Annual General Meeting
May 2016 – Adelaide

TruCore™ Core Orientation Tool
Importantly Notice and Disclaimer

- This presentation has been prepared by Boart Longyear Limited, ABN 49 123 052 728 (Boart Longyear or the Company). It contains general information about the Company’s activities as at the date of the presentation. It is information given in summary form and does not purport to be complete. The distribution of this presentation in jurisdictions outside Australia may be restricted by law, and you should observe any such restrictions.

- This presentation is not, and nothing in it should be construed as, an offer, invitation or recommendation in respect of securities, or an offer, invitation or recommendation to sell, or a solicitation of an offer to buy, securities in any jurisdiction. Neither this document nor anything in it shall form the basis of any contract or commitment. This presentation is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any investor. All investors should consider such factors in consultation with a professional advisor of their choosing when deciding if an investment is appropriate.

- The Company has prepared this presentation based on information available to it, including information derived from public sources that have not been independently verified. No representation or warranty, express or implied, is provided in relation to the fairness, accuracy, correctness, completeness or reliability of the information, opinions or conclusions expressed herein.

- This presentation includes forward-looking statements within the meaning of securities laws. Any forward-looking statements involve known and unknown risks and uncertainties, many of which are outside the control of the Company and its representatives. Forward-looking statements may also be based on estimates and assumptions with respect to future business decisions, which are subject to change. Any statements, assumptions, opinions or conclusions as to future matters may prove to be incorrect, and actual results, performance or achievement may vary materially from any projections and forward-looking statements.

- Due care and attention should be undertaken when considering and analysing the financial performance of the Company.

- All references to dollars are to United States currency unless otherwise stated.
Boart Longyear is the leading provider of drilling services, drilling equipment, and performance tooling for mining and drilling companies globally.

Customers rely on our unique ability to develop, field test, and deliver any combination of drilling consumables, capital equipment, and expertise to every corner of the world.
Global Drilling Services  
Active across all mining stages

Global Presence
Serving our customers in major mining markets

2015 Total Revenue by Region
- USA 27%
- Canada 19%
- APAC 22%
- EMEA 16%
- LAM 16%

2015 Drilling Revenue by Commodity
- Gold 47%
- Copper 21%
- Energy 8%
- Other Metals 5%
- Nickel 5%
- Water 5%
- Other 7%
FY 2015 Summary

- **Safety**
  - Total case rate moderately better – 8% improvement year-over-year
  - Increase in lost time rate – 0.18 vs. 0.11 in 2014
  - No fatalities

- **Revenues**
  - Down $131M (15%)
  - FX the key driver – $74M of the decrease
  - Price down $30M; volume down $27M

- **Costs**
  - Markedly improved
  - COGS down $124M (16%)
  - Significant SG&A reductions in 2H 2015; $25M reduction in run rate compared to 1H 2015

- **Cash from Operations**
  - $85M used in 1H and $30M generated in 2H
  - Improvement driven by cost control and productivity measures implemented in 2H plus seasonality

- **Productivity**
  - Big push started September 1st
  - Significant improvement in drill meters per shift in first 5 months

- **Business Environment**
  - All major minerals down in 2015
  - Gold up 20% YTD
  - Gold represented ~47% of Drilling Services revenue in 2015
Every drill crew gets instantaneous feedback on shift results (compared to other drillers & target)

New incentive program with substantial bonuses for high performers

Following metrics reported in detail:
  - Drill meters per shift
  - Time to first and last meter drilled
  - Revenue per shift
  - Drilling time and non-billable time
Significant improvement in productivity in first 8 months

Good data in a timely manner with meaningful incentives works!
Expect trend to continue
Experienced Board of Directors

Board of Directors

Marcus Randolph (Executive Chairman)
- Appointed February 2015
- Most recently chief executive of BHP Billiton’s Ferrous and Coal business
- 35 years of mining experience

Bret Clayton
- Appointed February 2015
- Most recently group executive and member of Rio Tinto’s executive committee
- 20 years of mining experience

Rex McLennan
- Appointed February 2014
- Former executive roles in finance and general management
- 15 years of mining experience

Deborah O’Toole
- Appointed October 2014
- Partner at Centerbridge Partners

Jonathan Lewinsohn
- Appointed November 2015
- Most recently CFO and EVP of Aurizon Holdings
- 20 years of mining experience

Jeffrey Olsen (President & CEO)
- Appointed November 2015
- Prior chief commercial officer for Rio Tinto’s Iron & Titanium business & CFO of Rio Tinto’s Borax & Minerals division
- 20 years of mining experience

Gretchen McClain
- Appointed November 2015
- Founder & CEO of S&P 500 global water technology company
- Former NASA director of international space station

Peter Day
- Appointed August 2013
- Former financial executive
- 30 years of resource experience

Jeffrey Long
- Appointed August 2013
- Current CEO of Penhall Company
- Former senior managing director at Centerbridge Partners

Rex McLennan
- Appointed April 2014
- Prior chief commercial officer for Rio Tinto’s Iron & Titanium business & CFO of Rio Tinto’s Borax & Minerals division
- 20 years of mining experience
Safety & Environment

Our goal is to add value with zero harm – leading our industry with our employees returning home safely each day and performing our work with minimal impact to our neighbors or the environment.

- **Total Case Incident Rate**
  - FY 2007: 3.26
  - FY 2008: 2.15
  - FY 2009: 1.78
  - FY 2010: 2.23
  - FY 2011: 2.33
  - FY 2012: 1.56
  - FY 2013: 1.62
  - FY 2014: 1.35
  - FY 2015: 1.24

- **Lost Time Incident Rate**
  - FY 2007: 0.34
  - FY 2008: 0.14
  - FY 2009: 0.08
  - FY 2010: 0.12
  - FY 2011: 0.13
  - FY 2012: 0.10
  - FY 2013: 0.19
  - FY 2014: 0.11
  - FY 2015: 0.18

- **Safety Performance**
  - Significant improvement in overall recordable injury cases
  - Moderate increase in lost time injuries
  - No fatalities

- **Proactive Safety Culture**
  - Focused field leadership interactions with field employees covering significant areas of risk
  - Continuation of drilling supervisor “Boots on the Ground” training program throughout LAM and EMEA regions

- **Continual Improvement**
  - Focus on significant incident root cause analysis and corrective actions, supported by operations-centric incident reviews

**Improvement in total case safety performance in 2015 and no fatalities**
Productivity & cost control efforts have moved the dial

2H 2015 cash from ops $115M higher than 1H 2015

2H 2015 cash from ops $27M higher than 2H 2014

Cash from operations improved in 2H 2015 despite lower revenue driven by business improvement initiatives and seasonality.
Continuing to manage our cost structure

Reduced expenditure profile by over ~$1.3 billion since 2012

Q4 2015 cost actions will further reduce our cost profile in 2016

Over $800M of expenditure reductions in FY 2013
Over $325M of expenditure reductions in FY 2014
Over $125M of expenditure reductions in FY 2015

(US $M)
FY 2015 was a difficult year for the industry and the Company due to lower commodity prices.

Demand stable for underground and production drilling and products.

Revenue down $131M, driven by unfavorable currency translation as well as lower price and volume.

Adjusted EBITDA down $31M, driven by lower price and volume in the Drilling Services division.

Impacts of price and volume were partially offset by improvements in productivity and lower SG&A.

Statutory loss of 36.0 cents compared to a loss of 70.8 cents in FY 2014.

No dividend to be paid.

- Q1 2016 revenue down 24% compared to Q1 2015
- Revenue decline primarily driven by lower volume & unfavourable currency movements
- Despite decline in revenue, EBITDA (statutory & adjusted) was up (13% & 34% respectively)
- Cash used in operations improved by $25M or 33% (improvement was $6M net of recapitalisation fees in Q1 2015)
- Improvements in profitability and cash were driven by strict cost control and productivity initiatives

Note: Q1 2015 SG&A, after adjusting for the cost shift outlined in the Company’s 2015 annual report, would have been $34 million
Long-term commodity trends are negative but recent trends are improving.

Difficult market conditions persist

Key Risks Inherent to Our Business:

- **Market** – The Company’s results, financial condition, and ability to achieve shareholder returns are directly linked to underlying market demand for drilling services and drilling products.

- **Operational** – We have implemented significant cost savings and efficiencies during the course of the industry downturn. Our future operating results and financial condition depend on our ability to sustain these cost savings and realize the efficiencies related to our productivity initiatives.

- **Indebtedness & Liquidity** – Based on the Company’s capital structure and the terms of our debt facilities, our ability to secure additional capital in the future, to the extent it becomes necessary to do so to fund operations, is uncertain.

Management and Directors will continuously monitor and mitigate these risks.
## 2016 Priorities
Focus on Safety, Productivity, Innovation & Cash
