DISSASSEMBLY AND REASSEMBLY OF ROCK DRILLS

COMPONENT TOLERANCES

PRODUCT FAILURE ANALYSIS

LUBRICATION

Boart Longyear Service Technicians will provide you with the key information needed to operate and perform basic repairs on your hydraulic and pneumatic rock drills. This program is designed to reinforce the importance of proper maintenance, lubrication and usage of your rock drill to ensure optimum performance.

OPTION A: 2-day training program focused on hydraulic rock drills (HD65 and HD150/155).

OPTION B: 3-day training program focused on pneumatic rock drills (S250 and S36IR).

OPTION C: 5-day complete training program covering both hydraulic and pneumatic rock drills.

Courses can be held at your location or at the training facility in North Bay, Ontario. For further details on the Rock Drill Training Program, or to book a course please contact our service department.
