Annual General Meeting
June 2017 – Melbourne

LR500 Drill Rig – Nevada, USA
Important Notice and Disclaimer

• This presentation has been prepared by Boart Longyear Limited, ABN 49 123 052 728 (Boart Longyear or the Company). It contains general information about the Company’s activities as at the date of the presentation. It is information given in summary form and does not purport to be complete. The distribution of this presentation in jurisdictions outside Australia may be restricted by law, and you should observe any such restrictions. This presentation should be read in conjunction with the Notice of Meeting.

• This presentation is not, and nothing in it should be construed as, an offer, invitation or recommendation in respect of securities, or an offer, invitation or recommendation to sell, or a solicitation of an offer to buy, securities in any jurisdiction. Neither this presentation nor anything in it shall form the basis of any contract or commitment. This presentation is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any investor. All investors should consider such factors in consultation with a professional advisor of their choosing when deciding if an investment is appropriate.

• The Company has prepared this presentation based on information available to it, including information derived from public sources that have not been independently verified. No representation or warranty, express or implied, is provided in relation to the fairness, accuracy, correctness, completeness or reliability of the information, opinions or conclusions expressed herein.

• This presentation includes forward-looking statements within the meaning of securities laws. Any forward-looking statements involve known and unknown risks and uncertainties, many of which are outside the control of the Company and its representatives. Forward-looking statements may also be based on estimates and assumptions with respect to future business decisions, which are subject to change. Any statements, assumptions, opinions or conclusions as to future matters may prove to be incorrect, and actual results, performance or achievement may vary materially from any projections and forward-looking statements.

• Due care and attention should be undertaken when considering and analysing the financial performance of the Company.

• All references to dollars are to United States currency unless otherwise stated.
Chairman’s Address
Marcus Randolph
Boart Longyear is the leading provider of drilling services, drilling equipment, and performance tooling for mining and drilling companies globally.
Global Drilling Services
Active Across all Mining Stages

### Key Innovations

<table>
<thead>
<tr>
<th>Drilling Tools</th>
<th>Drilling Equipment</th>
<th>Data Services</th>
</tr>
</thead>
</table>
| • **NEW Longyear™ Diamond Bits** (to be released in 2017)  
  - Easier to use / higher penetration rates / longer life  
| • **NEW XQ™ Drill Rods** (to be released in 2017)  
  - Easier to use / longer life / more depth capacity  
| • **Roller Latch™**  
  - Increased safety / higher productivity  
| • **LF160™ Surface Coring Rig with Freedom™ Loader**  
  - Deep coring rig / completely hands-free rod handling  
| • **LS250 MiniSonic™ Rig**  
  - More efficient / better samples / smaller footprint  
| • **DCi™ Control System**  
  - Unattended drilling / increased productivity  
| • **TruCore™**  
  - Easier to use / accurate core orientation  
| • **TruShot™**  
  - Easier to use / accurate survey data  
| • **TruScan™**  
  - Same-day assay data / on-site by drill crew  

The next phase of innovation in drilling technology is being developed and will focus on revolutionary changes in drilling rates.
FY 2016 Summary
(Results compared to FY 2015, except as otherwise indicated)

➤ Safety
  o Lost time incident rate (LTIR) at 0.11 – 39% improvement over FY 2015
  o Moderate increase in total case incident rate (TCIR) to 1.41
  o No fatalities; 6 lost time incidents

➤ Adjusted EBITDA
  o Up $32M despite a $93M (13%) drop in revenue
  o Adjusted COGS down $105M (16%); adjusted SG&A down $10M (8%)

➤ Cash from Operating Activities
  o Used $5M less cash despite revenue decline ($50M used in FY 2016 vs. $55M used in FY 2015)

➤ Productivity
  o 12% improvement in drill meters per shift
  o 9% improvement in meters per hour
  o Reduction in non-billable time

➤ Business Environment
  o Gold ($1266 per ounce as of 26 May 2017) up 18% from 1 Jan 2016 – 57% of Drilling Services revenue
  o Copper ($2.56 per pound as of 26 May 2017) up 22% from 1 Jan 2016 – 17% of Drilling Services revenue
  o Equity raisings by junior miners at strongest levels since 2012
Drilling Services Productivity Initiative Update

- Tracking key metrics daily
- Results reported and highly visible throughout company
- Coaching and performance management for underperformers

| Today    | Data acquisition done by third parties at our rigs | - Assay done off-site  
           |                                    | - Slow, costly and not user-friendly for our customers |
| Future   | Core orientation, core logging, survey and assay all done by our crews at the rig | - Direct data feed into customer databases  
           |                                    | - Instantaneous, low-cost and user-friendly |

### TruCore™ (Core Orientation)
- Successfully launched in 2015

### TruShot™ (Down-hole Survey)
- Expected to roll out in Q4 2017

### TruScan™ (On-site Assay)
- Field testing underway

### TruProbe™ (Down-hole Geophysics)
- Prototype testing underway
CEO's Address
Jeff Olsen
Safety & Environment
Our goal is to add value with zero harm

- **Safety Performance**
  - Improvement in lost time incident rate
  - Moderate increase in total case incident rate
  - No fatalities; 6 lost time incidents during the year

- **Proactive Safety Culture**
  - Focused field leadership interactions with field employees and other initiatives covering significant areas of risk

- **Continual Improvement**
  - Focus on significant incident root cause analysis and corrective actions, supported by operations-centric incident reviews

**Improvement in lost time safety performance in FY 2016 and no fatalities**
Productivity & cost controls are improving results

Significant improvement in EBITDA and cash despite revenue decline

* *A number of drill rigs have been sold, scrapped or decommissioned since Q1 2016.*

- Q1 2017 revenue up 15%
- Revenue increase primarily driven by increased volumes
- Excellent flow-through on margins – EBITDA up 64%
- Cash used in operations improved by $11M or 21%
- Improvements in profitability and cash driven by strict cost control and productivity initiatives

Equity Raisings by Junior Miners (Q3 2012 - Q1 2017)

Note: “Juniors” defined as mining companies with a market cap of less than $500M
We remain committed to our Strategic Priorities

- **Safety**
  - Continue to be an industry leader

- **Operations**
  - Continue to improve on the productivity gains we have made in the last year

- **Technology**
  - Focused on acquiring data from our drill holes and delivering to customers in a faster, lower-cost and user-friendly format

- **Cash / Debt**
  - Continued improvements in our operating performance combined with better volumes from an improving market to achieve our goal of being cash positive in 2017 (net of restructuring costs)
  - Improve capital structure in a way that balances the interests of all stakeholders
Recapitalisation Update
Marcus Randolph
Capital Structure Review

- Proposed recapitalisation is the outcome of a capital structure review that commenced in August 2016
- Primary objectives were to:
  - Reduce Debt
  - Improve Liquidity
  - Extend Debt Maturities
- Independent Non-Executive Directors led process with significant involvement by the full Board
- Independent Directors are all substantial shareholders – interests are aligned with non-associated shareholders

The Independent Directors believe the recapitalisation is the best available and only executable option to maximise long term value to BLY and its stakeholders
Recapitalisation Summary

- **Recapitalisation Summary**
  - BLY has reached an agreement with its key debt holders that will achieve the following:
    - **Reduce Debt**
      - $196M (in principal) of existing 7% unsecured notes will be converted to equity (and warrants issued)
      - Remaining $88M (in principal) of unsecured notes will be reinstated with interest rate of 1.5% payable-in-kind
    - **Improve Liquidity**
      - New $75M fully backstopped Asset Backed Loan provides BLY with $35M of additional debt capacity
      - Until December 2018, interest on all debt facilities (excluding ABL) may be paid-in-kind rather than in cash. Thereafter, interest on the 10% secured notes will be paid in cash.
      - Paid-in-kind interest on Term Loans A and B will be reduced from 12% to 10% through 2018 and to 8% thereafter
    - **Extend Debt Maturities**
      - Maturities on existing debt (Term Loans, 10% notes & 7% notes) will be extended to Dec 2022
  - Key features for shareholders include:
    - Share purchase plan offers eligible shareholders the opportunity to purchase up to A$5,000 worth of shares at a price of A$.02 per share (up to max of A$9M)
    - Shareholders (other than Centerbridge) will have the opportunity to purchase ordinary warrants
    - BLY will take steps to re-domicile unless BLY and its supporting creditors determine that it is not in the best interest of the Company

If the recapitalisation is not implemented, there is a significant and present risk that Boart Longyear would be placed in external administration
Independent Expert’s Report

Key factors supporting the Independent Expert’s conclusion that the recapitalisation is fair and reasonable:

- Represents the “most superior option” currently available to non-associated shareholders
- Provides Boart Longyear with an improved liquidity position
- Exchanges the current debt maturity profile for a longer dated maturity profile combined with a harmonisation of covenants
- Concludes the capital structure review providing certainty to non-associated shareholders

The Independent Expert has concluded that the recapitalisation is **fair** and **reasonable** to non-associated shareholders
## Benefits of the Recapitalisation to BLY

Boart Longyear gains additional liquidity, maturity extensions & deleveraging

### Additional Liquidity (US $M)

- **$163**
  - **$89**
    - Cash Interest Saved on 7% Notes (4.5 Years)
  - **$39**
    - Cash Interest Saved on 10% Notes (2 Years)
  - **$35**
    - Additional ABL Capacity

### Maturity Extensions (US $M)

- **$666**
  - **$195**
    - FY 2018
  - **$195**
    - FY 2019
  - **$195**
    - FY 2020
  - **$195**
    - FY 2021
  - **$195**
    - FY 2022

- **$745**
  - 7% Unsecured Notes
  - 10% Secured Notes
  - Term Loan A
  - Term Loan B

### Deleveraging (US $M)

</table>
Our underlying business is solid and our data services business opens up exciting new opportunities for us – but debt relief is essential.

The recapitalisation provides $163 million of additional liquidity, reduces debt by $201 million (about 27%) and extends maturities until 2022.

Because of this, the percentage of shares held by parties other than Centerbridge, Ares, Ascribe and other current unsecured bondholders will decrease from about 35% to 2%.

Directors, who are also significant shareholders, unanimously support the recapitalisation.

There are no other offers and without the recapitalisation, insolvency is likely.
