Annual General Meeting
May 2018 – Melbourne

LR™ 350e Drill Rig and FL262 Freedom™ Loader
This presentation has been prepared by Boart Longyear Limited, ABN 49 123 052 728 (Boart Longyear or the Company). It contains general information about the Company’s activities as at the date of the presentation. It is information given in summary form and does not purport to be complete. The distribution of this presentation in jurisdictions outside Australia may be restricted by law, and you should observe any such restrictions. This presentation should be read in conjunction with the Notice of Meeting.

This presentation is not, and nothing in it should be construed as, an offer, invitation or recommendation in respect of securities, or an offer, invitation or recommendation to sell, or a solicitation of an offer to buy, securities in any jurisdiction. Neither this presentation nor anything in it shall form the basis of any contract or commitment. This presentation is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any investor. All investors should consider such factors in consultation with a professional advisor of their choosing when deciding if an investment is appropriate.

The Company has prepared this presentation based on information available to it, including information derived from public sources that have not been independently verified. No representation or warranty, express or implied, is provided in relation to the fairness, accuracy, correctness, completeness or reliability of the information, opinions or conclusions expressed herein.

This presentation includes forward-looking statements within the meaning of securities laws. Any forward-looking statements involve known and unknown risks and uncertainties, many of which are outside the control of the Company and its representatives. Forward-looking statements may also be based on estimates and assumptions with respect to future business decisions, which are subject to change. Any statements, assumptions, opinions or conclusions as to future matters may prove to be incorrect, and actual results, performance or achievement may vary materially from any projections and forward-looking statements.

Due care and attention should be undertaken when considering and analysing the financial performance of the Company.

All references to dollars are to United States currency unless otherwise stated.
Chairman’s Address
Marcus Randolph
World’s leading provider…

of drilling services, equipment and tooling

- Tough, deep drill holes under difficult circumstances
- Innovative drilling products and data management
- Safe, reliable, cost-efficient performance

BOART LONGYEAR™
## Global Drilling Services
- Active Across all Mining Stages

50% of Drilling Services revenue comes from Gold
Advancing Drilling Equipment
- Continuing to deliver a safer and more productive drill rig

- **LF™160 Rig and FREEDOM™ Loader**
  (Surface Coring)
  - 100% hands-free for safe and reliable rod management
  - Tilting head and hydraulic clamping simplify handling for improved productivity

- **MDR700 Mobile Drill Rig**
  (Underground Coring)
  - Only mobile underground rig on market offering rod handling
  - Unique maneuvering ability for faster and easier setup between holes

- **LF™350e Rig and FREEDOM™ Loader**
  (Surface Coring and Deep Hole exploration)
  - Powerful, cutting-edge technology optimized for deep hole exploration
  - Added safety, control, and rod handling features maximize heavy-duty performance

- **MDR700 Mobile Drill Rig**
  (Underground Coring)
  - Only mobile underground rig on market offering rod handling
  - Unique maneuvering ability for faster and easier setup between holes

- **LF™350e Rig and FREEDOM™ Loader**
  (Surface Coring and Deep Hole exploration)
  - Powerful, cutting-edge technology optimized for deep hole exploration
  - Added safety, control, and rod handling features maximize heavy-duty performance
Leading innovation in the industry
- Continued focus on R&D through the cycle

- Patented new diamond bonding technology
- Case study shows 23% increase in meters drilled/hour

- New patented thread design
- Increased strength and load capacity
- Designed for deep hole and rod handling applications

- Proprietary onsite assay technology
- Done by our drill crews
- Real time results
- Now in use

- Launching in 2018
- Done by our drill crews
- Built in quality checks to save time and money

Longyear™ Bits
(Diamond Coring)

XQ™ Rods
(Deep-hole Drilling)

TruScan™
(On-site Assay)

TruShot™
(Down-hole Survey)
FY 2017 Highlights
- Improvement in operating performance and market outlook

**Continued Industry-leading Safety Performance**
- LTIR – 0.22 (2016 – 0.11) \(^1\)
- TCIR – 1.62 (2016 - 1.41) \(^1\)
- **FOCUS**: Clear, simple systems and processes

**Delivered productivity improvements across the organisation**
- 7% improvement in rig utilization and number of operating rigs
- Doubled rod plant throughput to meet increased demand
- Exited 19 countries with unsatisfactory profitability (continued operations in 22 countries)
- **FOCUS**: Industry leader in “keeping the bits turning”

**Improved key financial metrics**
- Revenue up 15% to $739M
- Gross Margin up 29% to $111M and Adj EBITDA up 35%
- Recapitalization reduced cash interest and extended US$532M debt maturity until 2022.
- **FOCUS**: Improve EBITDA, reduce debt

**Introduced innovative technologies**
- Advanced data services; TruCore™, TruShot™ and TruScan™
- Increasing levels of automation in drills to improve safety and productivity
- **FOCUS**: 1. Faster, safer, easier-to-use drilling products
  2. Instantaneous drill results, delivered by our drill crews
Safety & Environment
- Leading safety performance focused on continuous improvement

Our goal is to add value with zero harm – leading our industry with our employees returning home safely each day and performing our work with minimal impact to our neighbors or the environment.

Safety Performance
- Lost time incidents - 11
- Total case incident rate - Moderate increase

Continuous Improvement
- The following key initiatives were designed to address performance issues, based on root cause analysis:
  - Standards simplification project - designed to drive improved accountability
  - GEMS Mobile App upgrade and Inspection Data Recording – to deliver real time information
  - Soft-Start Initiative – Implemented to address potential beginning of year safety concerns
    - Drill Crews take 15 minutes every 2 hours to reassess potential hazards.
    - Resulted in a 40% decrease in reported incidents from January 2017.
Revenue increased $97M (15%), driven by volume increases across both Drilling Services and Products

Consecutive half on half increases in revenue since H12016

Continued increase in bidding activity & product backlogs

Adjusted EBITDA up $11M (34%) driven by:
- Flow through from increased volumes
- Successful productivity improvements
- Further SG&A reductions

Adjusted NPAT improved by $50M

Statutory NPAT improved by $7M, impacted by one-off restructure costs
Completed Recapitalisation
- Met objectives to reduce debt, improve liquidity and extend maturity

**Reduced Debt**

- **(US $M)**
  - Debt Dec 2016: 735
  - ABL & Backstop ABL: 44
  - Accrued Interest & Issuance Cost: 59
  - Capitalised Debt: (196)
  - Debt Dec 2017: 643

- **Key Points**
  - Significant reduction in debt and future PIK rates
    - Converted $196M into Equity,
    - Further $88M reduced to 1.5% PIK
    - Reduced Term Loan PIK rate to 8% (from 2019 onwards)
  - Expanded size of ABL facilities

**Extended Debt Maturities**

- **Key Points**
  - Extended maturity of outstanding notes to December 2022
  - ABL facilities extended to 2020

**Improved Liquidity Position**

- **Key Points**
  - Improved liquidity position
    - No cash interest payments due in 2018
    - Removed all future cash interest on unsecured notes
    - Expanded ABL facility
  - Working capital build in H2 2017 driven by growth in business
First Quarter 2018
- Market improvement continues & well placed to capture our share

(US $M)

## Total Company

</tbody>
</table>

### Revenue - Up 18% from Q1 2017 with stronger rig and exploration tooling sales

### Average Backlog – Increased by 45% on stronger exploration activity
Stronger Leading Indicators
- Significant improvement in key customer metrics and outlook

- Mining industry debt ratings are improving
- Improved industry balance sheets will result in increased drilling activity for reserve / resource replenishment

- Improvement of 99% in MSCI index since Q1 2016
- Suggests increasing investor interest in mining sector

- Junior equity raisings trending upwards
- Greater availability of funds for exploration activity
FY 2018 Strategic Objectives
- Build on the operational improvements delivered in 2017

**Safety**

*Continue to be an industry leader*
- Simplify safety systems and standards
- Implement soft start hazard risk program
- Expand onboarding program to include detailed technical training

**Operations**

*Remain focused on maintaining and growing customer relationships*
- Build on operational efficiency improvements made in 2017
- Focus on improved commercial systems, processes and strategy
- Build fleet readiness

**Technology**

*Customer is at the core of the company’s strategic priorities*
- Reduce costs and improve efficiencies with our drilling and products customers through new technologies and products
  - Launch additional digital technologies in 2018 including TruScan, our proprietary on-site XRF assaying technology
  - Launch new patented Longyear Bits
  - Launch patented XQ deep hole rods

**Financial**

*Create value through improved EBITDA*
- Improve performance through focus on costs, efficiencies and market growth opportunities
- Manage improved liquidity post restructuring, preparing for new opportunities
- Focus on managing working capital
Chairman’s Conclusions
Marcus Randolph
Outlook for 2018 and Beyond

- Forecast for global growth is >3%
- Resource stock prices up 65% and junior equity raisings up 49% over the last 2 years.
- Demand for our drilling products and services increased in 2017 for the first time since 2011.
- Our revenue growth has benefitted from increased demand but not increased price
- In certain types of drilling and some markets, drilling services providers are already at full capacity
- Expect to see benefits of both increased demand and increased price in 2018
Questions?
**Footnote Disclosures**

- **Footnote 1:** Per 200,000 work hours.

- **Footnote 2:** Loss from Trading Activities, Adjusted Gross Margin, Adjusted Operating Loss, Adjusted SG&A, Adjusted EBITDA and Adjusted NPAT Loss are non-IFRS measures and are used internally by management to assess the underlying performance of the business and have been derived from the Company’s financial results by adding back significant items (i.e., charges relating to recapitalisation, impairments, restructuring, and employee and related costs). In the case of Pro Forma Adjusted EBITDA, additional adjustments are made to account for one-time items. In the case of Adjusted NPAT, additional adjustments are made to account for the tax effect of significant items and other tax write-offs and, in the case of Loss from Trading Activities, adjustments are made to Adjusted Operating Loss to remove other expense/income.

- **Footnote 3:** Operating rigs defined as the number of weekly operating rigs generating revenue. Utilisation figures based on operating rigs divided by rigs held in the fleet.

- **Footnote 4:** Transactions between segments are carried out at arm’s length and are eliminated on consolidation.

- **Footnote 5:** Source: S&P Global Market Intelligence

- **Footnote 6:** Number of drill rigs have been sold, scrapped or decommissioned since Q1 2017. Q1 2017 release overstated operating rigs at 300 being average operating rigs in the month of March 2017 and not representing the full quarter average.
