital gains tax (CGT) event where held on capital account. Australian Resident Shareholders who would have a capital gain are likely to have available to them CGT scrip for scrip rollover relief should they choose. Otherwise they will realise a gain or capital loss depending on the capital base of the Shares. Shareholders should in this context also read Section 10 of the Explanatory Memorandum.

Consequences if CGT Script for Scrip Rollover Relief is chosen

If an Australian Resident Shareholder chooses Rollover Relief in light of capital gain, any capital gain arising on the disposal of their Shares in exchange for New BLY Parent CDIs will be disregarded. The cost base of the New BLY Parent CDIs is worked out by attributing to them, on a reasonable basis, the existing cost base of the Shares that they exchanged for the New BLY Parent CDIs. The Acquisition date of the New BLY Parent CDIs is taken to be the date when the Australian Resident Shareholder acquired the Shares that were exchanged for the New BLY Parent CDIs.

Consequences if CGT Script for Scrip Rollover Relief is not chosen or does not apply

If an Australian Resident Shareholder has held their Shares for at least 12 months at the time of disposal, the discount capital gains provision may apply. Australian Resident Shareholders that are an individual or trustee will be taxed on one-half of the capital gain. Australian Resident Shareholders that are a trustee for a complying superannuation entity will be taxed on two-thirds of the capital gain.

*Boart Longyear
Independent Expert Report
24 July 2021*

If an Australian Resident Shareholder makes a capital loss from the disposal of Shares, the loss may be used to offset capital gains derived in the same or subsequent years of income.

Non-Resident Shareholders

Non-Resident Shareholders may be able to disregard any capital gain or loss as a consequence of the Re-domicile Transaction. Non-Resident Shareholders will only make a capital gain or loss on the disposal of 'taxable Australian property'.¹⁰

For further detail regarding the taxation consequences of the Re-domicile Transaction and in relation to the holding and disposal of New BLY Parent Shares, refer to Section 9 of the Explanatory Memorandum.

Shareholders should consult their professional advisers on the tax implications of the Re-domicile Transaction for their particular circumstances.

APPENDIX E: EXPLANATION OF CDI ARRANGEMENTS

1. **What are CDIs?**

As New BLY Parent intends to be listed on ASX, it will need to comply with ASX rules that require all trading settlement to take place on CHESS (ASX's electronic transfer and settlement system). New BLY Parent Shares cannot be directly held under the CHESS system or traded on ASX directly as regulations do not permit CHESS to be used for electronic transferring and holding of legal title to securities in companies incorporated under the Ontario Business Corporations Act (such as New BLY Parent). CDIs have been created to facilitate electronic settlement and transfer of title in Australia for companies in this situation. CDIs are units of beneficial ownership in foreign securities, where legal title to the securities is held by an Australian depository entity for the purpose of enabling transactions in the securities of foreign companies on ASX. New BLY Parent intends to appoint the Authorised Nominee, an approved general participant of ASX Settlement and a wholly-owned subsidiary of ASX, as the Australian depository entity to hold legal title to New BLY Parent Shares for the benefit of New BLY Parent CDI Holders. The Authorised Nominee will be the registered holder of those New BLY Parent Shares held for the benefit of New BLY Parent CDI Holders.

If New BLY Parents listing application is approved by ASX, New BLY Parent CDIs will be traded on ASX using CHESS (ASX's electronic transfer and settlement system), but New BLY Parent Shares- although quoted- cannot be traded on ASX.

Each New BLY Parent CDI Holder will be deemed to acknowledge and agree for the benefit of New BLY Parent that they are bound by the Articles and By-Laws in respect of any New BLY Parent CDIs issued to them. See Section 8 for a summary of the Articles and By-Laws.

2. **Ratio of New BLY Parent CDIs to New BLY Parent Shares**

Each New BLY Parent CDI will represent one underlying New BLY Parent Share.

3. **Holding Statements for New BLY Parent CDI Holders**

If a New BLY Parent CDI Holder is sponsored by a participant in CHESS, the holder can hold their New BLY Parent CDIs on the CHESS sub-register. Otherwise, New BLY Parent CDIs will be held on the issuer-sponsored sub-register.

Each New BLY Parent CDI Holder will receive a holding statement shortly following implementation of the Re-domiciliation with the reference number of their holding.

4. **What rights do I have as a New BLY Parent CDI Holder?**

Section 8.3 contains a summary of the principal rights attaching to New BLY Parent Shares.

As noted above, New BLY Parent CDI Holders will not have legal title in the underlying New BLY Parent Shares to which the New BLY Parent CDIs relate, as legal title to the New BLY Parent Shares will be held by the Authorised Nominee. New BLY Parent CDI Holders will, however, have beneficial ownership of the underlying New BLY Parent Shares.

The following provides an overview of the differences between holding New BLY Parent CDIs as opposed to New BLY Parent Shares, including the rights and entitlements of New BLY Parent CDI Holders.

(a) Dividends and Distributions

Under the ASX Settlement Operating Rules, New BLY Parent is generally required to treat New BLY Parent CDI Holders, in respect of the distribution of dividends and

other entitlements, as if they were the holders of the underlying New BLY Parent Shares.

Importantly, New BLY Parent CDI Holders are entitled to receive all the direct economic benefits and entitlements in relation to the New BLY Parent Shares held by the Authorised Nominee.

If a cash dividend or any other cash distribution is declared in a currency other than Australian dollars, New BLY Parent currently intends to convert that dividend or other cash distribution to which New BLY Parent CDI Holders are entitled to Australian dollars and distribute it to the relevant New BLY Parent CDI Holders in accordance with the New BLY Parent CDI Holder's entitlement.

Due to the need to convert dividends from Canadian dollars to Australian dollars in the above mentioned circumstances, New BLY Parent CDI Holders may potentially be advantaged or disadvantaged by exchange rate fluctuations, depending on whether the Australian dollar weakens or strengthens against the Canadian dollar during the period between the resolution to pay a dividend and conversion in Australian dollars.

(b) Corporate Actions

New BLY Parent is generally required to treat New BLY Parent CDI Holders, in respect of corporate actions, as if they were the holders of the underlying New BLY Parent Shares.

(c) Takeovers

If a takeover bid is made in respect of any New BLY Parent Shares of which the Authorised Nominee is the registered holder, the Authorised Nominee is prohibited from accepting the offer made under the takeover bid except to the extent that acceptance is authorised by the relevant New BLY Parent CDI Holders in respect of the New BLY Parent Shares represented by such holding of New BLY Parent CDIs, in accordance with the ASX Settlement Operating Rules.

The Authorised Nominee must accept a takeover offer in respect of New BLY Parent Shares represented by such holding of New BLY Parent CDIs if a New BLY Parent CDI Holder instructs it to do so and must notify the entity making the takeover bid of the acceptance.

(d) Rights on liquidation and winding up

In the event of New BLY Parent's liquidation, dissolution or winding up, a New BLY Parent CDI Holder will be entitled to the same economic benefit in relation to their New BLY Parent CDIs (through the Authorised Nominee) as holders of New BLY Parent Shares.

(e) Other rights

As New BLY Parent Shareholders will not be registered on the New BLY Parent Share Register as the legal owners of New BLY Parent Shares, any other right conferred on New BLY Parent CDI Holders may be exercised by means of them instructing the Authorised Nominee.

(f) Communications

New BLY Parent CDI Holders will receive all notices and company announcements (such as annual reports) that New BLY Parent Shareholders are entitled to receive from New BLY Parent.

(g) Voting

As noted in paragraph (f), New BLY Parent CDI Holders will be entitled to receive notice of any meeting of New BLY Shareholders.

In accordance with Canadian law and the ASX Settlement Operating Rules, a New BLY Parent CDI Holder will not be entitled to attend or vote personally as a New BLY Parent Shareholder at a meeting of New BLY Parent. Instead, in order to vote at a meeting of New BLY Parent, a New BLY Parent CDI Holder may instruct the Authorised Nominee, as legal owner of the New BLY Parent Shares, to:

- vote New BLY Parent Shares represented by their New BLY Parent CDIs in a particular manner. The instruction form must be completed and returned to the Registry prior to the record date fixed for the relevant meeting (**CDI Voting Instruction Receipt Time**), which is notified to New BLY Parent CDI Holder in the voting instructions included in a notice of meeting; or
- appoint the New BLY Parent CDI Holder or a third party nominated for that purpose by the New BLY Parent CDI Holder as the Authorised Nominee's proxy so that the proxy so appointed may attend meetings and exercise the votes attached to New BLY Parent Shares represented by their New BLY Parent CDIs. The instruction form must be completed and returned to the Registry prior to the CDI Voting Instructions Receipt Time.

Alternatively, a New BLY Parent CDI Holder can convert their New BLY Parent CDIs into a holding of New BLY Parent Shares and vote those New BLY Parent Shares at a meeting of New BLY Parent. Such conversion must be undertaken prior to the record date fixed by the New BLY Parent Board for determining the entitlement of members to attend and vote at the meeting. However, if the New BLY Parent Shareholder later wishes to sell their investment on ASX, it would be first necessary to convert those New BLY Parent Shares back to New BLY Parent CDIs. Further details on the conversion process are set out in Section 6 below.

5. Trading of New BLY Parent CDIs

New BLY Parent CDI Holders who wish to trade New BLY Parent CDIs will be transferring beneficial title to New BLY Parent Shares rather than legal title. The transfer will be settled electronically by delivery of the relevant New BLY Parent CDI holding through CHESSE. Trading in New BLY Parent CDIs is not substantially different to trading in other CHESSE approved securities (such as Shares).

On 30 September 2021, subject to the Re-domiciliation Scheme becoming Effective, New BLY Parent CDIs will commence trading initially on a deferred settlement basis and, after the Re-domiciliation Scheme Implementation Date, will commence trading on a normal settlement basis on 6 October 2021.

It is the responsibility of each Shareholder (who is not an Ineligible Foreign Shareholder) to determine their entitlement to New BLY Parent CDIs before trading in those securities to avoid the risk of selling New BLY Parent CDIs they do not or will not own. Any sale of New BLY Parent CDIs prior to receipt of confirmation of entitlement is done at the seller's own risk.

There is no certainty as to the price of New BLY Parent CDIs after the Re-domiciliation is implemented.

6. **Conversion of New BLY Parent CDIs into New BLY Parent Shares**

(a) **Converting New BLY Parent CDIs to New BLY Parent Shares**

If New BLY Parent CDI Holders wish to convert their New BLY Parent CDIs into New BLY Parent Shares they may do so by instructing the Registry:

- directly, in the case of New BLY Parent CDIs on the issuer sponsored sub-register operated by New BLY Parent; or
- indirectly, through their controlling participant (usually a broker) in the case of CDIs which are sponsored on the CHESS sub-register.

New BLY Parent will then arrange for the transfer of New BLY Parent Shares from the Authorised Nominee to the former New BLY Parent CDI holder and cause New BLY Parent Shares to be registered in the name of the holder on the Register, and trading on ASX will no longer be possible.

It is expected that this process will be completed in a relatively short time period, however, no guarantee can be given about the time for this conversion to take place.

(b) **Converting New BLY Parent Shares to New BLY Parent CDIs**

If New BLY Parent Shareholders wish to convert their New BLY Parent Shares into New BLY Parent CDIs, they may do so by contacting the Registry. In this instance, underlying New BLY Parent Shares will be transferred to the Authorised Nominee and a holding statement for the New BLY Parent CDIs will be issued to the relevant security holder. No trading in the New BLY Parent CDIs should take place on ASX until this transfer process is complete.

The total amount of votes that you are entitled to vote for will be listed under each resolution. When you enter the number of votes it will automatically tally how many votes you have left.

Note: If you are submitting a partial vote and do not use all of your entitled votes, the un-voted portion will be submitted as No Instruction and therefore will not be counted.

Once you have finished voting on the resolutions scroll down to the bottom of the box and click on the **'Submit Vote'** or **'Submit Partial Vote'** button.

Note: You can close your voting card without submitting your vote at any time while voting remains open. Any votes you have already made will be saved for the next time you open up the voting card. The voting card will appear on the bottom left corner of the webpage. The message **'Not yet submitted'** will appear at the bottom of the page.

You can edit your voting card at any point while voting is open by clicking on **'Edit Card'**. This will reopen the voting card with any previous votes made.

At the conclusion of the Meeting a red bar with a countdown timer will appear at the top of the Webcast and Slide windows advising the remaining voting time. Please make any changes and submit your voting cards.

Once voting has been closed all submitted voting cards cannot be changed.
